

EVENT SUMMARY

We are happy to share a recap of the [2025 CWRU Center for Imaging Research \(CCIR\) Symposium](#), which celebrated our 20th anniversary. The event included reflection on our history, accomplishments and anticipation of imaging research on the horizon. In sum - we had 200+ attendees, including staff, faculty and students from across CWRU, University Hospitals, Cleveland Clinic, and industry representatives from across the country. We were delighted to welcome alumni and faculty alumni back to campus for the event, including the center's founding director, Dr. Jeff Duerk. Trainees were highly engaged in the event and presented 55 posters. We are most grateful to our 12 sponsors. These organizations and companies made the event possible.
