Biorepository Process

Research involving tissue samples

Do samples exist?

No → Prospective

Yes → Clinical archives (FFPE, slides)

HTPF biorepository

Identify a collaborating pathologist

Develop process for sample collection within lab that aligns with standards

Develop consent

Statistician should be consulted.

Develop protocol

TRRC

Submit PRMC application

Link to universal consent and HTPF consent

Submit IRB application

Link to IRB guidance document

Link to tissue research guidance and biomedical protocol

Determine tissue research or biomedical protocol

Link to MTA, MSA, and DUA definitions/SOP

Approved?

Yes → Complete

No → Resubmit
