

Global Business Services (GBS) Entry Level Business Analytics Consultant Summer Intern (Columbus, OH)

Your future. Made with IBM.

IBM is now hiring Entry Level Business Analytics Summer Interns.

We live in a moment of remarkable change and opportunity. The convergence of data and technology is transforming industries, society and professions. Some of these professions did not even exist before data, cloud, social and mobile. IBM Global Business Services is part of this transformation and just the place to define your career within business consulting. Join us as we make the most of these exciting times and discover what you can make of this moment.

What will you make with IBM? ibm.com/careers

At IBM Global Business Services, in Commercial Sector we partner with Fortune 1000 clients to deliver real business value by:

- Bringing together the world's largest consulting practice with industry-leading research capability.
- Enriching business consulting with advanced research, analytics and technology.
- Teaming on all phases of engagement to plan, build, and implement advanced business solutions.
- Establishing new, flexible and iterative approaches that only IBM can offer through our unique combination of skills, experience and capabilities.
- Leveraging the proven roadmaps and frameworks we have developed across our 17 industries.
- Applying IBM's global expertise and local capabilities through our unique global delivery network combined with our teams in over 170 countries.
- Providing our clients with an integrated approach to business design and execution, turning strategies into actions.

IBM's Global Business Services (GBS) Cross Sector practice offers unique and exciting internship opportunities for practitioners to help commercial sector leaders meet current challenges and enable them to transform and improve their organizations through world class strategy, process and technology consulting services. Through our IT, Enterprise Applications, Business Analytics & Optimization, and Strategy & Transformation practice areas, interns will contribute right away to top-tier clients and have an opportunity to build a powerful portfolio of interesting and rewarding experiences. Interns work on projects that integrate analytics, strategy, process, information and technology in an effort to help clients solve their most complex problems, optimize performance, modernize IT infrastructures, and find ways to operate more efficiently. We provide solutions and services that contribute to building smarter Communications, Distribution, Financial Services and Industrial environments.

These strengths applied to business issues and opportunities give our clients not only the ability to anticipate change, but also take advantage of new possibilities.

What do we look for in a successful Intern?

- Strong leadership with willingness to readily take ownership of highly challenging tasks and problems
- Analytical skills with capability to apply logic to solving problems
- Ability to handle multiple tasks concurrently and meet deadlines
- Initiative to actively seek new knowledge and improve skills
- Effective interpersonal skills with ability to collaborate and team with others
- Effective communication skills
- A passion for innovative ideas

What will an IBM Global Business internship offer you?

- Client interaction with challenging responsibilities
- Collaboration with smart people in a dynamic team environment
- Mentorship and exceptional on the job training

- Ongoing learning and development opportunities
- Potential full-time entry-level consultant opportunities

Cross Sector **Consultant Intern** positions in our **Business Analytics** practice will enable you to use your analytical, technical, process, and programming skills as you partner with clients and project teams to strategize, develop, and transform business capabilities. Summer interns will also have an opportunity to learn about Consulting by Degrees - our world-class leadership and development program!

Consulting by Degrees is designed to provide entry-level consultants the full-spectrum of structured training, development, and practical experience necessary to successfully launch and accelerate their consulting career.

Competitive candidates will have the following characteristics:

- Minimum 3.2 GPA preferred. Above 3.2 strongly preferred
- Demonstrated achievement in Operations Research, Industrial Engineering, Management Science, Mathematics, Statistics, Physics, Economics and/or other Analytics related fields
- Strong leadership and adaptability, with willingness to readily and voluntarily take ownership of highly challenging tasks and problems, even beyond initial scope of responsibility
- Thorough and analytical, with capability to apply logic to solve problems
- Ability to handle multiple tasks concurrently and meet deadlines, while maintaining focus despite conflicting demands
- Drive to overcome the most challenging or difficult obstacles and look for ways to improve results
- Initiative to actively seek new knowledge and improve skills
- Effective interpersonal skills with ability to collaborate and work effectively with individuals, strengthening relationships to achieve win-win solutions
- Powerful communication skills, successfully using multiple verbal and non-verbal behaviors to deliver a compelling and engaging response
- A passion for innovative ideas, coupled with the ability to understand and assimilate different points of view

You must reside within a reasonable commuting distance - generally 50 miles or less – from Columbus, OH.
