SEARCH TIPS

Block 6 Search Tips

Please be authenticated through CaseWireless or hardwired through CWRU’s network.

- From the SOM Portal or CHSL’s homepage, please access PubMed.
  - Under More Resources, go to the MeSH Database.
  - Enter STROKE in the search box. Click on STROKE – single word. Choose the subheading classification, Restrict to MeSH Major Topic, Add to Search Builder and Search PubMed.
  - Go to Limits and choose Humans and English and Search. Remember Limits remain for 8 hours!
  - From the right side bar, choose Review and look for the article by Ay H., PMID: 20425221.
  - Full text is available at OhioLINK EJC.

- Return to the abstract for the article by Ay H. From the drop down box, choose MeSH and enter PARKINSON DISEASE in the search box, click on Search.
  - Restrict to MeSH Major Topic and Add to Search Builder.
  - Enter DIFFERENTIAL DIAGNOSIS in the search box.
  - Check the box to the left of DIAGNOSIS, DIFFERENTIAL and Add to Search Builder.
  - Search PubMed. Notice that the Limits are still in effect.
  - Look for the article by Wirdefeldt K., PMID: 21626386.
  - There are two links: OL EJC and FindIt! Try both.
  - From FindIt!, copy the DOI, go to http://doi.org, enter the DOI in the search box and click on Submit.
  - Full text is available from the publisher’s site.

- From CHSL’s homepage, go to Catalogs and Databases by Category and then to MEDLINE with Full Text.
  - Under Limit your results, choose Image Quick View.
  - In the search box, enter BASAL GANGLIA ANATOMY.
  - Look for the article by Chakravarthy VS, PMID: 20644953.
  - There is a link for the full text.
  - There are images – click on the first image.
  - There are three links: High resolution, information on how to cite, and information on permissions.
  - Look at all three.
