PubMed

Look for MeSH Database

In the Search Box, enter TYPE 2 DIABETES.
MeSH - Type 2 Diabetes

There are 2 choices – choose the first by clicking on the words.

Restrict to MeSH Major Topic.
Add to search builder.
Search PubMed.
PubMed Results

Notice the filters on the left and additional links on the right. There are too many articles to browse. Click on to return to the main screen.
PubMed – Topic-Specific Queries

Choose Topic-Specific Queries.

Scroll down to HEALTH DISPARITIES ... and click on it.
MEDLINE/PubMed health disparities search

Click on this search link.

We are back at PubMed with even more results than before. Notice ADVANCED and click on it.
Building a search...

By clicking on the word ADD (from the two different searches) in the ADD TO BUILDER column, the search boxes are populated by those terms. Now click SEARCH.
Using Filters in PubMed

- Click on SHOW ADDITIONAL FILTERS.
- Click on JOURNAL CATEGORIES and AGES.
- Click SHOW.

- Filters & History remain for 8 hours by IP address.
Using filters ...

- By choosing CORE CLINICAL JOURNALS and ADULT 19+ YEARS, we have a reasonable number of citations to browse.

- Look for the article by Parker MM et al. in JAMA Internal Medicine.
Association of Patient-Physician Language Concordance and Glycemic Control for Limited-English Proficiency Latinos With Type 2 Diabetes.

Available from: http://jamanetwork.com/journals/jamainternalmedicine/fullarticle/2599011
Citing this article

This style is Vancouver.
Look for CLINICAL GUIDELINES AND RECOMMENDATIONS under PROGRAMS.
Type DIABETES in the search box.

Look for the guideline from the Academy of Nutrition and Dietetics on Diabetes type 1 and type 2 evidence-based nutrition practice guideline.
