PubMed Help

Keyword Search

Enter as many keywords as you like. PubMed will try to find something using the Boolean 'AND.'
Author search

Search for AUTHORS by first typing the last name, space, first initial, middle initial. If you do not know the middle initial, you may use the asterisk, *, or nothing. If you only know the author’s last name, use the author search field tag [au]. Punctuation is not necessary.

MeSH

MeSH is NLM's controlled vocabulary used for indexing articles for MEDLINE/PubMed. MeSH terminology provides a consistent way to retrieve information that may use different terminology for the same concepts.
