

NOURISHING POWER NETWORK

Working together to root & grow a local food system that works for all.

The Nourishing Power Network is part of a study testing ways to transform food systems by bridging community power with organizational power to spark & expand food justice initiatives led by the community.

WHAT DO WE HOPE TO LEARN TOGETHER THROUGH THE NETWORK?

- If we cultivate welcoming spaces for community building, will it spark & expand food justice in Greater Cleveland?
- If we support community-led action with financial & technical resources, will it tip the food system to fairness?
- If we root & grow community ownership of local food systems, will it promote equity, vibrancy, & holistic health?
