

**Department of Population and Health Sciences
Ph.D. Lab Rotation Notification Form**

All PhD students are required to do 3 research rotations during their first academic year. Rotations will be 9-10 weeks long. Students should discuss with their prospective faculty mentors prior to scheduling and doing a rotation whether the faculty member has the resources to support the student after their first year.

Student Name (Please Print or Type)			ID#		
Rotation Number		Rotation Start Date		Rotation End Date	
Rotation Supervisor Name (Please Print or Type)					
Rotation Supervisor Signature				Date	
Work Description					
PhD Director Signature				Date	

Once completed*, **please return to Kim Krajcovic (kxk917@case.edu)** in the Population and Quantitative Health Sciences' Administration Office, WG-74. Lab Rotation Notification forms **must be submitted at least 1 week before the start of a rotation**. Students will submit three copies of this form over the course of their first year (**one for each rotation**).
