Once the photo question is hidden from your Graduate Registration Form, you can upload a photo to their account by going to Graduates, editing their record, and scrolling down until you see the Upload Photo button.

Please Note:

- After making the question hidden, it will be hidden from the graduates view only. The administrator will still be able to view and modify the question but the graduates will not see the question or be able to upload a different photo.
- There is no bulk upload option for graduates photos at this time. The photos will need to be uploaded one at a time for each graduate.
