Hakon Torjensen, Director  
Center for International Study  
CWRU School of Medicine

Aug.13,1991

Dear Mr. Torjensen:

Following our discussion of the Bahamas elective I gathered some of the pertinent names at Princess Margaret (PMH). My suggestion is to speak initially with Dr. Joe Colaco (pronounced "Colasso"). I worked with Dr. Colaco a great deal and discussed the CWRU/PMH connection at great length. Dr. Colaco belongs to the Education Committee at the hospital, the WHO Pan American Council, the regional medical association, and a great number of other professional organizations. He is very motivated and extremely easy to deal with. I feel that he would best be able to give you initial guidance and feedback as you work to establish contact. I did not work with Dr. Whitfield, the Head of the Family Practice Department, and therefore cannot comment on his suitability as initial contact. It is my understanding that he expressed an interest in continued association with CWRU to Jackie Berry. Dr. Agreta Eneas served as our initial contact, but as she is not currently employed at the hospital it would probably be wise to establish other contacts.

The Acting Medical Chief, Dr. Glen Beneby, should also be contacted. He serves as Medical Chief as well as the Head of Anesthesiology. Interest was expressed on his behalf by Dr. Colaco, but you may find that his many duties make him harder to contact initially.

The following is a list of interested staff at Princess Margaret Hospital:

Dr. Glen Beneby- Acting Medical Chief,  
also Head of Anesthesiology  
Dr. Jose (Joe) Colaco-Senior Pediatric Registrar  
Dr. Robin Roberts- Dept. of Urology  
special interest in prostatic cancer  
Dr. Harry Monies- Dept of Gastroenterology (GI)  
Dr. Palmer Brown- Dept.of Cardiology

They may be reached via:

Princess Margaret Hospital  
P.O. Box 3729  
Nassau, Bahamas

(809) 322-2862 hospital switchboard  
(809)326-8804 FAX number for hospital administration

If you would like to discuss this matter further please feel free to contact me.

Sincerely,

  
Laura Y. Huff
