

"I chose CWRU for an extensive legal education plus experiential learning in environmental law. I've done independent study on wildfire liability and researched lead poisoning in Cleveland neighborhoods. For my capstone, I worked for the Department of Justice."

Megan Goedeker '20

Megan Goedeker was president of CWRU's environmental law student organization, Law for the Environment, Animals, and Food (LEAF). After consumer advocacy internships in Cleveland and Akron, she spent a semester in Washington, DC, in the U.S. Department of Justice Environment and Natural Resource Division's Law and Policy Section. She was the 2019 recipient of the Stanley and Hope Adelstein Prize, an annual School of Law award for the best student essay on the environment. Megan is now an associate with an environmental law firm in Cleveland.

BE READY TO COUNT YOURSELF IN

**ONE
AMAZING CITY**

The Great Lakes are Cleveland's front yard, and that energy flows through a diverse and welcoming metro area with friendly, affordable neighborhoods, downtown glam, live music, and three professional sports teams: the Cavs, Browns, and Guardians. Superb public transit, including a rail link to Cleveland Hopkins International Airport, makes the area easy to explore.

30th for faculty scholarly impact (Heald and Sichelman Study)

Environmental Law

**BE READY
TO NAVIGATE
ENVIRONMENTAL POLICY**

Environmental justice requires sharp legal tools. Carry your commitment to equitable resource development into regulatory agencies, nonprofits, and courtrooms with hands-on experience and research in CWRU's Coleman P. Burke Center for Environmental Law.

Breaking New Ground

Founded with a \$10 million endowment from alumnus Coleman P. Burke, the Center supports externship opportunities and scholarships for incoming environmental law students. A noted environmental leader, Burke has served as a trustee or director of organizations including: the National Audubon Society, the National Forest Foundation, the Woods Hole Oceanographic Institution, and the Yale Peabody Museum of Natural History.

Last year we offered a first year elective focusing on legal issues raised by the Lake Erie wind project. The course provided 1Ls an opportunity to see how environmental law works on the ground in a high-profile setting.

A Global Perspective

We offer an International Environmental Law course and have summer and semester-long externship placements around the country and globe where students can get real-world experience working on international environmental law issues, including at the Center for International Environmental Law, the U.S. Coast Guard Office of Legal Counsel, and the World Health Organization.

Hands-On Training

Hone your research skills on real-life issues in labs and in our Environmental Law Clinic. Your work addresses state and local public health questions, including environmental health regulations and emergency preparedness. Spend your capstone semester in the clinic or at one of a number of externship sites where you can focus on contemporary issues of your choice.

Dual Degrees

Complement your degree in environmental law with a master's in a related field that enhances your career skills — think political science, public health, nonprofit management, or biochemistry. All told, we offer dual-degree programs with ten CWRU partners.

Dedicated Scholarships

As part of CWRU's comprehensive financial aid program, the Burke Center for Environmental Law offers scholarships to outstanding applicants in environmental law. The Center also offers students fellowship opportunities to work on environmental law projects, programs and publications.

Comprehensive Curriculum

- > Administrative Law
- > Animal Law
- > Energy Law
- > Environmental Health and Policy
- > Environmental History and Law Seminar
- > Environmental Law
- > Expert Witnesses and Scientific Evidence
- > International Environmental Law
- > Land Use Control
- > Nonprofit Organization Law
- > Public Health Law

Leading Faculty

Professor Jonathan Adler, a prolific author and researcher, directs the Burke Center for Environmental Law. He is the 6th most cited environmental and energy law scholar in the nation. Cambridge University Press published his timely book on environmental federalism in the 21st century in 2020.

Externships

Externships include:

- > Center for International Environmental Law
- > U.S. DOJ Environment and Natural Resources Division
- > Fair Shake Environmental Legal Services
