

Predoctoral Standing

A student who has not yet advanced to candidacy may begin 701 research registration with departmental approval. The student must have completed, or will complete in the following semester, all required coursework.

It is presumed that the student will take all qualifying exams and advance to candidacy by no later than the semester following the one in which Predoctoral Standing is granted.

A student with Predoctoral Standing may register for a maximum of 6 credit hours total of 701 research before advancing to candidacy.

Once registration for 701 research begins, the student must register for 701 every semester until graduation.

Doctoral students have 5 years from the first 701 registration to complete degree requirements.
