Looking for background literature for your research?

Curious about your h-index?

Need to know which journals best fit your work?

Want to see prospective partners plotted on a map?

Interested in the current trends in research?

Scopus and SciVal can help!

Scopus, the largest curated abstract and citation database of peer-reviewed literature, features tools that allow you to track, analyze and visualize research.

SciVal allows you to process an data from over 38 million publication records to generate powerful data visualizations on-demand, in seconds.

Join KSL's Liz Bernal on

Thursday, February 7 from 12-1pm in NOA 31A

to learn how you can benefit from Scopus & SciVal.

Attendees are encouraged to bring a laptop to follow along and generate personalized results.

Please RSVP to dentres@case.edu or 368-7573 to facilitate catering.
