

## Biographical Sketch

**Provide the following information for each individual included in the Research & Related Senior/Key Person Profile (Expanded) Form.**

NAME  ANIRBAN SEN GUPTA	POSITION TITLE: PROFESSOR OF BIOMEDICAL ENGINEERING, CASE WESTERN RESERVE UNIVERSITY		
EDUCATION/TRAINING			
INSTITUTION AND LOCATION	DEGREE	YEAR(S)	FIELD OF STUDY
The University of Calcutta (Kolkata, India) The University of Calcutta (Kolkata, India) The University of Akron, Ohio Case Western Reserve University	B.Sc. (HONORS) B.Tech. MS, PhD Senior Research Associate	1992-1995 1995-1998 1999-2003 2003-2006	Chemistry Chemical Engineering Chemical Engineering Biomedical Engineering

### RESEARCH AND PROFESSIONAL EXPERIENCE

I have the interdisciplinary education and training, research expertise, leadership, and mentoring experience necessary to successfully direct research and mentoring in the fields of bioinspired materials, hemorrhage control, nanomedicine, drug delivery and wound healing. For over 20 years I have directed extensive research in drug delivery and nanomedicine areas by developing novel nanoparticle and microparticle platforms inspired by hemostatic mechanisms of blood platelets in various disease scenarios. To this end, my laboratory has developed platelet-inspired biomedical technologies that have applications in the areas of hemostasis, thrombosis, inflammation, immune response and cancer metastasis. Examples of our technology applications include ‘synthetic platelet’ (SynthoPlate) technologies as intravenous hemostats for transfusion applications in bleeding management (trauma and Hem/Onc), clot-targeted thrombolytic drug delivery systems, cell-targeted photodynamic nanomedicine therapies, drug delivery systems that target circulating tumor cells etc. These research projects have received funding support from the NIH, National Centers for Accelerated Innovation-Cleveland Clinic, AHA, American Cancer Society, Case Coulter Translational Research Partnership Program. My laboratory has published ~ 80 peer-reviewed articles (H-index: 40) in these various areas. I serve as a faculty and mentor for Biomedical Engineering, Pathology and Pharmacology programs at CWRU. I have served as a council member, session chair and member of Diversity task force for the Society for Biomaterials (SFB), and track and session chair for Biomedical Engineering Society (BMES). I serve as the faculty mentor of CWRU student chapter of Society for Biomaterials. I serve in editorial roles for Biomaterial (Elsevier), ACS Biomaterials Science and Engineering (ACS), Journal of Thrombosis and Haemostasis (Wiley-Blackwell), and Bioactive materials (Elsevier). I also serve as a reviewer for NIH, NSF, AHA and DoD, and as a peer reviewer for numerous scientific journals. My laboratory has active research collaborations within CWRU, as well as with Cleveland Clinic Foundation, University of Pittsburgh, Harvard University, University of Pennsylvania, UNC Chapel Hill, North Carolina State University, University of Colorado Denver, University of Michigan Ann Arbor, University of Birmingham UK, INSERM Paris, University of Munich Germany, and US Army Institute of Surgical Research San Antonio. In hemorrhage control technologies, I am an inventor on multiple patents in vascular nanomedicine systems and portable coagulometry devices. I am a Fellow of the American Institute for Medical and Biological Engineering, Fellow Biomaterials Science and Engineering, and Senior Member in National Academy of Inventors. I have also co-founded a company, Haima Therapeutics, for translational development of various technologies developed in our laboratory.

**RESEARCH AND PROFESSIONAL EXPERIENCE (CONTINUED).**

**Positions and Employment**

June 1997 to Aug 1997	Engineer, Primary Reforming Unit, Hindustan Fertilizer Corp., India
June 2001 to Aug 2001	Doctoral Research Intern, Polymer R & D, Guilford Pharmaceutical Inc., Baltimore, Maryland
May 2002 to Aug 2002	Doctoral Intern, Colloids and Interfaces Lab, The Procter & Gamble Co., Corporate Analytical Research Division, Cincinnati, Ohio
Aug 1999 to Aug 2003	Research Assistant, Biomaterials Lab, Dept. of Chemical Engineering The University of Akron, Akron, Ohio
Sept 2003 to Dec 2005	Research Associate, Dept. of Biomedical Engineering, Case Western Reserve University, Cleveland, Ohio
Jan 2006 to Aug 2006	Senior Research Associate, Dept. of Biomedical Engineering, Case Western Reserve University, Cleveland, Ohio
Sept 2006-April 2014	Assistant Professor, Dept. of Biomedical Engineering, Case Western Reserve University, Cleveland, Ohio
April 2014 – Dec 2017	Associate Professor, Dept. of Biomedical Engineering, Case Western Reserve University, Cleveland, Ohio
Jan 2018– present	Professor, Dept. of Biomedical Engineering, Case Western Reserve University, Cleveland, Ohio

**Honors and Awards**

1995	National Scholar Award, B.Sc. (HONORS), India
Aug 1999 to May 2003.	Graduate Research Scholarship, The University of Akron, Ohio
2001	First Prize in Research Poster, ISPE, Great Lakes Chapter
2009, 2010, 2011, 2011	Nominated for Wittke Award and Jackson Award for Excellence in Undergraduate Teaching and Mentoring at CWRU
2012	Nominated for Diekhoff Award for Excellence in Graduate Teaching and Mentoring at CWRU
2011	Outstanding Teacher Award, CWRU BMES
2014	Outstanding Mentoring Award, CWRU BMES
2018	CWRU Council to Advance Human Health (CAHH) Award
2019	Case School of Engineering Innovation Award
2021	Fellow, American Institute for Medical and Biological Engineering
2022	Leonard Case Jr. Endowed Professor of Engineering, CWRU
2023	Wallace R. Persons Endowed Professor of Engineering, CWRU
2024	Fellow, Biomaterials Science and Engineering
2024	Senior Member, national Academy of Inventors

**Other Experience and Professional Memberships:**

2003-present	Member, Biomedical Engineering Society
2003-present	Member, Society For Biomaterials
2014-present	Study Section member for NIH, NSF, AHA and DoD
2021-present	Member, Hemostasis and Thrombosis Research Society
2019-present	International Society for Thrombosis and Haemostasis
2022- present	Member, Working Group on Hemostasis and Thrombosis, ASH

## BOOK CHAPTERS

1. P N Shah, J A Smolen, **A Sen Gupta**, Y H Yun. Electrospun Pseudo Poly(Amino Acids) for Tissue Engineering Applications. In: *Nanotechnology in Tissue Engineering and Regenerative Medicine*, Ed: Ketul Popat, CRC Press, Taylor and Francis, 2011.
2. **A Sen Gupta**, H von Recum. Bioconjugation Strategies: Lipids, Liposomes, Polymerosomes and Microbubbles. In: *Chemistry of Bioconjugates: Synthesis, Characterization, and Biomedical Applications*, Wiley-Blackwell, (2014).
3. **A Sen Gupta**. Cardiovascular Nanomedicine: Materials and Technologies. In: *Nanomaterials in Pharmacology*, Eds: Zheng-Rong Lu and Shinji Sakuma, Springer (2015).
4. **A Sen Gupta**. Biomaterials based Strategies in Blood Substitutes. In: *Biomaterials and Regenerative Medicine*. Ed: Laura Santambrogio, Springer (2015).
5. **A. Sen Gupta**, A. Doctor. Oxygen Carriers. In: *Damage Control Resuscitation*, Ed: Philip Spinella, Springer (2020).
6. **A. Sen Gupta**. Synthetic Blood Substitutes. In: *Trauma Induced Coagulopathy*. Eds: Moore, Neal, Moore, Springer (2021).

## GRANTS AWARDED

### Completed Support

- |  |                        |                 |
|--|------------------------|-----------------|
| 1.Ohio Board of Regents  | Sen Gupta (PI)         | 07/2007-06/2009 |
| Case Presidential Research Initiative 2007 Total direct: \$75,000        |                        |                 |
| <b>Hemostatically active liposomes as synthetic platelet substitutes</b> |                        |                 |
| 2.NOAIRC Pilot Project under NIH-NCI (Duerk, Jeffery L, Director)        | Sen Gupta (PI)         | 9/2006 – 8/2009 |
| Case Comprehensive Cancer Center pilot project Total Direct: \$30,000    |                        |                 |
| <b>SPECT Imaging for Liposome Biodistribution in a Mouse Model</b>       |                        |                 |
| 3.NIH SBIR Phase I (Shuwu Wang, Nanomimetics, PI)                        | Sen Gupta (consultant) | 09/2005-08/2008 |

Consulting fee of \$2000 per year

**Platelet Liposomal Drug Delivery ---- Thrombosis/Restenosis**

4. NIH SBIR Phase I (David Vachon, Aegis Biosciences, PI; Sen Gupta (Co-I) 12/2007-08/2009  
Total sub-contract to Sen Gupta: \$38,524

**Peptide-Modified Sulfonated Styrene Block Copolymers for Vascular Applications**

5. AHA Beginning Grant-in-Aid Sen Gupta (PI) 07/2007 –06/2010  
Total direct: \$121,000

**Functionally Integrated Liposomes as Synthetic Platelet Substitutes**

6. NIH SBIR Phase I (Shuwu Wang, Nanomimetics, PI) Sen Gupta (Co-I) 04/2010-06/2011  
Total subcontract to Sen Gupta: \$32,970

**Fluorosurfactant polymers for vascular interface applications**

7. CCTIP Coulter Pilot Funding Sen Gupta (PI) 01/2010 – 06/2010  
Total direct: \$30,000

**In Vitro Analysis of Synthetic Platelet Substitute in a Dynamic Shear Flow Environment**

8. NIH SBIR Phase I (Vachon PI, IASIS Molecular) Sen Gupta (Co-I) 06/ 2010 – 08/2013  
Total sub-contract to Sen Gupta: \$37,123

**A Novel Electrospun Vascular Graft**

9. Case Comprehensive Cancer Center ACS IRG Pilot Grant Sen Gupta (PI) 07/2013 - 06/2014  
Total direct: \$30,000

**A Platelet-inspired Nanomedicine Platform for Metastasis-targeted Drug Delivery**

10. VA Merit Award Application Sen Gupta (Co-I) 04/2011 – 03/2015  
Total sub-contract to Sen Gupta: \$45,574 per year

**In vivo performance of a high efficiency microfabricated artificial lung**

11. NCAI-CC Sen Gupta (PI) 09/2015 - 08/2016  
Total direct: \$125,000

**Evaluation of SynthoPlate Technology in Porcine Model of Traumatic Bleeding**

12. Case-Coulter Translational Research Program Sen Gupta (PI) 09/2015 – 08/2016  
Total Direct: \$125,000

**Evaluation of SynthoPlate Technology in Treating Hemorrhagic Trauma** (Match for NCAI grant)

13. Ohio Technology Validation Start-up Fund (TVSF) Sen Gupta (PI) 02/01/2016-07/31/2017  
Total direct: \$50,000

**SynthoPlate Technology Scale Up and Validation**

14. AHA Grant in Aid Sen Gupta (Co-I) 07/01/2017 – 06/30/2019  
Total: \$121,000

**A Dielectric Microsensor for Comprehensive Assessment of Blood Coagulation at the Point-of- Care**

15. Case Council to Advance Human Health (CAHH) Sen Gupta (PI) 09/01/2017 – 05/31/2019  
Total: \$75,000

**Pharmacology and Toxicology Analysis of Synthetic Platelet Nanoparticles in Rats**

16. NSF SBIR Phase I Sen Gupta (Co-I) December 2017- May 2019  
Total: \$225,000

**Manufacturing and Characterization of a Synthetic Platelet (SynthoPlate<sup>TM</sup>) Technology**

17. DoD SBIR Phase I Sen Gupta (Co-I) 10/01/2018-09/30/2019  
Total : \$150,000

**Logistical and Functional Evaluation of SynthoPlate<sup>TM</sup> (Intravenous Synthetic Platelet) Technology for Pre-Hospital Hemorrhage Control**

18. NIH R01 HL129179 Sen Gupta (PI) 09/01/2015 – 04/30/2021  
Total: \$2 M

**Platelet-inspired Delivery System for Targeted Thrombolytic Therapy**

19. DoD, DMRDP PFCRA Research Award Sen Gupta (PI) 08/01/2017- 07/31/2022  
Total: \$1 M

**SynthoPlate® Nanotechnology For Intravenous Hemostasis and Wound Healing in Prolonged Field Care**

20. VA Merit Award Sen Gupta (Co-I) 10/01/2019 – 09/30/2023
