

2016 CWRU Student Experience Survey (CWRUSES) Undergraduate Student Satisfaction

In spring 2016, we asked a random sample of graduate and undergraduate students at Case Western Reserve University (CWRU) to participate in the CWRU Student Experience Survey (CWRUSES). The survey was administered by CWRU’s Office of Planning and Institutional Research. Of 3,200 randomly selected potential undergraduate participants, 52% (n=1,652) submitted responses. This preliminary report provides information about undergraduate satisfaction with aspects of their experience at CWRU.
