February – March, 1999

I traveled to Ghana for about six weeks that started on February 1, 1999.

I worked at Aninwah Medical Center in Emena, Kumast. A good contact person for this site is Dr. Emmanuel Tuffour 216-541-3600.

I really enjoyed this experience. This had been a wonderful opportunity that I wouldn't have had if it weren't for the help of the school. I hope to return to Ghana someday. Everyone should travel somewhere to get a different perspective on medicine.
