

# Case Center for Proteomics and Bioinformatics

The Case Center for Proteomics and Bioinformatics was created, in part, to strengthen Cleveland's presence in modern proteomics and bioinformatics research to make the region a leader in the field. One of the primary goals of the CPB is to develop an infrastructure of sophisticated equipment that facilitates and maximizes shared equipment usage, as well as to offer a wide array of proteomics and bioinformatics services including, mass spectrometry, protein expression/interactions, systems biology, and biostatistical analyses.

## Cellular Therapy Integrated Services

The Cellular Therapy Lab is located on the campus of CWRU within the Wolstein Research Building. It complies with all FDA regulations and is accredited by the Foundation for Accreditation of Cellular Therapy (FACT). In addition to manufacturing, the lab supports lot release testing, quality control of clinical products, lab correlates and process development. Laboratory staff have extensive Good Manufacturing Practices (GMP) training, quality management and regulatory experience to ensure FDA compliance.

# 11000 Cedar Startup Incubator

Our building sits across the street from CWRU's main campus, providing a tight connection between our community and university resources, including faculty expertise, core facilities, and student workforce talent. Our location provides unparalleled clinical access, too. Cleveland Clinic, University Hospitals, and the Louis Stokes Cleveland VA Medical Center are each within a mile of our front door.

## Veale Institute for Entrepreneurship

At the Case Western Reserve University Veale Institute for Entrepreneurship, our mission is to give everyone in the CWRU community an opportunity to explore, develop, and demonstrate entrepreneurial skills. We empower students by leveraging frameworks that drive action, creating opportunities to collaborate and compete, and embracing failure as learning. We support CWRU entrepreneurs as they **think** about their startups, **do** the work to move from idea to venture, and **thrive** at CWRU and beyond.
