ABOUT THE SIEGAL LIFELONG LEARNING PROGRAM

The Siegal Lifelong Learning Program connects the academic world with the general community. Through innovative and engaging programming, learners of all ages, on campus or in the Cleveland community, are able to share their love of learning. Through classes, workshops or lectures, participants are able to interact with internationally renowned scholars who share their cutting-edge research or engage in the ongoing conversation of current and interesting topics. For those who have never taken a class or attended a lecture—please join. For those who have studied with Siegal Lifelong Learning before—welcome back!

MESSAGE FROM THE DIRECTOR

As I write these words, we mark three years since we launched the Laura and Alvin Siegal Lifelong Learning Program here at Case Western Reserve University. We are pleased with our achievements so far and look forward to continued growth in participation and expansion of our programming.

I want to take a moment to thank some individuals and organizations whose assistance has been critical to our success. First, I want to thank our hardworking professional staff for their commitment to meeting the needs of our program participants. Next, I want to thank the university administration, especially President Barbara Snyder, Provost Bud Baeslack and Deputy Provost Lynn Singer, who all recognize the value of lifelong learning for enhancing the university’s relationship with our local community. Of course, without the generosity and vision of Laura and Alvin Siegal, we would not have had the success that we have today. We are also tremendously grateful for the continued support and partnership of the Association for Continuing Education at Case Western Reserve University, whose long history reflects an ongoing commitment to adult learning throughout our community and whose contributions to our overall success are invaluable.

Additionally, I would like to thank the Jewish Federation of Cleveland and the Siegal College Foundation for their support of our Jewish studies programming, which allows us to ensure a robust program to support their constituencies. Lastly, this year, we introduce the Friends of Jewish Lifelong Learning, formerly known as the Friends of the Aaron Garber Library, as a supporting organization. We welcome their support and partnership.

This fall, you will see some new additions to our programming. We are also excited to roll out our new website, which is now integrated with the overall Case Western Reserve platform and branding. Increasingly, we rely on our electronic platforms—email and website—to communicate with participants and the general public. Even though we continue to publish our printed catalog, we encourage participants to visit our website for the most up-to-date information, detailed course descriptions and biographies of our instructors and presenters.

In addition to our usual quality programs, such as Senior Scholars, Off-Campus Studies, the Origins Science Scholars Program and our Distinguished Lecture series, to name a few, I want to make you aware of some new programs and offerings for the fall. In our Jewish Studies Division, we are offering a Jewish Boot Camp. This set of mini-courses is open to participants of all backgrounds who are seeking an introduction to the study of Judaism. We are also presenting Homeland, a new set of mini-courses offered in a depoliticized, intellectual environment that will address the history and culture of Israel, as well as its relationship with the Arab world. Another addition to our programming lineup addresses the current crisis of drug addiction, specifically heroin abuse. This program launches as a series of four evening panel discussions this fall.

Lastly, I want to thank all of you who have participated in our programs. So many of you serve as ambassadors for our activities, telling your friends and families about the benefits of lifelong learning, encouraging people to attend our programs and supporting our work through your personal generosity. I continue to find your own commitment to the life of the mind inspiring, and we strive to meet the high standards you have come to expect. Thank you so much for your continued engagement and please do not hesitate to let us know how we can improve.

HEINEN’S VISION, PASSION AND PEOPLE DELIVER A UNIQUE SHOPPING EXPERIENCE

Wednesday, August 26
Noon–1:30 p.m.

Jeff Heinen

In 1929, Joe Heinen opened the doors of a small butcher shop on the east side of Cleveland, aiming to establish himself as the city’s purveyor of quality meats. By 1933, business had grown enough to include a line of produce and canned goods and Heinen’s Grocery Store was born. Today, grandchildren Tom and Jeff Heinen lead their team of knowledgeable associates in continuing to serve area customers by delivering on Joe’s original philosophy—to provide world-class customer service while offering the freshest, highest-quality foods. Jeff Heinen discusses the company’s vision, passion and people that create a unique shopping experience.

THE VIOLINS OF HOPE: A CONVERSATION WITH AMNON WEINSTEIN

Wednesday, September 30
7 p.m.

Amnon Weinstein, Renowned Violin Maker

Amnon Weinstein has spent the last two decades locating and restoring violins that were played by Jewish musicians during the Holocaust. He dedicates this important work to 400 relatives he never knew. Approximately 20 of the violins are part of a 4,000-square-foot exhibition at the Maltz Museum of Jewish Heritage. Join Weinstein in conversation with Eric Kisch, host of WCLV’s Musical Passions, as they discuss the story behind the Violins of Hope, a major collaborative project of many Cleveland organizations.

THE GRAMMAR OF GOD: JOURNEY INTO THE WORDS AND WORLDS OF THE BIBLE

Wednesday, August 26
7 p.m.

Aviya Kushner, Associate Professor of Creative Writing, Columbia College Chicago

The Bible is the most translated book in history, but author Aviya Kushner grew up reading it in the original Hebrew. Later, when she began to study it in English, Kushner barely recognized the text she thought she knew so well. For the next decade, she traveled in the footsteps of the great biblical translators and commentators whose projects were considered holy to Jewish and Christian communities. In this lecture, Kushner examines key biblical passages in both the original Hebrew and in English translations from several centuries and faith traditions, offering a fascinating look at how language shapes belief.

HOUSING CRISIS IN NORTHEAST OHIO—WHERE ARE WE IN 2015?

Wednesday, October 7
7–8:30 p.m.

Moderator: Brent Larkin, The Plain Dealer

Panelists: James Rokakis, Former Cuyahoga County Treasurer, Cleveland Councilman, Director, Thriving Communities Institute; Thomas Bier, Senior Fellow, Maxine Goodman Levin College of Urban Affairs, Cleveland State University

Northeast Ohio was one of the hardest hit housing markets in the U.S. in recent years. The market has begun to recover, but housing values and real estate taxes remain two of the most important economic issues facing local residents today. This forum will discuss current home prices, new construction, demolitions and foreclosures and home ownership versus renting.

ACE LECTURE DAY: CUBA—LOOKING BACK, MOVING AHEAD

Monday, October 12
9:15 a.m. - 2 p.m.

Heather M. Hodges, President and Ambassador in Residence, Cleveland Council on World Affairs

Joe O. Sola, Associate Professor of History, Cleveland State University

Ever since President Barack Obama’s announcement of a new relationship with Cuba, there have been new developments in both the United States and Cuba. This program explores the history of Cuba as well as U.S. policy toward the nation, what has or has not changed and what hurdles we can expect in the future. Moderator is Joan Brown Campbell.

SCHOOL READINESS: WHAT IS IT? HOW WILL I KNOW IF MY CHILD IS READY FOR KINDERGARTEN?

Wednesday, October 14
7:30 p.m.

Moderator: Rebekah Dorman, Director, Cuyahoga County Office of Early Childhood and Invest in Children

Panelists: TBD

Ohio has implemented a new holistic Kindergarten Readiness Assessment that is to be completed on all incoming kindergarteners. What is it measuring? How do preschool teachers prepare children to succeed in kindergarten? What skills are kindergarten teachers hoping to see in their new students? Hear from a panel of experts, including a preschool teacher, a kindergarten teacher and an Ohio Department of Education official.

FILM IN CLEVELAND . . . WHO KNEW? GROWING A MEDIA PRODUCTION INDUSTRY IN CLEVELAND

Wednesday, October 21
Noon–1:30 p.m.

Ivan Schwarz, President and CEO, Greater Cleveland Film Commission

The Greater Cleveland Film Commission (GCFC) has been the primary driving force for the passage and implementation of Ohio’s Motion Picture Tax Incentive. With the tax incentive, GCFC has been involved in bringing to Cleveland many box office favorites, such as Marvel Studios’ Captain America: The Winter Soldier; The Avengers; and Draft Day, to name a few. Over 300 productions have been filmed in Ohio since 2007, including commercials, documentaries, independent and studio feature films, music videos, public service announcements, photo shoots, television shows and Web series. Ivan Schwarz will discuss the impact of the local film industry’s success on local businesses; not just retail shops, restaurants and hotels, but also contractors, real estate agents and restaurant food suppliers.

THE LANGUAGE OF MEMORIAL ARCHITECTURE: BETWEEN BERLIN AND NEW YORK

Wednesday, October 21
7 p.m.

James E. Young, Director, Institute for Holocaust, Genocide, and Memory Studies, University of Massachusetts Amherst

In this illustrated presentation, James Young traces the language of memorial architecture beginning with Henri Pingusson’s Memorial to the Deportees of France (1962) and Maya Lin’s Vietnam Veterans Memorial (1982). These early forms inspire and underpin newer works such as Berlin’s Denkmal to the Murdered Jews of Europe, and Reflecting Absence, the memorial at ground zero in New York.

BELATED MEMORIES: THE HOLOCAUST IN ISRAELI CINEMA
Monday, October 26
7 p.m.
Sara Horowitz, Professor, Liberal Arts & Professional Studies, York University
For almost half a century, few Israeli movies focused on the Holocaust and its aftermath. It was not until the 1990s—under the influence of filmmakers who were children of Holocaust survivors—that Israeli cinema began to deal with the memory of the Nazi genocide and its difficult legacy. Looking at scenes from the last decade of the 20th and the early 21st centuries, this lecture explores the ways in which contemporary Israeli films examine the past and rethink its meaning for the future.

THE MANY FACES OF ISRAELI MUSIC
Monday, November 16
7 p.m.
Oded Zehavi, Professor of Music, University of Haifa
Israel’s musical culture is young and varied, bearing marks of diverse migrant groups, as well as global influence. Oded Zehavi, Israeli composer, professor, and former chair of the University of Haifa’s music department, explores the impact of Western European style, American show tunes, Hasidic niggun, and Yemenite and Ethiopian folksongs, among others. With such stylistic range, is there an Israeli national music?

STEM CELLS AND REGENERATIVE MEDICINE

Wednesday, November 18
Noon–1:30 p.m.
Arnold Caplan, Professor of Biology, General Medicine Sciences, Pathology and Biomedical Engineering, CWRU

Within the body, cells of the skin, gut and blood, among others, come to maturation, function for a time and then expire to be replaced by a continuous stream of cells, which renew the tissue. In every tissue in which this rejuvenation process occurs, a stem cell exists that gives rise to these differentiated cells. In this lecture, Arnold Caplan discusses the basis for mesenchymal stem cell (MSC) therapies, how MSCs used therapeutically are not stem cells and how MSCs function therapeutically.

ORIGINS SCIENCE SCHOLARS PROGRAM – UNIVERSITY CIRCLE

The Origins Science Scholars Program is presented by the Siegal Lifelong Learning Program and the Institute for the Science of Origins (ISO), a partnership of Case Western Reserve University, the Cleveland Museum of Natural History and ideastream. During this unique program, members of the community engage with each other and with leading scholars of the origins sciences to investigate rapidly developing areas of origins science. Each evening begins with a presentation by a world-class researcher, followed by complimentary dinner and open discussion among all of the participants.

Program Schedule
5:30 p.m. – Coffee and Sign-In
6 p.m. – Lecture
7 p.m. – Dinner with OSS faculty and fellows
7:30 p.m. – Q&A and Dessert

Program Costs

$40 per lecture

GRAVITY FROM NEWTON TO EINSTEIN
Tuesday, October 20
Andrew Tolley, Assistant Professor of Physics, CWRU

Einstein revolutionized our understanding of gravity by recognizing that Newton’s gravitational force was a consequence of the curvature of four-dimensional space-time. His successful theory, general relativity, correctly predicted the bending of light around the sun and explained the procession of the perihelion of Mercury. However, its most striking predictions were the inevitable formation of black holes from gravitational collapse and the Big Bang singularity, which is solidified in the work of Stephen Hawking and Roger Penrose.

TESTING GENERAL RELATIVITY
Tuesday, October 27
Claudia DeRham, Baldwin Assistant Professor of Physics, CWRU

Exactly 100 years after Albert Einstein formulated general relativity, his theory has been tested with incredible precision all the way down to sub-millimeter distances and all the way up to cosmological scales. The motion of planets in the solar system, the bending of light around massive objects and measurements of time delay are all in impeccable agreement with the theory. Today, general relativity is incorporated in technologies that are part of our everyday lives.

FROM MOLECULAR FARMING TO MOLECULAR MEDICINES
Tuesday, October 6
Nicole Steinmetz, Assistant Professor of Biomedical Engineering, CWRU

An evolutionary world of tiny machines is opening up through innovations in nanoscale science. Nicole Steinmetz discusses her work on plant viruses, which come in many shapes and sizes. Most species form highly uniform structures, and her group is adapting these to engineer and nanomanufacture plant virus-based carriers through molecular farming for applications in molecular magnetic resonance imaging, as well as drug delivery and immunotherapeutic approaches targeting cancer and cardiovascular diseases.

PAWPRINTS OF HISTORY: EVOLUTION AND DOG BEHAVIOR
Tuesday, November 3
Patricia Princehouse, Director, Program in Evolutionary Biology; Outreach Director, Institute for the Science of Origins

How is it that humankind’s best friend evolved from the same mammal order as lions, tigers and bears? Canis familiaris has a huge range of physical characteristics. But the bridge from predatory wolf to human companion is in dogs’ behavior. How was this bridge crossed? Did wolves follow humans to eat their garbage? Did children adopt wolf cubs? Did humans co-opt wolves’ hunting behavior, forming a co-evolutionary matrix that changed our bodies and theirs? What does it mean at a practical level for humans who still share their lives with dogs?

Thwing Center Ballroom, CWRU campus

LIGHT IN THE NANOWORLD
Tuesday, October 13
Pino Strangi, Professor of Physics, CWRU

Since the Big Bang, nature has produced complex physical structures—from subatomic particles, to the molecules of life, to galaxies. Light has always been used to investigate them. Today, light can be manipulated to capture the secrets of ultra-fast phenomena, to see structures smaller than its wavelength and to trap and manipulate atoms and molecules. In this U.N. International Year of Light, Strangi explains how he uses extreme optics and nanoscience to create metamaterials with unconventional optical properties. His goal is to design and nanofabricate materials for life applications based on the fundamental idea that sustainable solutions to human challenges can be found in nature’s time-tested patterns and strategies.

THE FOX DOMESTICATION PROJECT AND GENETICS OF COMPLEX BEHAVIORS

Tuesday, November 10
Anna Kukekova, Assistant Professor of Animal Sciences, University of Illinois

What does it mean to turn a wild animal into a domestic one? How much can genetics explain? And what can domesticating animals tell us about our own behavior? In a famous experiment ongoing since 1959 among silver foxes in Siberia, those bred for tameness quickly began to show behavioral patterns extremely similar to domestic dogs—eager for human contact, sniffing and licking like puppy dogs. Another lineage was bred to preserve traditional aggressive behavior. Anna Kukekova is teasing apart nature and nurture to understand how evolution works on aggression, anxiety and friendliness, even pinpointing mechanisms that may be disturbed in human behavioral disorders.

EINSTEIN’S TELESCOPE

Tuesday, November 17
Evalyn Gates, Executive Director and CEO, Cleveland Museum of Natural History

Evalyn Gates leads participants into the world of Albert Einstein’s telescope, in which a radical new technique known as gravitational lensing allows scientists to use space itself as a telescope. The warps and dimples in Einstein’s audacious description of space and time act as a giant cosmic lens that allows people to see the invisible. With Einstein’s telescope, users can find planets around other stars, magnify distant galaxies into view, map out the filaments of dark matter, trace the imprint of dark energy on our expanding and evolving cosmos and potentially answer the question, “What is the universe made of?”

ORIGINS – WEST

This Origins Science Scholars Program is presented by the Siegal Lifelong Learning Program, the Lakewood Public Library and the Institute for the Science of Origins (ISO), a partnership of Case Western Reserve University, the Cleveland Museum of Natural History and ideastream. Each evening begins with a presentation by a leading scholar of the origins sciences and concludes with a Q&A session.

FROM ATOMS TO QUARKS

December 3
Glenn Starkman, Professor of Physics and Astronomy; Director, Institute for the Science of Origins, CWRU

Matter is made out of atoms, but what are atoms made of? Answering that question has taken us from experiments that can be done in undergraduate teaching laboratories to the construction of the Large Hadron Collider in Geneva—the largest machine in the world. In the process, scientists have come to understand the Standard Model of particle physics, the single best-tested theory in all of science.

A BACKACHE OF LONGSTANDING

December 10
7–8:30 p.m.
Bruce Latimer, Professor of Anthropology, Anatomy, and Cognitive Science, CWRU

From sore feet to backaches, blame it on human evolution. Upright walking has created physical challenges from flat feet and bunions to slipped discs, hernias and fallen pelvic floors. Rising from four to two feet resulted in reshaping the face and head, producing dental problems such as wisdom teeth with no room to grow!

December 17
7–8:30 p.m.
Patricia Princehouse, Director, Program in Evolutionary Biology; Outreach Director, Institute for the Science of Origins

The basic concept of natural selection is simple, but has proved to be a wellspring for understanding biology. Darwin also proposed other mechanisms to explain the core evolutionary principle of descent with modification from common ancestors. These other mechanisms have helped and hindered evolutionary theory in various important ways as more and more is learned about biological systems and the organisms that make up the diversity of life on Earth.
The Baker-Nord Center for the Humanities highlights and celebrates the arts and humanities at CWRU by supporting research and creative work and facilitating cross-disciplinary and interdisciplinary collaborations among CWRU faculty and other University Circle institutions. SUBSTANCE ABUSE: THE BIGGEST EPIDEMIC YOU DON’T KNOW ENOUGH ABOUT

Thursday, September 24–October 15
7–9 p.m.

So much remains unknown and misunderstood about substance abuse. And much of the public continues to remain blind to issues they choose not to see. Attend one or all of these sessions and discover what effect this epidemic has on our local communities.

Siegal Facility Beachwood
Free; advanced registration recommended

DRUG USE AND ADDICTION: UP CLOSE AND PERSONAL

September 24

Lee Hoffer, Associate Professor of Anthropology, CWRU
Michael Clune, Professor of English, CWRU

Lee Hoffer addresses the cultural dimensions of illegal drug use and addiction: Why people become addicted to heroin, how they buy it and how they become connected to the market.

Offering an intimate perspective, Michael Clune shares his personal story, his experience with addiction, how he found recovery and what he learned from 13 years of working with addicts seeking help.

POLICING OUR NEIGHBORHOODS: WHAT DON’T YOU KNOW?

October 1

Moderator: Steve Gleydura, Editor, Cleveland Magazine

Panelists: Jason Marvin, Sergeant, Orange Police Department; John Finucan, Detective, Beachwood Police Department; Michael Scipione, Detective, Lyndhurst Police Department

Join local police departments as moderator Steve Gleydura discusses the challenges they confront in their communities directly linked to the current epidemic of substance abuse.

LIFE, DEATH AND SOMETIMES BACK TO LIFE AGAIN

October 8

Moderator: Jennifer Keirn, Managing Editor, Inside Business Magazine

Panelists: Jessica Goldstein, Division Chief of Emergency Medicine, Ahuja Medical Center; Christina Delos Rehas, Program Director, Addiction Psychiatry, UH Case Medical Center and Associate Professor, Psychiatry, CWRU School of Medicine; Don Spaner, President, Emergency Services Institute, Ahuja Medical Center; Andy Getz, Grief Counselor, Elisabeth Prentiss Bereavement Center, Hospice of Western Reserve

From the emergency room to the morgue, Jennifer Keirn gets to the heart of what these professionals see in our local hospitals and treatment centers while treating addicts. Some patients are lucky enough to live thanks to drugs like Naloxone, while others leave families devastated as they learn of a loved one’s death.

WORKING TOWARDS THE FUTURE: WHAT’S BEING DONE TO HELP

October 15

Panelists: David Matia, Judge, Cuyahoga County Common Pleas and Drug Courts; Joan Papp, Medical Director, Project Dawn and Assistant Professor, CWRU; William M. Denihan, CEO, ADAMHS Board; Scott Osiecki, Director of External Affairs, ADAMHS Board; Vince Caraffi, Supervisor, Cuyahoga County Board of Health and Chair, Cuyahoga County’s Opiate Task Force

This fourth session of the substance abuse series offers feedback from professionals about the procedures that have been established to help and in some cases save an addict. Panelists also share perspectives on the future outlook of this crisis. Come learn what can be done to help in the future and possibly save a life!

The series is presented in loving memory of Melissa Rae Koppel. Siegal Lifelong Learning encourages contributions to the Melissa Rae Fund in Support of Substance Abuse Advocacy, Understanding and Change. Call Sheryl Hirsh at 216.368.2091 for more information.

A MUSICAL JOURNEY THROUGH ISRAEL’S HISTORY
Wednesdays, September 2–September 30
10 a.m.–noon
No class on September 23
Oded Zehavi, Professor, Department of Music,
University of Haifa

Israel’s music offers a compelling window for understanding the state’s complex history. This course explores music’s role in the larger effort to establish a national cultural identity in pre-state Israel, then moves to a study of the connection between music and the state’s early military experiences. As the state matured, global influences made their mark on Israeli music. Finally, the assimilation of contemporary Middle Eastern sound reflects the state’s effort to negotiate a regional identity.

**JEWS AND MUSIC IN THE HOLOCAUST ERA**

Thursdays, October 15–November 19
1–3 p.m.
Eric Kisch, Host, Musical Passions Program, 104.9 WCLV FM

This course uses a variety of lenses to examine the relationship between Jews and music during the Holocaust era. Participants study the role of Jews in music in Germany and Austria, their ascent to prominence in the 19th century, the rise of anti-Semitism in music, and finally the Nazi ban of Jewish composers and performers. Other topics include music and cultural life in the camps, and the forgotten music of the banned composers. In the post-war period, attention turns to the founding of the Palestine Philharmonic Orchestra by European Jewish refugees, and finally, to the pioneering work of émigré Jewish composers in creating the new genre of film music. Required book: M. Haas, Forbidden Music: The Jewish Composers Banned by the Nazis (Yale 2013, now in paperback).

BEFORE ZIONISM: JEWS AND THE LAND OF ISRAEL

Wednesday, October 14–November 4
10 a.m.—noon

Alanna Cooper, Director of Jewish Lifelong Learning, CWRU

For much of their history, Jews lived scattered across Europe, North Africa and the Middle East. While they planted deep roots in diaspora, they also continued to define themselves through a powerful longing for Zion. This course discusses poetry, rabbinic literature, prayer and everyday correspondence as well as travelogues to explore the nature of the Jews’ connection to the land of Israel long before the rise of nations and nationalism.

THE CIVIL RIGHTS AND VOTING RIGHTS ACT OF 1964–65
Thursdays, September 3–October 1
6:30–8:30 p.m.
Barbara Greenberg, Magistrate, Bedford Municipal Court and Cuyahoga County Juvenile Court

The 50th anniversary of the Voting Rights Act of 1965 is this fall. This landmark act was the second piece of a two-year Congressional response to the Civil Rights Movement. With the companion legislation of the 1964 Civil Rights Act, this act was supposed to open the voting polls to all Americans. Did it work? Where are things in 2015 with a presidential election coming up in 2016? This course uses legislation as course text and U.S. Supreme Court cases, one of which will be decided this summer, as a discussion guide. This legislation has changed over the years. Does it matter now?

THE RIGHT TO PRIVACY
Tuesdays, September 8–October 6
1:30–3:30 p.m.
Class on September 22 will be from 12:30–2:30 p.m.
Barbara Greenberg, Magistrate, Bedford Municipal Court and Cuyahoga County Juvenile Court

Our right to privacy seems to be changing daily, with continuing conflict between individual rights and those of the community. Issues of personal choice conflict with the First Amendment freedoms of speech and religion. This course examines the areas of most recent concern: technology, public health and personal and family issues.

DEMOCRACY AND ITS CHALLENGES IN THE 21ST CENTURY
Mondays, October 12–November 16
10–11:30 a.m.
Alan Rosenbaum, Professor Emeritus, Cleveland State University

A rational and powerful defense of Western, rights-based constitutional democracy is critical in the face of religiously inspired attacks. Moreover, the elusive quest for national security may come at the expense of basic, individual civil rights, including secularism, aspiration to gender equality, individual privacy and freedom of expression.

**FAR FROM THE TREE: ACCEPTING CHILDREN WHO ARE DIFFERENT**

Mondays, October 12–November 16
6:30–8:30 p.m.

Gail Arnoff, Presidential Fellow, SAGES program, CWRU

Andrew Solomon’s book, *Far From the Tree*, turns attention to families who face extreme challenges coping with difference, including deafness, dwarfism, Down syndrome, autism, schizophrenia, severe disability or children who are prodigies, criminals or transgender. This course draws on Solomon’s book, as well as other readings, offering insight into how some families contend with situations that others might imagine to be unbearable. How do they overcome prejudices and stereotypes while learning not just to tolerate, but also to find ways in which to love those who fall far from the tree?

PLATO’S REPUBLIC
Saturdays, September 12–October 24
10:30 a.m.– noon
No class on October 3
Janice Vitullo, Director, Community-Based Languages, Laurel School
Although written approximately 2,500 years ago, Plato’s Republic is as pertinent and relevant today as it was in Ancient Greece. In this course, students complete in-depth reading and discussion of one of the most important books in the Western canon.

FINDING MEANING IN A SECULAR AGE
Tuesdays, September 22–November 10
1–2:30 p.m.
OR
Thursdays, September 24–November 12
10–11:30 a.m.
Charlene Mileti, Leader-Teacher, Off-Campus Studies
This book discussion course offers a broad survey of some of the world’s greatest thinkers and writers who argue that the malaise of contemporary society, beset with violence and selfish preoccupation, is the result of man having forgotten the aspirational aspect of life. No longer are the ideas of Truth and Beauty relevant in today’s globalized world. Because life has become focused on the persistent acquisition of wealth, power and entertainment, the authors argue we have clearly lost our way to our own humanity. This book stands as a tribute to the ancient notions of what it means to be alive. Required book: H. Dreyfus and S.D. Kelly, All Things Shining: Reading the Western Classics to Find Meaning in a Secular Age

PARALLEL TEACHINGS OF JESUS, LAO TZU, BUDDHA AND KRISHNA
Wednesdays, September 23–November 11
1–2:30 p.m.
Ted Smith, Leader-Teacher, Off-Campus Studies
Looking past the religious and cultural phrasings, the philosophy of these unique teachers is remarkably similar. This book discussion course addresses whether this ancient wisdom was simply common knowledge passed along the Silk Road or if these teachings derived from a higher source. Required book: R. Hooper, Jesus, Buddha, Krishna & Lao Tzu, The Parallel Sayings

SCIENCE AND RELIGION: SOME PHILOSOPHICAL QUESTIONS
Thursdays, October 6–October 27
7–8:30 p.m.
Michael Miller, Lecturer in Lifelong Learning, CWRU
Participants consider an array of fascinating philosophical questions about science and religion: Are science and religion fundamentally incompatible with one another? Are there compelling arguments for (or against) God’s existence? Is the theory of Intelligent Design a genuine rival to evolutionary theory? What do modern biology and neuroscience imply about the nature of the human mind, the soul, or the prospect of life after death?

JUDAISM’S SACRED WRITINGS
Thursdays, September 24–October 15
6:30–8 p.m.
Kyla Epstein Schneider, Lecturer in Lifelong Learning, CWRU
This course provides an overview of Judaism’s foundational texts. What exactly are the Bible, Mishna, Talmud and other key writings? Who is thought to have written them? When did they appear? And how do they fit together? Participants will be provided with a broad-angle view of the development of Jewish sacred writings over the course of history and will explore a lively selection of narrative, law, poetry and commentary.

APPLIED ETHICS: THEORY MEETS PRACTICE

Tuesdays, November 3–November 24
5:30–7 p.m.
Michael Miller, Lecturer in Lifelong Learning, CWRU

After a brief introduction to the basics of mainstream ethical theory, students will read and discuss a number of classic short essays on various topics in applied ethics. Ethical questions covered include the following: What is personhood (in the moral sense)? Where do moral rights come from? What is the “right to life”? What is the “right of self-determination”? What kinds of entities have such rights and why?

THE WONDERFUL LIFE OF STEPHEN JAY GOULD

Saturdays, January 9–January 30, 2016
10–11:30 a.m.
Ken Schopf, Co-Chair, Science Department, Laurel School

Stephen Jay Gould was a preeminent evolutionary biologist and historian of science, but many believe his influential popular science writing was his most important contribution. The wide impact of his popular essays resulted in a recognition that crossed into pop culture, even landing his cartoon likeness in an episode of The Simpsons. Join one of Gould’s last graduate students in a conversational exploration of his life and work. Topics include Gould’s theory of Punctuated Equilibrium, his contingent world view as expressed in his book, Wonderful Life, Gould’s claim of human equality as scientific fact and his framework of “non-overlapping magisteria” for the coexistence of science and religion. Required book: S. Gould, Wonderful Life

EASTSIDE CONVERSATIONS

Loosely fashioned after the popular City Club Forum, these sessions provide the community with a unique luncheon program once a month in which contemporary issues are discussed. Led by local university faculty and laypeople, this forum provides participants the opportunity to engage in meaningful questions and conversations. Three Eastside Conversations lectures are offered this fall and are denoted as Eastside Conversations in the offerings under Single Events and Lectures.

JEWSH STUDIES

Case Western Reserve University’s Laura and Alvin Siegal Lifelong Learning Program continues the legacy of Jewish adult education courses offered for nearly nine decades through the Laura and Alvin Siegal College of Judaic Studies and its predecessor institutions. Offerings include courses in basic to advanced Hebrew language instruction, Bible study, Jewish thought, history, culture and literature. The Distinguished Lecture Series brings world-renowned experts in Jewish studies to engage our community. Film screenings and cultural programs explore contemporary Jewish life in America and abroad.

OFF-CAMPUS STUDIES

Off-Campus Studies is a program offered in collaboration with the Association for Continuing Education (ACE). It began in 1947 as Living Room Learning, developed by Grazella Shepherd at Cleveland College who encouraged the Women’s Association, predecessor of ACE, to help design and promote classes. Courses are eight weeks long and meet for 1.5 hours per class in locations throughout Greater Cleveland. There are no written assignments or exams, but rather the classes provide an open environment for lively discussion based on meaningful examination of shared texts. Leader-Teachers facilitate the discussion and provide academic background and context. Off-Campus Studies is unique among continuing education programs because it is organized in collaboration with its participants. Designated Class Coordinators volunteer to serve as the liaison between the office and the study groups. The discussion groups select the courses with the help of the class coordinator and the office. Participation is open to everyone and groups welcome new members with enthusiasm. New groups are welcome. Please call 216.368.2090 to establish a study group in your neighborhood. Sessions require a minimum of 10 participants. All Off-Campus Studies courses are listed by subject matter under the Courses section.
ORIGINS SCIENCE SCHOLARS PROGRAM

The Institute for the Science of Origins (ISO) is a partnership of Case Western Reserve University, the Cleveland Museum of Natural History and ideastream. During this unique program, members of the community engage with each other and with leading scholars of the origins sciences to investigate rapidly developing areas of origins science. Each evening begins with a presentation by a world-class researcher, followed by complimentary dinner and open discussion among all of the participants.

SENIOR SCHOLARS

Senior Scholars is an 11-week program that meets three afternoons per week and features academic lectures by university faculty and local experts on a variety of topics. While the format is lecture style, the afternoons are informal and interactive with opportunity to ask questions and discuss the topics of the day. Senior Scholars courses can be purchased for the full year ($345), for the fall semester ($235) or one day per week ($115). This fall, Senior Scholars offers two Tuesday courses, one Wednesday course and one Thursday course. Senior Scholars courses denoted as Senior Scholars plus the respective day are found in the Course offerings. The Senior Scholars Council, an elected group of volunteers, helps with the program’s administration and participates in planning the classes.

THE FRIENDS OF JEWISH LIFELONG LEARNING

Friends of Jewish Lifelong Learning (formerly Friends of the Aaron Garber Library) is a nonprofit organization dedicated to promoting and supporting the continuing interest in Jewish learning through programming, volunteer service and fundraising. Visit its website at www.FriendsJLL.org.

UNIVERSITY FARM PROGRAM

Owned by Case Western Reserve, the University Farm, composed of Squire Valleevue and Valley Ridge Farms, is a beautiful 389-acre property in Hunting Valley, Ohio, featuring forests, ravines, waterfalls, meadows, ponds and a self-contained watershed. Farm classes take advantage of this spectacular landscape for inspiration and as a setting for learning about nature, cultivation and the environment.
