The Biology Department of Case Western Reserve University seeks to fill a tenure track position in Developmental Genetics. Applicants with expertise in Developmental Genetics including those related to Regenerative Medicine, Stem Cells, Tissue Engineering or Molecular Evolution, are encouraged to apply. The appointment can be at either the Assistant or Associate Professor. Qualifications for the position include a Ph.D. in an appropriate discipline, demonstrated potential to lead a strong independent extramurally funded research program, and the ability to develop and teach courses at the undergraduate and graduate level in developmental biology, genetics, or cell biology. Appointment at the level of Associate Professor requires a national reputation for research expertise, a distinguished record of publication, and demonstrated extramural funding. Electronic applications (including current curriculum vitae, a letter of application, and a description of research and teaching interests) should be submitted to Christopher Cullis, cac5@case.edu, Chair of the Department of Biology. Candidates should arrange to have three letters of recommendation sent directly to the same email address with hard copies sent to Dr. Christopher Cullis, Department of Biology, Case Western Reserve University, 10900 Euclid Avenue, Cleveland, OH 44106-7080. Applications should be received by February 1, 2011 to receive full consideration. In employment, as in education, Case Western Reserve University is committed to Equal Opportunity and World Class Diversity. Women, veterans, members of underrepresented minority groups, and individuals with disabilities are encouraged to apply.

Case Western Reserve University is a private university located in Cleveland, Ohio. Faculty research interests in the Department of Biology at CWRU include Animal Behavior, Cell and Developmental Biology, Ecology and Evolutionary Biology, Genetics, Neurobiology, and Plant Biotechnology. In addition to on-campus facilities, CWRU owns and operates University Farms, a 389-acre property that includes laboratory and greenhouse facilities, has an affiliation agreement with The Holden Arboretum and participates in cooperative programs with the Cleveland Museum of Natural History and Cleveland Metroparks Zoo.
