INTENSIVE COURSE IN
Controlled Substance Prescribing
Pain, Anxiety, Insomnia
February 8-10, 2016
June 6-8, 2016
October 31-November 2, 2016
George S. Dively Conference Center
11240 Bellflower Rd., Cleveland, Ohio

Sponsored by:
Continuing Medical Education Program

School of Medicine
Case Western Reserve University
University Hospitals
Case Medical Center
INTENSIVE COURSE IN
Controlled Substance Prescribing

Who Should Attend?
The Intensive Course in Controlled Substance Prescribing is designed for physicians in all specialties who need or wish to increase their knowledge and ability to effectively prescribe controlled medications that have abuse potential. In addition, the course is designed for physicians who treat chronic pain syndromes.

Statement of Need
Controlled substances are prescribed and dispensed today at an increasing rate to help patients cope with pain, insomnia, anxiety, depression, ADHD, and myriad other disorders. Studies show that most practitioners are rather conservative when prescribing controlled drugs while a small number are at times overly aggressive. In addition, controlled prescription medications are falling into the hands of increasing numbers of prescription drug abusers.

How can the practitioner more effectively understand the pharmacologic profiles for controlled drugs, identify diagnostic criteria for appropriate prescribing, and consider the therapeutic implications of specific substance use by individual patients? This special intensive course has been developed to enhance the physician’s ability to effectively prescribe controlled medications, while minimizing their misuse whenever possible.

Participant Learning Objectives
After attending this course, participants will be able to:

• Describe the pharmacologic profiles of benzodiazepines, opiates and other controlled drugs
• Identify the diagnostic criteria and management strategies for acute and chronic pain, anxiety disorder, insomnia, depression and substance abuse
• Employ interviewing techniques relating to the diagnosis and management of substance abuse in general and prescription drug abusers in particular
• Discuss case management strategies for the above diagnoses
• Discuss beliefs, stereotypes, and attitudes about controlled substance prescribing, controlled drug abusers and chemical dependency, and consider the therapeutic implications of treatments based upon these beliefs

Educational Design and Methodology
The course combines lectures, participative discussions, case studies, a personal case-based reflective essay, and individual skill practice with standardized patients and simulations to create an intensive interactive learning environment.

For More Information
Call Case Western Reserve University, Continuing Medical Education Program, phone (216) 963-1239 or (800) 274-4203 or visit http://casemed.case.edu/cme/

Monday
7:30-8:00 am Registration
8:00-9:00 am Course Outline and Prescription Drug Abuse Overview
9:00-10:15 am Benzodiazepine Pharmacology and Withdrawal Management
10:15-10:30 am Break
10:30-12:00 pm Psychological Approaches to Chronic Pain
12:00-12:15 pm Lunch Session: Legal Issues – Perspective of the State Medical Board
12:15-1:30 pm Chemical Dependence Screening and Skill Session
1:30-3:00 pm Break
3:00-4:15 pm Narcotic Pharmacology
4:15-5:15 pm Patient Scams “Getting to No” Skill Practice
5:15-6:00 pm Toxicology Testing in Office Practice

Tuesday
7:00-7:30 am Registration
7:30-8:30 am Use of Opiates in Chronic Pain
8:30-9:30 am Headache Management
9:30-9:45 am Break
9:45-11:15 am Legal Issues: Perspective of Risk Management
11:15-12:00 pm Management of Narcotic Withdrawal
12:00-12:15 pm Break to get lunch
12:15-1:45 pm Lunch Session: Brief Intervention for Substance Abuse Disorders and Skills Practice
1:45-2:30 pm Applied Opiate Pharmacology Excerpts from the ER-LA CORE REMS
2:30-2:45 pm Break
2:45-3:45 pm Prudent Prescribing of Stimulants
3:45-5:45 pm Diagnosis and Treatment of Mood and Anxiety Disorders

Wednesday
7:00-7:30 am Registration
7:30-8:00 am Overview of Opioid Maintenance Therapy
8:00-9:15 am Practical Approaches to Prescribing Chronic Opioids and Skill Practice
9:15-9:30 am Break
9:30-10:30 am Insomnia—Physiology and Diagnostic Case Presentations
10:30-11:15 am Forming a Plan for Treatment and Recovery and Skills Session
11:15-11:45 am Substance Abuse Disorders: Impact on the Family
11:45-12:00 pm Break to get lunch
12:00-1:00 pm Lunch Session: Substance Abuse Disorders: Impact on the Family (continued)
1:00-3:00 pm Controlled Substance Prescribing Simulation
