SEARCH TIPS

Block 3, Class of 2016

Please be authenticated through Case Wireless, or have VPN open and connected.

- From the CHSL Electronic Books page, please go to AccessMedicine.
  - In the search box, type GOUT and click on search.
  - Look for Pharmacotherapy of Gout from Goodman & Gilman's The Pharmacological Basis of Therapeutics, 12e.

- From the Cleveland Health Sciences Library's home page, please click on PubMed.
  - Go to Clinical Queries and type OSTEOMESIS IMPERFECTA in the search box and click on search.
  - Under MEDICAL GENETICS, click on See all.
  - Look for the article by Semler O, PMID: 22863195.
  - Notice the link to OL EJC and to FindIT!
  - Return to the abstract at PubMed and look for OMIM (cited) under Related Information. Look at 610967.

- From the Cleveland Health Sciences Library page, go to Library Catalogs & Databases, on the left sidebar, and click on MEDLINE options, select MEDLINE with full text (EBSCO).
  - Under Limit your results, choose Image Quick View – near the bottom of the screen.
  - Return to the top of the screen. In one search box enter OXIDATIVE PHOSPHORYLATION, and in another search box ELECTRON. The default Boolean Operator is AND. Click on Search.
  - Look for the article by Kirby DM, PMID: 18637740.
  - Choose Figure 1 by clicking on it. Look at How do I cite this image? Look at What am I allowed to do with this image?
  - Return to the entry and look for the full text and the OLinks – Find IT!

A general reminder –

MDConsult has been replaced by ClinicalKey. There are over 900 books, over 500 journals, over 13,000 videos, First Consult point-of-care and much more. Mobile access is available.
