

Non-Curriculum Research

Society Deans: When a student is planning on doing research outside of curriculum research (summer research and their 16 weeks of required Research and Scholarship), they must complete this form by having their Society Deans, Research and Scholarship faculty mentor and the Assistant Dean for Medical Student Research sign the “Non-Curriculum Research Form”. This form must be filed with the Medical Student Research Office (MSRO).

The student will need to submit their research dates for approval to the Medical Student Research Office before they begin any research. The MSRO will contact the institution to begin the onboarding process.

Student's Name: _____ Graduation Year _____

Society Dean Signature _____

Research Dates: _____

Area of Research: _____

Requested Non Curriculum Research Mentor Information
