

**Carlos E. Crespo-Hernández, Ph.D.**

**Case Western Reserve University**

**Department of Chemistry**

10900 Euclid Avenue, Cleveland, OH 44106

Faculty Website: <http://www.case.edu/artsci/chem/faculty/crespo/>

Group Website: <http://www.case.edu/artsci/chem/faculty/crespo/group>

Phone: (216)-368-1911

Email: [carlos.crespo@case.edu](mailto:carlos.crespo@case.edu)

<b>Professional Preparation</b>	<b>B.S. in Chemistry</b> <b>University of Puerto Rico</b> , San Juan Campus, Puerto Rico Research work with R. Arce on Photochemistry of DNA and Amino Acid Components	1995
	<b>Ph.D. in Physical Chemistry</b> <b>University of Puerto Rico</b> , San Juan Campus, Puerto Rico Graduate work with R. Arce on Photophysical and Photochemical Studies in Nucleic Acids	2002
	<b>NIH Postdoctoral Fellow</b> <b>The Ohio State University</b> , Columbus, OH Research work with B. Kohler on Ultrafast Excited State Dynamics in Nucleic Acids	2003 – 2005
	<b>Research Associate</b> <b>The Ohio State University</b> , Columbus, OH Research work with B. Kohler on Ultrafast Excited State Dynamics in Single- and Double-Stranded DNA Polymers	2005 – 2006
<b>Appointments</b>	<b>Assistant Professor</b> Case Western Reserve University, Cleveland, OH	2007 – present
	<b>Co-director of the Center for Chemical Dynamics</b> Case Western Reserve University, Cleveland, OH	2008 – present
	<b>Editorial Member of the journal ISRN Spectroscopy</b>	2011 – present
	<b>Committee Member of Grants and Awards for the American Society for Photobiology</b>	2011 – present

**Honors and Awards**

1) Selected in the 40-40 Club (2010). Recognizes young Hispanic leaders in the Cleveland community.

**TEACHING / MENTORING**

**Courses Taught**

- CHEM 332: Laboratory Methods in Physical Chemistry, spring 2008, 2009, 2010, & 2011, 3 credit hours.
- CHEM 305: Introduction to Laboratory Methods in Physical Chemistry, spring 2009, 2010, & 2011, 3 credit hours.
- CHEM 446/337: Quantum Mechanics I, fall 2008 & 2010, 3 credit hours.
- CHEM 406: Chemical Kinetics, fall 2009 & 2011, 3 credit hours.
- CHEM336: Physical Chemistry II, spring 2012, 3 credit hours.

**Post Graduate Associates**

- 1) Dr. Amy Sage (02/01/2008 – 11/30/2008). Currently postdoctoral researcher at Kent State University, Department of Chemistry, working with Prof. Shanhu Lee group.
- 2) Dr. Christian Reichardt (04/2008 – 02/28/2011)
- 3) Dr. Olexandr Isayev (04/01/2009 – present)

### **Graduate Students**

- 1) R. Aaron Vogt (start date 01/08/2007)
- 2) Chengwei Wen (start date 01/08/2008; Master's Plan B completed on 12/2011)
- 3) Cao Guo (start date 01/08/2009; Master's Plan B completed on 12/2011)
- 4) Qing Wang (start date 01/08/2009; Master's Plan B completed on 12/2011)
- 5) Huijuan Huang (start date 01/08/2010)
- 6) Nicholas Dunn (start date 01/08/2011)
- 7) Marvin Pollum (start date 01/08/2011)

### **Undergraduate Students**

- 1) Jeff Lyvers (2008). Currently working in the Department of Pharmacology, Case Western School of Medicine.
- 2) Bradley Sutton (2008 – 2009). Currently working at Epic Systems Corporation in Madison, WI.
- 3) Do-Yong Kim (2008 – 2009). Currently graduate student at Texas A&M University, Department of Chemistry, working with Prof. Simon W. North group.
- 4) Joyann Marks (Fisk University, summer 2009). ACES NSF-Advance 2009 Summer Research Program Fellow.
- 5) Leah Dodson (2008 – 2010). Currently graduate student at California Institute of Technology, Department of Chemistry, working with Prof. Okomura group.
- 6) Saeed Rahman (2008 – 2010). Currently in Cambodia, Peace Corps.
- 7) Ricardo Vidot (2008 – 2011). ACS Scholars Fellow.
- 8) Hannah Jenkins (2011 – present)
- 9) Veronica Laos (2011 – present)

### **High School Students**

- 1) Courtney Johnson (summer 2008)
- 2) Matthew Beard (summer 2010; ACS-SEED Program)
- 3) Briana Sealey (summer 2011; ACS-SEED Program)

### **Recent Synergistic Activities**

#### ***Broadening the participation of underrepresented groups in science, mathematics, engineering and technology***

- Associated Faculty of the Minority Graduate Student Organization (MGSO) at Case Western Reserve University (2007 – present). The MGSO was formed in 2001 to foster a student group identity and shared values. The MGSO meets once a month to discuss members' research experiences.
- Reviewer for the CWRU Support of Undergraduate Research & Creative Endeavors (SOURCE) Program (2008 – present).
- Advisory Board Member of the Support of Undergraduate Research & Creative Endeavors at CWRU (2009 – present).
- ACS-Scholars Mentoring Consultant (2007 – 2011). I was university mentor of Mr. Ricardo Vidot, who is member of an underrepresented minority group in the Department of Chemistry at CWRU.
- Many Faces of STEM, 2008 – 2011. I was actively involved in workshops for underrepresented 8<sup>th</sup> and 9<sup>th</sup> graders in the Cleveland Municipal School District focusing on science, technology, engineering, and mathematics (STEM) fields. The primary goal was to strengthen STEM concepts and motivate students to follow STEM career path in the future. This was a joint effort with Dr. LaShanda Korley, African-American and Assistant Professor of Macromolecular Science and Engineering Department at Case Western Reserve University.
- Awardee and coordinator of the ACS SEED Summer Program (2010 & 2011). Summer research experience for economically disadvantaged or underrepresented high school students in Cleveland.

### **SERVICE**

#### ***Service to the University and Department***

- Ongoing collaboration with Ms. Churyl Croone, Assistant Director, International Student Recruitment

Coordinator Territories: International Countries, to increase population of undergraduate students from Puerto Rico (2007– present).

- Ongoing collaboration with Mr. Joseph T. Williams, Director, Office of Multicultural Programs (2007– present).
- Member of the Chemistry Graduate Admissions Committee (2007– present).
- Advisory Board Member of the Support of Undergraduate Research & Creative Endeavors at CWRU (2009 – present).
- Member of the Alpha Chi Sigma Chemistry Student Fraternity (2010 – present).
- Member of the Chemistry Visibility Committee (2011 – present).
- Reviewer for the CWRU Support of Undergraduate Research & Creative Endeavors (SOURCE) Program (2008 – present).
- Chair and organizer of the 2011 Graduate Chemistry Retreat (October 8, 2011). In this event, 4th-year graduate students present orally their research work to the faculty and to other graduate students in our department.
- PI and coordinator of the ACS SEED Summer Program. Summer research experience for economically disadvantaged or underrepresented high school students in the greater Cleveland area (Summers 2010 & 2011).
- I collaborated with Ms. Lisa Dunnigan, Assistant Director and Coordinator of Multicultural Student Recruitment Programs, Office of Undergraduate Admission, CWRU (2008 – 2011). I participated on the Diversity Weekend Recruitment Brunch hosted by Undergraduate Admission.
- Member of the Chemistry Resources Committee (2008 – 2011).
- Member of the Energy and Material Science New Faculty Recruiting Committee (Spring 2008).
- Member of the Chemistry Executive Committee (2007 – 2008).

### **Workshops Organized**

- Many Faces of STEM (Fall 2008). A workshop and hands-on experience for underrepresented 8<sup>th</sup> and 9<sup>th</sup> graders in the Cleveland Municipal School District focusing on science, technology, engineering, and mathematics (STEM) fields.
- Principles and Applications of Time-Resolved Spectroscopy: CERMACS09 Workshop and Open House hosted in the Center for Chemical Dynamics at Case Western Reserve University. A one-day workshop and hands-on experience for students, postdoctoral researchers, and faculty on principles and applications of time-resolved spectroscopy. Part of the CERMACS09 meeting. May 2009.
- Many Faces of STEM (Fall 2009). A workshop and hands-on experience for underrepresented 8<sup>th</sup> and 9<sup>th</sup> graders in the Cleveland Municipal School District focusing on science, technology, engineering, and mathematics (STEM) fields.
- Preparing and Delivering Scientific Talks (Fall 2011). As part of the 2011 Graduate Chemistry Retreat, I prepared a seminar for 4th-year graduate students about tips for preparing and delivering scientific talks and how to effectively use visual aids.

### **Service to the Outside Scientific and Engineering Community**

- Editorial Board Member of the journal *ISRN Spectroscopy* (2011 – present).
- Committee Member of Grants and Awards for the American Society for Photobiology (2011 – present).
- Active reviewer of several scientific journals. These include: *Angewandte Chemie International Edition*, *Applied Physics Letters*, *Biochemistry*, *Chemical Communications*, *Chemical Physics Letters*, *ChemPhysChem*, *Journal of Chemical Physics*, *Journal of Computational and Theoretical Chemistry*, *Journal of Molecular Structure*, *Journal of Photochemistry and Photobiology*, *Journal of Physical Chemistry*, *Journal of the American Chemical Society*, *Langmuir*, *Physical Chemistry Chemical Physics*, *Photochemistry and Photobiology*, and *Radiation Research*.
- Active reviewer of proposals for the National Science Foundation including a 2009 NSF-MRI review panel, 2010 NSF-CRIF-MU review panel; ACS Petroleum Research Fund, Research Corporation for Science Advancement (Cottrell College Science Award), and the Ohio Supercomputer Center.

### Conferences Organized

- Symposium Chair: The 33<sup>rd</sup> American Society for Photobiology Meeting, Río Grande, Puerto Rico. Symposium title: Early Events in Photochemistry and Photobiology: Section I. Ultrafast Excited State Dynamics and Charge Transfer in DNA and Section II. Fast Processes in DNA Photorepair, DNA Interactions, and Proteins. July 2006.
- Co-chair of the Physical Chemistry General Sessions: 2009 Central Regional Meeting of the American Chemical Society (CERMACS09). May 20-23, 2009.

### RESEARCH / SCHOLARSHIP

#### Proposal and Award Activity

Omitted for the web version.

#### Collaborators and Co-editors (during the past 5 years)

- Antonio E. Alegría, Department of Chemistry, University of Puerto Rico, Humacao, Puerto Rico, USA
- Rafael Arce, Department of Chemistry, University of Puerto Rico, San Juan, Puerto Rico, USA
- Gotard Burdzinski, Department of Physics, Adam Mickiewicz University, Poznan, Poland
- David Close, Department of Physics, East Tennessee State University, Johnson City, Tennessee, USA
- Carmelo García, Department of Chemistry, University of Puerto Rico, Humacao, Puerto Rico, USA
- Leonid Gorb, Department of Molecular Biophysics, Institute of Molecular Biology and Genetics, National Academy of Science of Ukraine, Kyiv, Ukraine
- Thomas Gray, Department of Chemistry, Case Western Reserve University, Cleveland, Ohio, USA
- Jerzy Leszczynski, Computational Center for Molecular Modeling Structure and Interactions, Department of Chemistry, Jackson State University, Jackson, Mississippi, USA
- Michael A. Meador, Polymeric Material Branch, NASA Glen Research Center, Cleveland, Ohio, USA
- Javier Santos-Pérez, Polymeric Material Branch, NASA Glen Research Center, Cleveland, Ohio, USA

#### **Invited Oral Presentations** (May, 2006 – present)

1) Does DNA Dynamics Come in Singlet and Triplet Flavors?, Jackson State University, Department of Chemistry, Jackson, Mississippi, October 8, 2010.

2) Time-Resolved Photochemistry of DNA, University of Akron, Department of Chemistry, September 14, 2010.

3) Shining Light on the Molecule of Life, 35<sup>th</sup> American Society for Photobiology Meeting, Providence, Rhode Island, June 12-16, 2010.

4) Shining Light on the Molecule of Life, Calvin College, Department of Chemistry, Grand Rapids, Michigan, March 4, 2010.

5) Shining Light on the Molecule of Life, Hope College, Department of Chemistry, Holland, Michigan, March 5, 2010.

6) Time-Resolved Photochemistry of DNA, Case Western Reserve University, NIH/NHLBIT35 Program, School of Medicine, Cleveland, Ohio, June 10, 2009.

7) Ultrafast Dynamics of Biomolecules and Nitro-Aromatic Compounds, Jackson State University, Department of Chemistry, Jackson, Mississippi, March 27, 2009.

8) DNA Photodynamics: From Single Bases to the Double Helix, Case Western Reserve University, School of Medicine, Department of Biochemistry, Cleveland, Ohio, October 30, 2008.

9) Probing DNA Electronic Energy Flow and Its Mutagenic Consequences, Department of Chemistry, Cleveland State University, Cleveland, Ohio, October 10, 2008.

10) Academy as a Professional Career Path for Underrepresented Groups in Sciences, Case Western Reserve University, T35 Minority Training Grant, School of Medicine, Cleveland, Ohio, June 11, 2008.

11) Excess Energy Flow in DNA: Bench and Computer Experiments Working in Unison, Software Applications and Codes Meeting for the Ohio Supercomputer Center Bioscience Cluster Expansion, Ohio Supercomputer Center, Columbus, Ohio, April 4, 2008.

12) Academy as a Professional Career Path, Case Western Reserve University, School of Medicine, Minority Graduate Student Organization, Cleveland, Ohio, January 18, 2008.

13) Vertical Singlet Excitations on Adenine Dimer: A Time Dependent Density Functional Study, at the "Modeling Complex Molecular and Biomaterial Systems" ICCMSE Symposium, the International Conference of Computational Methods in Sciences and Engineering, Corfu, Greece, September 27-30, 2007.

- 14) Excited State Dynamics in Single and Double-Stranded DNA Constructs: Ultrafast Formation of the Major Radiation Product in DNA, at "Frontiers in Optics 2007", the 91<sup>st</sup> Annual Optical Society of America Meeting, San Jose, California, September 16-20, 2007.
- 15) Relaxation of Excess Electronic Energy and Ultrafast Formation of Thymine-Thymine Photodimer in DNA, Case Western Reserve University, Cleveland, Ohio, January 30, 2007.
- 16) Excited State Dynamics in Nucleic Acid Monomers and Polymers: UV-Induced Ultrafast Formation of Thymine-Thymine Photodimer in DNA, University of Houston, Houston, Texas, January 11, 2007.
- 17) Ultrafast Excited State Dynamics: Direct Observation of DNA Damage by UV Light; University of Miami, Coral Gables, Miami, January 4, 2007.
- 18) Ultrafast Energy Relaxation in Biomolecules: Real Time Observation of DNA Damage by UV Light; University of North Carolina, Chapel Hills, North Carolina, December 18, 2006.
- 19) From Femtochemistry to Femtobiology: Direct Observation of Excited State Dynamics and DNA Damage by UV Light; University of Kansas, Kansas City, Kansas, December 14, 2006.
- 20) Early Events in DNA Photophysics; 17<sup>th</sup> Inter-American Photochemical Society Conference on Photochemistry, Salvador, Bahía, Brazil, June 11-June 16, 2006.
- 21) Real Time Observation of DNA Damage by Ultraviolet Radiation: New Insights Half a Century After Watson-Crick's Discovery of Double Stranded DNA; University of Puerto Rico, San Juan Campus, San Juan, Puerto Rico, May 16, 2006.

**Contributed Oral Presentations** (May, 2003 – present)

- 1) Solvent Relaxation Following Vibrational Cooling in the Triplet Manifold of 1-Nitronaphthalene, XXIV International Conference on Photochemistry, Toledo, Spain, July 19 to 24, 2009.
- 2) Base stacking, not base pairing, governs excited-state dynamics in A·T-containing DNA, The 230<sup>th</sup> ACS National Meeting, Washington, DC, August 28 – September 1, 2005.
- 3) Base stacking, not base pairing, governs excited-state dynamics in A·T-containing DNA, 60<sup>th</sup> Annual Molecular Spectroscopy Symposium, Mini-symposium, Bio-relevant Molecules, Columbus, OH, June 20-24, 2005.
- 4) Intra- versus Inter-Strand Excited-State Dynamics in A·T-Containing Double Stranded DNA, 4<sup>th</sup> Meeting of the Ohio Photochemical Society, Oxford, Ohio, May 20-22, 2005.
- 5) Research in Kohler's Group, Autumn Research Presentation to First Year Graduate Students, Department of Chemistry, The Ohio State University, October 14, 2004.
- 6) *Ab initio* Ionization Energy Thresholds of DNA and RNA Bases in Gas Phase and in Aqueous Solution, 4<sup>th</sup> Southern School on Computational Chemistry, Orange Beach, Alabama, March 26-27, 2004.
- 7) Photophysics of DNA and RNA Polymers Studied by Femtosecond Pump-Probe Spectroscopy, The 31<sup>st</sup> Annual Meeting of the American Society for Photobiology, Baltimore, Maryland, USA, July 5-9, 2003.
- 8) Photophysics of DNA and RNA Polymers Studied by Femtosecond Pump-Probe Spectroscopy, The 2<sup>nd</sup> Ohio Photochemical Society Meeting, Ohio, USA, May 16-18, 2003.
