## ORAL MEDICINE AND OROFACIAL PAIN CLINIC

### What We Do:

Oral medicine disorders and orofacial pain affects significant proportion of the population. The scope of practice of the fields of oral medicine and orofacial pain complements the practice of dentistry and medicine. To mention a few examples, many patients suffer of acute or chronic mucosal conditions that cause significant effects on their quality of life. Temporomandibular disorders may be up to 20% prevalent in the general population, and recent studies report major comorbidities with other chronic pain syndromes like Fibromyalgia and Inflammatory Bowel Disease. Oral chemo-sensory disorders may affect adequate nutrition and are a diagnostic and therapeutic challenge.

We offer a comprehensive approach to the management of multiple orofacial disorders, and collaborate closely with other members of the healthcare team to provide the best available treatment to our patients.

### Our Providers:

We are a unique unit in Ohio, bringing all the diagnostic disciplines in Dental Medicine together under one roof. Our clinicians have more than 20 years of combined experience, and are board certified in Oral Medicine, Oral and Maxillofacial Pathology, Orofacial Pain, and Oral and Maxillofacial Radiology.

We provide clinical and histologic consultation services as well as inpatient consultation in partnership with the University Hospitals Case Medical Center.

Office hours:

Monday 9am - 5pm

Wednesday 9am - 5pm

Friday 9am - 5pm

We provide treatment for the following conditions:

- Soft and hard tissue lesions
- Salivary gland disorders, dry mouth, Sjögren's Syndrome
- Taste disorders
- Oral complications of oncologic treatment (mucositis, GVHD)
- Burning mouth syndrome
- Temporomandibular Joint Disorder (TMD)
- Headache and facial pain, neuropathic pain
- Atypical odontalgia
- Oral mucosal disorders (oral lesions, lichen planus, vesicular disease)
- Movement disorders that affect the maxillofacial complex.
- Dental Sleep Medicine
- Dental care for patients with medical disorders (i.e. hepatitis, bleeding disorders, transplant, cardiovascular disease)
