CONNECTIONS BETWEEN COGNITIVE NEUROSCIENCE AND PSYCHOANALYSIS

Pincus, D. and Bonaventura, P. “Words as things, words as meanings: the testing of a psychoanalytic principle.” Invited commentary on the target article: “Testing Freud’s hypothesis that word forms and word meaning are functionally distinct: subliminal primary process cognition and its link to personality” by Karen Klein Villa et al.; to appear in *Neuro-Psychoanalysis*, vol. 8, n. 1, 2006.
