PART ONE

ARTICLE I. Appointments, Reappointments, Resignations, Promotions, and Tenure* **

G. Pretenure Period*

1. Within Case Western Reserve University the pretenure period may vary with particular academic circumstances among the constituent faculties, but provision for a period beyond six years shall require specific Faculty Senate approval.

2. Each faculty member whose appointment leads to tenure consideration shall be considered for tenure in accordance with Section I, subsections I, J, and K no later than six to nine years after the date of initial appointment. The by-laws of the constituent faculty shall specify whether the maximum period is six, seven, eight, or nine years; and such period shall apply uniformly within that faculty. If after this period tenure has not been granted, reappointment may normally be made only for one additional year except where the provisions of Section I, H have been adopted.

3. Service at other institutions at the rank of assistant professor or higher may be taken into consideration in establishing the length of a faculty member's pretenure period.
4. Upon written notification by the care-giving parent or parents within one year after each live birth or after each adoption, the provost shall grant a one-year extension an extension of one year of the pretenure period shall be granted by the provost.

5. Subject to the limitation in Section I, G, 8 below, the provost may grant individual extensions of the pre-tenure period in either of the following circumstances:

a. when the provost determines that unusual constraints in the University, or part or parts thereof, may prevent a tenure award at the end of the normal period, or that extraordinary teaching or administrative assignments have been disadvantageous to a candidate’s tenure consideration;

In circumstances described under 5a., the provost may grant an extension only if:

i. the request has first been considered by (a) the tenured faculty or appropriate constituent faculty body at the departmental or equivalent level; (b) the department chair (in constituent faculties organized into departments); and (c) the appropriate dean; and
ii. the faculty member seeking the extension has requested the extension within a reasonable period after the event(s) giving rise to the request and, in all events, before the end of the academic year immediately prior to the year in which the candidate would otherwise be considered for tenure.

b. when the provost determines that special personal (non work related) circumstances have been disadvantageous to a candidate’s tenure consideration, including or equivalent to serious illness, family emergency, or responsibility as a primary care-giver.

In circumstances described under 5b, requests for a pretenure extension should be addressed directly to the office of the provost.
5. of up to three years may be made for exceptionally worthy candidates in the event of unusual constraints in the University, or part or parts thereof, which would prevent tenure award at the end of the normal period. No guarantee is implied, however, that tenure will ultimately be granted.

7. Subject to the limitation in Section I, G, 8 below, individual extensions of the pretenure period may also be made for the purpose of compensating special earlier circumstances disadvantageous to a candidate's tenure consideration. Such circumstances may include, but are not limited to, serious illness, family emergency, responsibility as a primary care-giver, or extraordinary teaching or administrative assignments.

9. Any extension under sections 5 and 6 above requires: (1) positive or negative recommendations by the tenured faculty or appropriate constituent faculty body at the departmental or equivalent level, the department chair (in constituent faculties organized into departments), and the dean; (2) approval by the provost; and (3) concurrence by the faculty member.

11.6. Pretenure extensions may not be used to defer tenure consideration of a faculty member more than three years beyond the normal pretenure period except for provisions stated in Section I, G, 4. The normal pretenure period is determined by the by-laws of the constituent faculty body where the faculty member has his or her primary appointment.

To: Cynthia Beall, Chair, Faculty Senate  
From: Faculty Senate Committee on Graduate Studies (FSCGS)  
Re: Proposal to restructure the membership of the FSCGS  

Date: 3 April 2019

The FSCGS approved the following recommendation to restructure the membership of the FSCGS at our April meeting. We are submitting it to you for consideration by the appropriate Faculty Senate body or bodies.

The goal of this proposal is to improve representation of units and improve communication between the FSCGS and constituent units. The current membership of the GSCGS is as below, in bold for the relevant language.

Par. 1. The Committee on Graduate Studies shall consist of the dean of graduate studies, ex officio, the associate dean of graduate studies, ex officio, the associate vice president for research, ex officio, nine voting members of the University Faculty elected for overlapping three-year terms, four graduate/professional students, at least one of which will be a professional student, and one post-doctoral scholar/fellow. The students and scholar/fellow are all voting members and are elected for one-year terms. The Nominating Committee, in consultation with the dean of graduate studies, shall select nominees for election to the committee on the basis of participation in graduate research and in graduate study and instruction. Such selection shall be broadly representative of graduate disciplines.

In order to increase communication between the FSCGS and constituent units we propose to restructure the committee, following the model of the Faculty Senate Finance Committee (FSFC). Specifically, this would require membership from the Graduate Committee (or its equivalent) from each unit as well as members-at-large.

The language for the FSCGS would then read as follows, with new language in red.

Par. 1. The Committee on Graduate Studies shall consist of the dean of graduate studies, ex officio, the associate dean of graduate studies, ex officio, the associate vice president for research, ex officio, one voting member elected by each constituent faculty Graduate Committee (or its equivalent) from among its members for a term of not less than two years, three members of the University Faculty at-large, at least one of whom must be an elected member of the Faculty Senate, four graduate/professional students, at least one of which will be a professional student, and one post-doctoral scholar/fellow. The students and scholar/fellow are all voting members and are elected for one-year terms.
April 5, 2019

To: Cynthia Beall, Chair of the Faculty Senate

Dear Cynthia,

The Committee on Faculty Personnel would like to ask the Executive Committee to consider its recommendations with respect to the pretenure extension policy outlined in the Faculty Handbook (Chapter 3, Part One, Art. I, G.).

A faculty member brought this policy to our attention and raised an important concern. According to the policy, when a faculty member requests an extension of the pretenure period, the request must be considered by 1) the tenured faculty or appropriate constituent faculty body at the departmental or equivalent level; 2) the department chair; and 3) the dean (before being submitted to the Office of the Provost), regardless of the reason for the request. The Faculty Handbook specifies that the request can be made in different types of circumstances, personal and professional, but does not distinguish between them in terms of procedure. A faculty member requesting a pretenure extension because of serious illness, for example, has to submit the request to his or her tenured colleagues as part of the approval procedure. The faculty member who brought this to our attention argued that this poses problems in terms of privacy and potential bias, even if no details are made available to the tenure candidate’s colleagues as part of the formal request. The Committee on Faculty Personnel agreed.

We propose several amendments to the policy, as attached. The proposed revisions are meant to:

a. **Distinguish clearly** between two types of circumstances, personal and professional;

b. **Specify different approval procedures** for the different types of circumstances (requests involving personal circumstances such as serious illness would be submitted directly to the Office of the Provost, bypassing the departmental tenure committee, the department chair, and the dean);

c. **Specify that such requests must be made no later than** “the end of the academic year immediately prior to the year in which the candidate would otherwise be considered for tenure.”

The attached draft went through many iterations. I will be happy to supply more information to the Executive Committee about the reasoning behind each proposed revision.

Respectfully submitted,

Christine Cano

Pretenure extension policy

G. Pretenure Period

4. Upon written notification by the care-giving parent or parents within one year after each live birth or after each adoption, the provost shall grant a one-year extension of the pretenure period.

5. Subject to the limitation in Section I, G, 8 below, the provost may grant individual extensions of the pretenure period in the following circumstances:

   a. when the provost determines that unusual constraints in the University, or part or parts thereof, may prevent a tenure award at the end of the normal period, or that extraordinary teaching or administrative assignments have been disadvantageous to a candidate’s tenure consideration;

   or

   b. when the provost determines that special personal circumstances have been disadvantageous to a candidate’s tenure consideration, including but not limited to serious illness, family emergency, or responsibility as a primary care-giver.

This academic year the FPB Executive Committee began a full 5 year review of the FPB Bylaws. The Executive Committee asked each standing committee to review their respective section of the bylaws and recommend changes. The Executive Committee then appointed an Ad Hoc Bylaws Review Committee to review the full document and make further recommendations.

The Executive Committee would like to thank, Dr. Allison Webel, Dr. Carol Savrin, and Dr. Jane Marek, for their thoughtful service on the Ad Hoc Bylaws Review Committee. Members of the Executive Committee would also like to thank the standing committees and their chairs for their valuable input.

This document summarizes the changes brought forth by your colleagues, in accordance with our Bylaws Change Process. The Executive Committee at the February 21, 2019 and March 21, 2019 meetings approved these changes. The intent of these changes are to: (a) improve the continuity, clarity, and consistency within the FPB Bylaws, the CWRU Bylaws, and Faculty Handbook, (b) update the bylaws to match our current governance practices, and (c) refine the current function of standing committees.

The proposed changes start on page 2 of this document. Please note that the first column includes the current bylaws. The second column lists only the proposed changes to the bylaws and the rationales. Text in bold indicates a proposed change; text that is bold and underlined indicates a change in language or a proposed addition. Text in italics provides the rationale for the proposed change.

Here are the next steps for this process:

April 1-Summary of bylaws documents shared with full faculty via email and announced at Faculty Staff Meeting.

April 15- Dr. Celeste Alfes & Dr. Jesse Honsky will host an informational meeting to discuss the proposed changes at 1:00pm in the First Floor Lounge. If you are unable to attend and you have comments or questions. Please send them to Dr. Alfes, cms11@case.edu.

April 29- The full faculty will vote on the proposed changes at the Faculty Staff meeting at 1:15pm in room NOA31A (please note this meeting REPLACES the May 6th Faculty Staff Meeting).

Once the proposed changes are approved by the full faculty they will be sent to the Faculty Senate Bylaws Committee for review and approval by the Faculty Senate.

The Executive Committee would like to thank you for your time and participation in this important process.

1. Whose academic qualifications and competencies are other than those for established university ranks

2. Whose primary appointments are in service agencies whose resources provide settings, by agreement, for students and faculty to have opportunities to engage in education, research and service in accordance with policy and procedures of the School of Nursing.

d. Adjunct Appointments

Persons designated at university ranks of adjunct professor, adjunct associate professor, and adjunct instructor are those:

1. Whose special competencies can provide a desired complement for some designated service, activity or development of the School of Nursing; and

2. Whose academic qualifications meet criteria established for appointees at the same ranks and tracks as shown in Attachment A.

e. Research Faculty

Persons designated at university ranks of research assistant professor, research associate professor, or research professor are those whose primary responsibilities are related to the research mission of the school and university. Neither teaching nor service (other than that related to the research mission) is part of the responsibilities of the research faculty member.

1. Research experience and qualifications are comparable to those of tenured/tenure track faculty at corresponding ranks.

2. Appointment as a research faculty member is contingent upon the availability of research funds to cover costs of the research and compensation. The appointment will terminate either prior to or at the end of the current appointment period in the absence of sufficient funds to cover these costs.

3. In the case of new appointments and promotions, the Committee on Appointment, Reappointment, Promotion and Tenure will provide a full review, comparable for that done for appointments and promotions of regular faculty to the ranks of assistant professor, associate professor, and full professor.

nursing staff. Appropriate titles are required at all faculty levels. & b. Special faculty positions at Metro must be appointed based on the nursing school's criteria for each level of faculty. The "clinical lecturer” title, appropriate for a master’s prepared nurse at Metro, does not exist.

e. Research Faculty

2. Appointment as a research faculty member is contingent upon the availability of research funds to cover costs of the research and compensation. The appointment will terminate either prior to or at the end of the appointment period in the absence of sufficient funds to cover these costs.

Change proposed by Ad Hoc Bylaws Committee. Rationale: To make the wording more succinct.
### ARTICLE IV
**SELECTION OF TRACK**

Tenure or non-tenure track must be identified at the time of appointment or promotion to assistant professor or higher. The pre-tenure period in the School of Nursing begins at the rank of assistant professor or higher in the tenure track and is nine (9) years in length.

Tenured and tenure track faculty member obligations to the university include 1) teaching, 2) research, and 3) service to the university community. Non-tenure track faculty member obligations include two of the three.

Tenured and tenure track faculty member obligations to the University include 1) teaching, 2) research, and 3) service to the university community. Non-tenure track faculty member obligations include two of the following: 1) teaching, 2) research, and 3) service to the university community.

*Change proposed by Ad Hoc Bylaws Committee. Rationale: To improve clarity.*

### ARTICLE V
**OFFICERS**

Section 3. Executive Committee Meetings – At least four (4) meetings shall be held between September 1 and May 31.

Section 5. Voting Body – See Article III, Sections 2 and 3 of these bylaws.

New Section

Section 7. Meeting by Authorized Communications Equipment- The faculty and Standing Committees may choose to allow participation in meetings by means of telephone, video conference, or similar communications equipment provided that all persons participating in the meeting can hear each other at the same time and can participate in all matters before the faculty or standing committee. Participation by such means shall constitute presence in person at a meeting.

Change proposed by Executive Committee. Rationale: Provides the opportunity to allow faculty to participate in meetings even if they can't be physically present. May be needed more frequently as nursing school faculty will be located in two places starting May 2019, the Health Education Campus and on CWRU main campus.

ARTICLE VII
STANDING COMMITTEES

Section 1 Membership and Voting Privileges

a. The president of the university and the dean of the School of Nursing shall serve as members ex-officio of all faculty committees. Ex-officio status here and in subsequent sections of the bylaws carries with it voting privileges.

b. Persons holding appointments as special faculty may serve on committees and may vote in committees unless otherwise indicated in these bylaws.

c. Students serving on standing committees of this faculty may vote in committees unless otherwise indicated by these bylaws.

d. A faculty member may serve in no more than two (2) elected positions per year on standing committees of these bylaws.

e. An elected member shall be eligible for no more than two (2) consecutive terms on the same committee. An appointment to fill a vacancy on a committee does not constitute a term.

New sub-section

h. In lieu of an in-person meeting, e-mail voting is permitted for standing committees on certain issues. E-mail voting should be used for issues that do not require extensive discussion (i.e., nonsubstantive matters), or in extraordinary circumstances requiring a time-critical vote. Any member of a standing committee may move to submit a matter for e-mail voting by emailing all members of the committee and the Secretary of the Faculty of the School of Nursing. The motion for e-mail voting requires the unanimous consent of all standing committee members. Any member wishing to veto the e-mail voting motion must do so within seven calendar days from the date of the motion. The issue under consideration is approved only if a majority of the total members of the standing committee vote in favor of the issue within fourteen calendar days of the original motion for e-mail voting. If the issue does not receive a majority vote within fourteen days, the motion expires.

Change recommended by the Executive Committee. Rationale: To ensure bylaws are up to date with current governance norms. This language was adapted from the University By-laws.

Change proposed by MN Program Director. Rationale: Name change to match degree name and program name recognized by CCNE. Membership change to allow for more flexibility in committee size. FPB is getting more applications for the program and the committee needs more members to handle the volume. Including special faculty provides the opportunity for faculty with a different perspective on holistic admissions to participate in the committee. Change in Section 9 part b reflects the additional appointments in membership. *Include vote to change GENP to MN throughout the bylaws

**Recommended MSN Admissions Committee and Executive Committee: Rationale**

**for a.1:** With the new MSN admission process we have 2 member review teams, the lead faculty for each MSN program and an elected member. However, if one of the two team reviewers are out for whatever reason we have void in our process. This situation has happened 3 times this academic year. Also, during the summer if the elected member is 9-month faculty, they are may choose not to review applications over the summer, again leaving a void in the review process.

**Rationale a.3:** Committee members must be aware of the education and practice role of MSN students, especially APRNs. Limiting membership to just APRN’s however is too narrow, especially if the MSN degree expands to non APRN majors.

**Rationale b and c.2:** Changes to improve clarity and continuity of language throughout the bylaws and to reflect current practice.

Section 13 Grievance Board

The Grievance Board will hear matters related to School of Nursing-related grievances which may include, but are not necessarily limited to; (1) All aspects of the educational process, involving student performance, evaluation, grading, status, and/or progression; (2) Data pertaining to student records, grades, etc., which are not covered by the Federal Family Educational Rights and Privacy Act regulations and procedures; (3) Questions of professional conduct by or toward students; and (4) Actions perceived by students as unfair, discriminatory, or intimidating.

Change recommended by the Grievance Board and Executive Committee.
Rationale: More faculty members on the board will help it function better. The small number makes it difficult to reach quorum and the having 4 total committee members would provide flexibility in having appropriate faculty selected and available for the hearing. Allowing for more flexibility in identifying student members will also improve the process. Statement from Grievance Board Chair: “When cases are heard in summer there are few students around that are able to
who initiated the grievance.

2. Submit recommendations to the dean upon adequate deliberations following the hearing.

Section 14  Academic Integrity Board

3. Two faculty members and two students will constitute a quorum for the committee meeting.

5. Associate Dean for Academic Affairs – ex officio (non-voting).

6. Administrator from Student Services – ex officio (non-voting).

b. Term

Faculty shall be elected for a term of two (2) years. Two (2) faculty shall be elected in odd-numbered years and one (1) in even-numbered years.

c. Functions

1. Undergo training regarding Academic Integrity policies and processes prior to serving on the committee.

2. Schedule and conduct hearing according to policy and procedure after official notification of a potential violation of academic integrity for which the School of Nursing has jurisdiction.
