  - The Privacy Ambassadors Network is cohort-based; 35-40 individuals from across campus have been invited to participate.

- **Information & Technology Services Strategic Plan** – Jess Shoop (Senior Project Director @ ITS), Sue Workman (VP of ITS), and Steven Hauck (Professor of Planetary Geodynamics) – gave presentation regarding their “Listening Tour” across campus; they have been trying to identify the key needs of the CWRU community. a. **COMMUNICATIONS:** Shannon Swiatkowski & Diana Fox
   The Communications committee met on 11/12/15.

• We would like to remind all elected members to visit the Committee Selection Form that is available on the Standing Committees page of the website. Elected reps can designate the subcommittee on which they plan to serve and make changes whenever necessary. Also, if you would like to add content to the website, please visit the Communications Committee page to submit a request.
• We are also working on a draft letter to send to new members with expectations and responsibilities of being a SAC member.
• The committee is still welcoming new members: website updating, article writing, and/or photographers.

d. FRINGE BENEFITS: Cheryl King & Karen Romoser

  Committee met on 11/17/15; In attendance: Cheryl King, Nancy Vitale, Nanthawan Avishai, Patricia Green, Karen Romoser
  • Old Business
  The committee’s focus continues to be on the Health Wellness program at CWRU, and how can we have the “Fitbit” as an “incentive” or at a “reduced” rate for our health wellness participants. We discussed the many ways staff could use a Fitbit to stay healthy. Also, how many of our peer institutions have incorporated the fitbit into their health wellness programs. To name a few peer institutions using the fitbit – TriC, University Hospitals, Notre Dame. The November issue of CWRU Wellness Newsletter reported polling results of staff using Fitbits, and out of the 138 responders 67 or 49% use the Fitbit to help to stay active (which is a large percentage of use). We believe we can increase these numbers.

  • New Business
The committee is looking for HR Fringe representative. Barb Juknialis is our SAC representative at the University’s Fringe board meetings, but we need someone from the University HR department who can give our committee updates, or to answer questions regarding staff fringe benefits issues or concerns we discuss to make sure we are not wasting time on issues that may not garner support from the University. Amy Sheldon (from HR) has come to some of our meeting, and when she does she shares information from HR which helps us tremendously in working on SAC fringe benefit issues. It’s our understanding that the University has a wellness committee which we would like somebody to sit with this committee or at least have someone from that committee to report information to SAC Fringe committee. We are looking for contributions instead of just rubber stamping ideas from SAC Fringe committee meetings, and representation at all our (SAC-FB) meetings.

**Fringe Benefits Committee: 12/15/2015** In attendance: Cheryl King, Colleen Karlo, Nanthawan Avishai, Patricia Green, Amy Sheldon.

- **OLD BUSINESS**
  The committee’s focus is still with health wellness programs here at CWRU. We are looking for ways to have the funds to promote to staff at discounted rate the Fitbit. We continue to think that the fitbit being used to track calories, steps, heart rate, is something everyone could use as a way to be more healthy in 2016. Could the University purchase a number of fitbit’s and then offer them as an “incentive” as part of the wellness program? Or, the University could purchase another type of “tracker”, (a fitbit “knockoff”) and then if you meet certain incentives (as determined by wellness team) you will receive the Fitbit as an award for meeting those incentives. We will invite Mary Ann Dobbins from the wellness program to our meeting to discuss some of our ideas.

- **New Business**
  We are being made aware of some interesting staff salary and discounts happening at our University and others. It is our understanding that at John Carroll University, their hourly staff are getting “extra pay” every 6 months? Does it have to do with the government regulation changing exempt staff and non-exempt staff based on their wages? We are looking into this. What about the parking discount here for staff earning 50K and under? How about a parking discount for all levels of pay? Then there are the staff discounts being offered all round the University Circle area, can this extended to other offerings? Botanical Garden, Art Museum, Case Medical Center – Univ Hospital cafeteria and gift shop. Why no discounts there for staff? Then we discussed other staff issues such as vacation time accruals, how much do we accrue each year? If you leave, you are paid out vacation time, how much are we able to keep in our vacation accruals? Then, there appears to be a big discrepancy in vacation time based on number of years of service for exempt vs. non-exempt staff.

**Next Meeting – Jan. 19, 2016 @ Noon – 1pm: Crawford Hall – Room 720**

Recommendation to Re-administer Staff Climate Survey

It is hereby resolved by the Staff Advisory Council of Case Western Reserve University that the Council recommends that the University administration utilize the Office of Planning and Institutional Research to devise and execute a revised Staff Climate Survey to be repeated in 2016 and at regular intervals to follow; preferably, no greater than every three (3) years.

Whereas

Case Western Reserve University has assessed Faculty job satisfaction with a Faculty Climate Survey and associated data analysis which explores items about overall satisfaction at the university, evaluation of work environment and leadership, access to and satisfaction with resources and support, assessment of the campus climate, and career development aspects such as promotion, access to education, mentoring and retention; and

Faculty have insight into the results and analysis of survey data and resulting recommendations; and

CWRU’s new Strategic Plan restates the University’s commitment to equity and social justice, and that the University will “create a university-wide culture and infrastructure that inspires trust, and fosters personal and professional development”, and emphasizing opportunity for growth, advancement, and recognition of staff value,

Be it Resolved

That we, the members of the Staff Advisory Council of Case Western Reserve University, hereby recommend the following:

○ Office of Planning and Institutional Research will design and execute, in consultation with internal stakeholders, including SAC, a Staff Climate Survey and data analysis modeled after the Faculty Climate Survey (see link: https://www.case.edu/ir/media/caseedu/institutional-research/documents/reports--results/CWRUFacSurvey2014Qualtrics.pdf) ; and

○ Focus on substantive issues which are significant not only to the university administration, but which are representative of concerns expressed by technical, research, clerical, and administrative staff; and

○ Data transparency in reporting and analysis; e.g. with results reported in a format consistent with the format used for the Faculty Climate Survey 2010 on the Institutional Research webpage

Respectfully submitted,
Staff Advisory Council, Case Western Reserve University
