

CURRICULUM VITAE

Robert C. Dunbar

Birthdate: June 26, 1943, Boston, Massachusetts

Education: B.A. degree in Chemistry, Harvard University, 1965
Ph.D. degree in Chemical Physics, Stanford University, 1970

Thesis: "Ion Cyclotron Resonance Studies of Ion-Molecule Interactions", under the direction of Professor John D. Baldeschwieler

Employment: Research Associate, March-June, 1970, Stanford University
(investigating photodissociation processes in cations)

Assistant Professor of Chemistry, Case Western Reserve University, 1970-1975

Associate Professor of Chemistry, Case Western Reserve University, 1975-1978

Professor of Chemistry, Case Western Reserve University, 1978 - present

Honors and Awards: Sloan Fellow, 1973-1975

Sigma Xi Research Award, 1977

John Simon Guggenheim Memorial Fellow, 1978-79

Society Memberships: American Chemical Society
American Society for Mass Spectrometry
American Physical Society
Inter-American Photochemical Society
