Notes for Students:

- Grades will be provided based upon:
  - class attendance (attendance will be taken)
  - student participation (oral questions and comments)
  - a student oral presentation
  - a quiz
  - a final paper

- Papers for each lecture will be assigned one week in advance and will be posted on the class website

- Papers for student presentations will be assigned in early September

- A ‘midterm evaluation’ will be given to indicate if you are on track for a satisfactory performance (A or B)

- One of the special lectures does occur off class hours

- Drs. Diamond, Katze and Katz will be available for group student luncheons

- We require background working knowledge of viruses, such as familiarity with all of the textbook ‘Principles of Virology’ by Flint et al.

- Class organizers:
  Dr. Robert Silverman [silverr@ccf.org] 216-445-9650
  Dr. Catherine Patterson [cep8@case.edu] 216-368-0377
