Sustainability Ambassadors

The Office for Sustainability seeks motivated undergraduate students to join a team of 10 Sustainability Ambassadors for the 2016-17 academic year. Sustainability Ambassadors are tasked with outreach and education for the CWRU community and beyond on sustainability issues with particular focus on CWRU’s Climate Action Plan and goal for climate neutrality by 2050.

Ambassadors will undergo extensive training on broad sustainability concepts, addressing on-campus, regional, and global issues with the intention of becoming sustainability experts. Ambassadors will work together in small teams and independently on sustainability-focused projects, such as:

- Organizing a campus freecycle swap event
- Helping to design and rollout a energy-reduction behavior change campaign
- Organizing zero waste athletic or other large crowd special events
- Crafting a plan to enable CWRU to become a certified Bicycle Friendly University
- Participating in internal and external educational opportunities for the CWRU community around events such as Campus Conservation Nationals, Sustainability Week, the Year of Sustainable Transportation, Earth Hour, Earth Day, RecycleMania, REScycle, etc.
- Social media and Website posting as well as other viral marketing initiatives

The successful candidates will have a passion for sustainability and climate change issues, have excellent communication skills, be detail-oriented, organized, and attentive to deadlines. Candidates from diverse majors who have graphic design, writing, or public speaking skills are encouraged to apply.

Commitment
- September 2016 - end of April 2017
- Minimum of 30 hours per semester, including training and meeting times.

Compensation
- Starting salary is $10/hr.
- Hourly rate increases for each consecutive year you participate
- Sustainability swag and opportunities to network and participate in the broader sustainability community.

Use this Google form link to officially apply. We will contact you for phone interviews over the summer.
Please contact sustainability@case.edu with any questions, but only applicants who complete the Google form will be interviewed!
