

# ENDNOTE & GOVERNMENT GRANTS

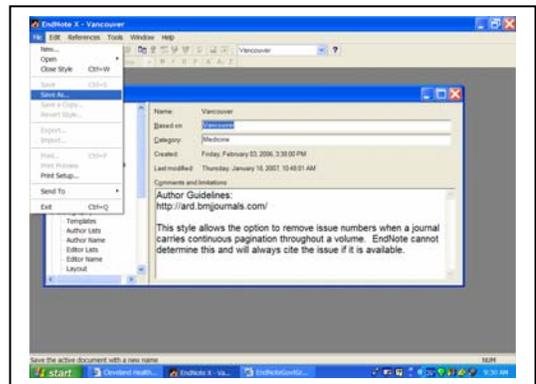

For SF424 (R&R) applications, bibliographies must include all authors. If the article is available free electronically, the entire URL must be included. If the article is free in PMC, you may include just the PMCID, with the link available from PubMed as a display.

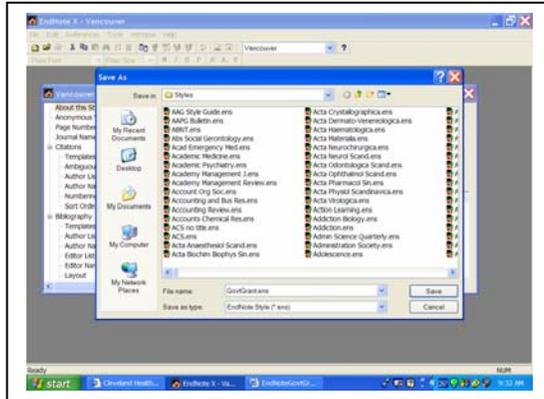

I have been unable to find an exact style match in EndNote X for these particular specifications, but I was able to edit the Vancouver style to accommodate the government's specifications. Here is what I did.

From the Toolbar in EndNote X, click on **EDIT, OUTPUT STYLES, EDIT "VANCOUVER."**

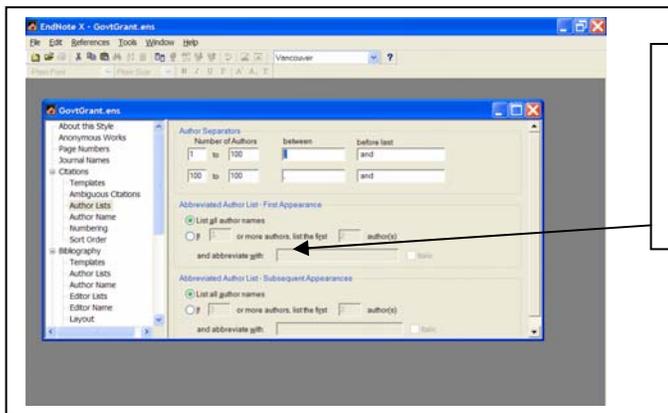

Go to **FILE** and **SAVE AS....** and give your edited style a name – GovtGrant – or whatever works for you.

Notice that the new style is saved in the Styles folder – this is where you want to save it!

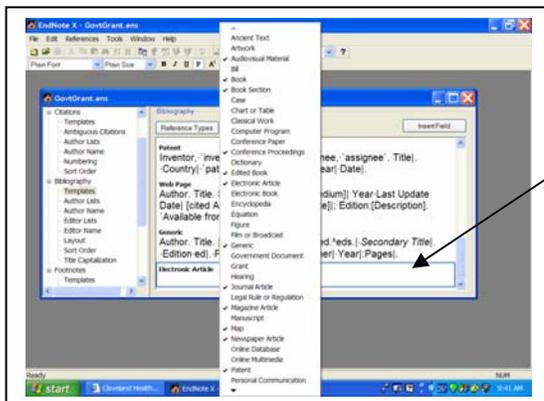

With the new style open, adjust the number of Authors names:

Under Citations, with Authors highlighted, click on **LIST ALL AUTHORS** wherever you can. There are two places here.

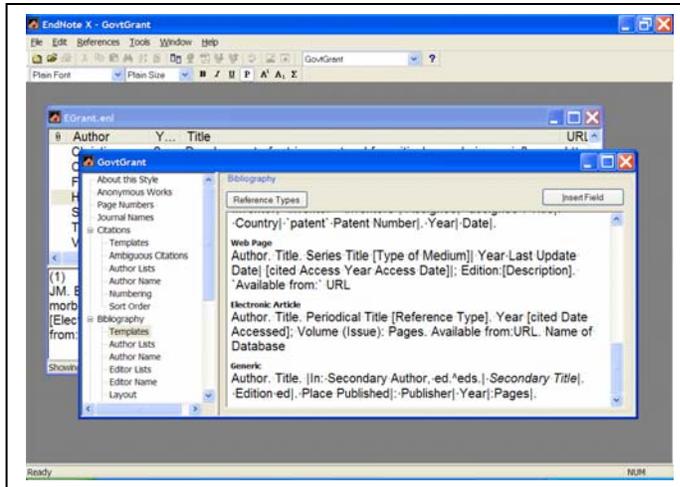

Under Bibliography, change the **Author Lists** and the **Editor Lists** to **LIST ALL ... NAMES**.

Under **Bibliography**, click on **TEMPLATES**, click on **REFERENCE TYPES** and check **ELECTRONIC ARTICLE**.

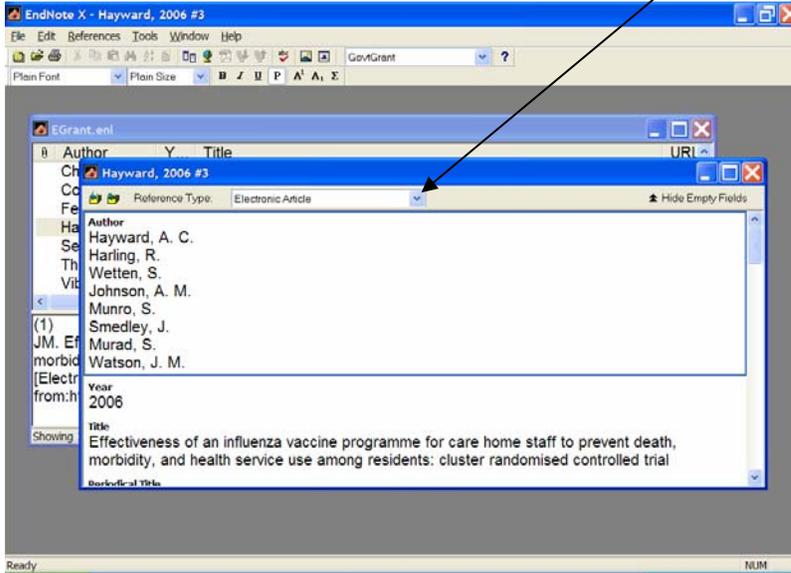

There is now a Reference Type for Electronic Article.

You must now **Insert Fields** into this new style. Most of the fields are the same as for a journal article: *Author. Title. Periodical Title [Reference Type]. Year [cited Date Accessed]; Volume (Issue): Pages. Available from: URL. PMID* ( which you must insert into a field - I chose NAME OF DATABASE) Remember to go to **FILE** and **SAVE!**

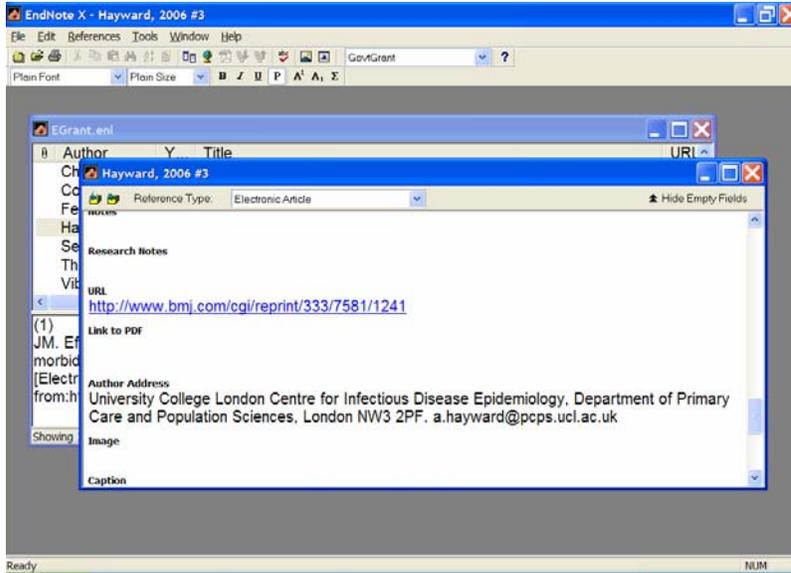

Here is the New Reference Type called Electronic Article.

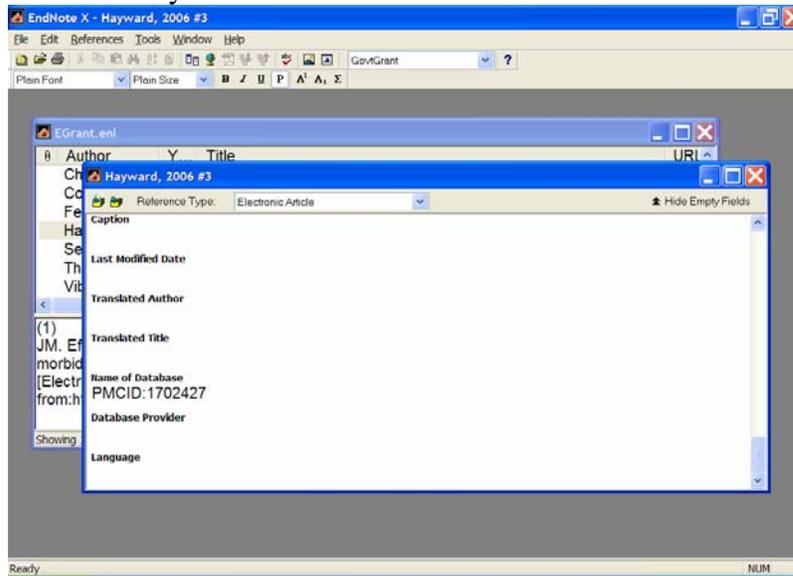

In EndNote, be sure the **Reference Type** is **ELECTRONIC ARTICLE**.

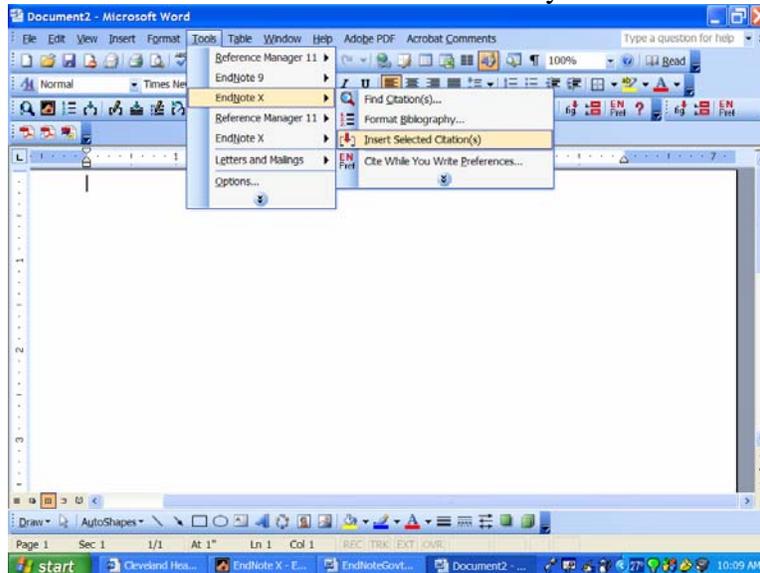

Be sure that the **URL** is in the correct field:

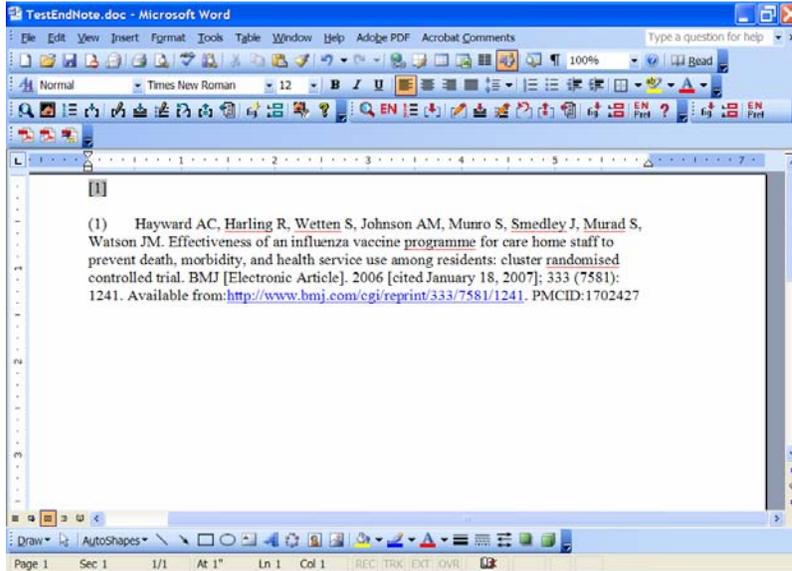

Be sure that you have inserted the **PMCID** into the **NAME OF DATABASE** field:

You can **Insert Selected Citations** directly into **Word**:

And the result will look like this:

If you need more help, please contact me. If you wish, I will be happy to email to you the style file created here.
