Scholarships

Why Scholarships?

- Student scholarships are a vital recruitment tool to ensure we have the most qualified and diverse class in our DMD program.
- Tuition is over \$70,000, not including materials and living expenses, which puts all of our students in financial need.
- Establishing a scholarship recognizes and honors your own experience as a student, in a way that creates a lasting tribute and ensures a permanent association with the School of Dental Medicine.

How can you help?

- Endowed scholarships provide permanent, self-sustaining source of funding created through a gift of cash or assets give to CWRU.
 - By endowing a scholarship fund at the Dental School, you will not only benefit a student today, but students for generations to come.
 - You will work directly with Development staff to identify a preferred area at the Dental School to support
 - Endowing a fund at CWRU requires a minimum of \$25,000, which can be fulfilled over a period of 5 years.

What's next?

- If you are interested in establishing a scholarship or would like more information, please contact Carolyn Gordon, Direct of Development: (216) 368-3481 or Carolyn.gordon@case.edu

THANK YOU for your consideration of making a life-long impact on CWRU School of Dental Medicine students for years to come!
