

## Cancer Types in the Catchment Area with Mortality Rates Statistically Differing from those of the U.S., Black (All Ethnicities), 2018-2022

### Notes:

- Confidence intervals are displayed only for catchment rates. U.S. rates reflect population-level estimates.
- Mortality rates are expressed as age-adjusted cases per 100,000 population.
- Excess cases (per year) are estimated by multiplying the population of the catchment area by the difference in mortality rates between the catchment area and the US.
- The catchment area includes 15 counties in Northeast Ohio: Ashland, Ashtabula, Cuyahoga, Erie, Geauga, Huron, Lake, Lorain, Mahoning, Medina, Portage, Stark, Summit, Trumbull, and Wayne Counties.
