

Community Engaged Research (CER) Events 2026

- **Tuesday, June 16, 2026 | 4:00–6:30 PM | MidTown Collaboration Center**
Community Engaged Research Co-Learning Event: Skill-Building Workshop – Stronger Through Collaboration:

This interactive workshop brings together CTSC-affiliated faculty, staff, collaborators, and community partners to strengthen collaboration in community-engaged research.

Grounded in team science and asset-based thinking, participants will explore strategies to leverage individual and team strengths and build more effective, sustainable research partnerships.

- **Wednesday, June 24, 2026 | 12:00–2:00 PM | Virtual via Zoom**
Spinal Cord Injury Community Engagement Studio:

This Community Engagement (CE) Studio brings together community members and researchers to inform the development of a Spinal Cord Injury Living Learning Lab (SCILL). Adults living with a cervical spinal cord injury and caregivers will share insights to help shape future research, care, and resources for individuals with spinal cord injuries.
