

# LORD OF THE GLENS

## Perfectly Designed

At less than 150 feet in length, **Lord of the Glens** was designed to transit the network of locks and canals that cut through the heart of the Scottish Highlands. Every cruise on board **Lord of the Glens** journeys along the hauntingly beautiful Caledonian Canal; known as the Royal Route, following its endorsement by Queen Victoria in 1873. The canal transports guests serenely from Inverness to Fort William, and with only 52 guests on board, the emphasis is not on speed, but on style, while the relaxed and cozy atmosphere harks back to tailor-made travel of the old-fashioned variety.

## Classic Style

**Lord of the Glens'** understated, timeless decor perfectly offsets the stunningly beautiful Scottish landscape. Stepping on board, guests are greeted by classic interior design. Rich, hardwood finishes and contrasting cream paneling are reminiscent of the traditional deluxe British Pullman carriages. When **Lord of the Glens** pulls into harbor, be it for you to amble around the shops at Fort Augustus, or to explore the marvel that is Neptune's Staircase, you come not as an invading force, but as a group of select invitees.

## SHIP SPECIFICATIONS

## Onboard Life

With a 1:3 crew-to-guest ratio, and a maximum of 50 guests on-board, passengers are pampered with attentive service and warm, cozy surroundings.

## Dining

Meals are freshly prepared on board by a loyal brigade of chefs, drawing on a bounty of locally sourced produce. The Sir Walter Scott Lounge and Bar, on the upper deck, provides magnificent panoramic views of the Highland scenery.

## Smoking Policy

On **Lord of the Glens**, the health, welfare and comfort of our guests and crew are top priority for us. We have designated outdoor areas to accommodate smoking and do not permit smoking indoors.

## Medical Services

Shipboard medical services and facilities, including a doctor, nurse and medications, are not available. Basic first aid is available. The boat remains close to shore, and medical services are accessible in the ports of call.
