## First-Year Experience Roommates

The majority of first year rooms are double rooms. If you already have an identified roommate, or you wish to find a roommate, you can use the roommate search tool on the next page. You will need to create a group with your roommate and submit the group to choose a room together in the room selection process.

It is not necessary to have a roommate in order to choose a room.

### First Year Experience Information

You will receive a randomly generated time slot that identifies which day/time you will choose your room online. If you formed a group with a roommate, you will use the group leader's timeslot to select a room for both of you. You can change the group leader on MyHousing, under Room Selection, if you wish to use the other group member's timeslot. Roommate groups must be submitted 48 hours before your room selection timeslot.

There are five (5) room selection days:

- Thursday, June 13 at 7 p.m. EST ----- roommate group submitted by Tuesday, June 11 at 7 p.m. EST
- Tuesday, June 18 at 7 p.m. EST ----- roommate group submitted by Sunday, June 16 at p.m. EST
- Thursday, June 20 at 7 p.m. EST ----- roommate group submitted by Tuesday, June 18 at 7 p.m. EST
- Tuesday, June 25 at 7 p.m. EST----- roommate group submitted by Sunday, June 23 at 7 p.m. EST
- Thursday, June 27 at 7 p.m. EST----- roommate group submitted by Tuesday, June 25 at 7 p.m. EST
- 

You are not required to choose a room online. If you do not choose a room during your identified timeslot, we will assign you to a room starting on July 1.

First-year housing primarily consists of double rooms, with limited options of single rooms. Rooms from each Residential Community will be available during each room selection day.

#### Reminders:

- You don't need a roommate to choose a room online
- You will see the lifestyle characteristics of the student already in the room
- If you don't like the choices available, you do not have to pick a room. We can assign you to an open room after the room selection process is over, based on what is still available.

**Save & Continue**

On the Room List page, you can narrow the options by choosing a Room Type and/or a Building.
