Tropical Medicine
& its
Challenges ?

"Open to students with minimal Spanish."

Spend 4 to 8 weeks working with Ecuadorian physicians in various clinical settings in Quito and rural Ecuador. Students will spend 2 weeks in Quito and 2 weeks in a rural setting.

Opportunities are available to explore rural community health education, and issues surrounding the treatment and diagnosis of Tropical Diseases.

PROGRAM INCLUDES:

- Introductory lectures on Tropical Medicine
- Clinical rotations - Spanish classes with an emphasis on Medical Spanish
- Cultural immersion and home stay
