1:3

Teacher to Student Ratio for Math Corps Program

Utilizing small, diverse class sizes of students from across the Greater Cleveland area, MathCorps increases exposure and expertise of all student participants!

What is Math Corps?

Math Corps is a *tuition-free*, Saturday-based program that brings math students from the Cleveland area together with Case Western University undergraduate and graduate scholars to learn from one another. Their unique emphasis on near-peer mentorship and a holistic approach to math is research driven, results-focused and fun.
