Martha L. Lepow, M.D.

Dr. Martha Lipson Lepow was born in Cleveland, Ohio, graduated from Heights High School and then enrolled at Oberlin College, majoring in chemistry. She entered Western Reserve Medical School in the class of 1952 and was one of the 7 women in a class of 84. During her fourth year, she served as Acting Intern at Babies and Children's hospital in Cleveland, where she cared for children with Leukemia, Cystic Fibrosis and Nephrosis. She also saw how penicillin, recently licensed, could cure pneumonia and then decided on a Pediatric residency. In 1953, she was

transferred to Cleveland's City Hospital (now MetroHealth Medical Center) Infectious Disease's Service and Pediatrics where Dr. Frederick Robbins was Chair and Dr. Robert Eiben supervised the poliomyelitis unit. Dr. Robbins invited her to work in the virus laboratory, where studies on sera from vaccines were being tested. In 1957, a fourth year medical student, Irwin H. Lepow, Ph.D. came to this virus laboratory to learn to grow cells in culture. He and Martha were married 2 months later. Martha later became a faculty member, teaching, caring for patients and working on testing the Sabin, Rubeola and the Rubella vaccines.

In 1967, Irwin and Martha were recruited to the new university of Connecticut Medical School. She started the Department of Pediatrics and the division of Pediatric Infectious Diseases. She and her husband then moved to Albany, New York in 1978, where she was Professor of Pediatrics at Albany Medical College. She was Vice-Chair and Head of the Division Pediatric Infectious Disease and became Chair from 1993-1997. She is currently an Emeritus professor.

Martha has served or Oled board membership in a large community health center in Albany and has been a medical adviser to several other community non-profit agencies and the Capital District Physicians Health Plan. Nationally, she has served as an editor of the Red Book, a manual of infectious diseases and vaccines for pediatricians, which is also a publication of the Pediatric Infectious Diseases of the American Academy of Pediatrics. In addition, Dr. Lepow was a grant reviewer for the NIH and March of Dimes. Finally, she has won numerous teaching awards and national awards for Pediatric Education from the AAP and an Honorary Degree from Oberlin College. She has over published over 100 research articles and book chapters.

Irwin H. Lepow, M.D., Ph.D.

Irwin H. Lepow received his Ph.D. from Western Reserve University in 1951, for complement research done in Louis Pillemer's laboratory in the Institute of Pathology. He later received his M.D. from Western Reserve in 1958. Between 1951 and 1967, he served on the School of Medicine's faculty, and during that time he extended the medical school's reputation for complement research that was established by his predecessors. In 1967, he accepted the Chair of Pathology at the then new medical school of the University of Connecticut and subsequently became Chair of Medicine. Before his death in 1984, he was Vice President for Research at the Sterling Drug Company, Rensselaer, New York, and President of its Sterling-Winthrop Research Institute.

Dr. Lepow's major research contributions included the purification and characterization of the C1qrs complex of complement and the demonstration of its enzymatic nature. He also discovered, purified and characterized the natural serum inhibitor of C1 esterase, whose deficiency underlies the disease, hereditary angioedema. Another major research contribution was showing that complement components play a significant role as mediators of the inflammatory reaction through their ability to enhance vascular permeability. Dr. Lepow was a prominent figure in the field of immunology throughout his career, based not only on his fundamental contributions to complement research but also on his personal character and leadership abilities. His stature is exemplified by his election as President of the American Association of Immunologists in 1979.

Welcome

Dear Students, Faculty, Staff and Guests:

Welcome to the Martha L. Lepow, M.D. and Irwin H. Lepow, M.D., Ph.D., Research Day, 2019! There will be a number of exciting events today, beginning with our early morning poster session, followed by student Oral Presentations and then the plenary lecture by **Margaret K. Hostetter, M.D.**, from the Cincinnati Children's Hospital Medical Center. Her talk is entitled, "***Infection in Fiction***". Following the Lepow lecture, there will be another poster session and luncheon. The final event will be more student Oral presentations from 3:00-4:30pm. An Awards ceremony honoring oral presentations and poster award winners will close the event.

The Case Western Reserve School of Medicine and the Cleveland Clinic Lerner College of Medicine of Case Western Reserve University are grateful to the family, friends and colleagues of Drs. Martha L. and Irwin H. Lepow, who, by contributing so generously to the Lepow Endowment Fund, have made this Medical Student Research Day and its distinguished Lepow Lecture possible. We are again pleased to have Dr. Martha Lepow in attendance for today's events.

In order for this day to become possible, a number of faculty and staff members have played significant roles. The Lepow Day Committee consists of Drs. Derek Abbott, Jill Azok, Colleen Croniger, Marjorie Greenfield, Neil Greenspan, Robert Haynie, Alan Hull, Charles Joiner, Thomas Kelley, James Lieberman, Charles Malemud, Donald Mann, Neil Mehta, Margaret Larkins-Pettigrew, Todd Otteson, Steven Ricanati, Charles Smith and Pamela Wearsch. They have worked on the program over the past year, formulated the current program and judged all the abstracts for the selection of the fifteen oral presentations, the highest honor for students submitting an abstract.

The following faculty members have generously donated their time to serve as Poster judges: Drs. Robert Bahler, Barbara Bates-Greenwalt, Ted Bobinsky, Milana Bogorodskaya, Joseph Bokar, Tracey Bonfield, Mark Boswell, Farren Briggs, Cheryl Cameron, David Canaday, Colleen Croniger, Shyamasree Datta, Salil Deo, Claudia Diaz,

Douglas Einstadter, Jonatha Gott, Douglas Gunzler, Rosa Hand, Corrielyn Hileman, Neil Jacobson, Charles Joiner, Janna Kiselar, Kenneth Kocilja, James Lieberman, Raymond Liu, Agnes Loeffler, Thomas Love, Charles Malemud, Donald Mann, Kimberly McBennett, Thomas McCormick, Vincent Monnier, James Newman, Neetha Parameswaran, Ronald Posner, James Rambasek, Mary Ann Richmond, Arne Rietsch, Catherine Rogers, Mamta Singh, Kent Smith, Shadi Swaidani, Charles Tannenbaum and Pamela Wearsch. We thank these faculty members for their time and help in selecting the best poster presentations for awards.

Finally, staff member, Ms. Sharon Callahan, has been enormously helpful in regard to all administrative aspects of the Lepow Day program and her assistance is sincerely appreciated.

It is important to recognize that both Drs. Martha and Irwin Lepow have been committed to the education of medical students and developing a cadre of physician scientists. For this reason, we have this important day at Case Western Reserve University for presentations and discussions of science and medicine by distinguished faculty and importantly, our student scholars and future physician scientists.

Sincerely,
Nicholas P. Ziats, Ph.D.
Chair, Lepow Day 2019

Agenda

MARTHA L. LEPOW, M.D., & IRWIN H. LEPOW, M.D., PhD.

2019 MEDICAL STUDENT RESEARCH DAY

September 26, 2019

Schedule of Events

Morning Session

Tinkham Veale Atrium (2nd Floor)

7:30 – 8:00 am **Continental Breakfast
Provided. Group A- Poster
Registration & Set-up
(Ballroom B)**

8:00 – 9:00 am **Group A- Poster and Oral
Presentation Registration &
Set-up (Ballroom B)**

Tinkham Veale Ballroom B

9:00-9:45 am **Group A - Poster Session with
judging**

Tinkham Veale Ballroom C

10:00 – 10:55 am **Oral Presentations Part I**

Tinkham Veale Ballroom A

11:00 – 11:55 pm **Introductory Remarks:
Pamela B. Davis, M.D, Ph.D.
Dean, CWRU School of Medicine**

Guest Speaker: Margaret K. Hostetter, M.D.

MARTHA L. LEPOW, M.D., & IRWIN H. LEPOW, M.D., PhD.

2019 MEDICAL STUDENT RESEARCH DAY

September 26, 2019

Schedule of Events

Afternoon Session

Tinkham Veale Atrium

**12:00 – 12:50 pm Lunch Provided &
Group B – Poster Set-up
(Ballroom B)**

Tinkham Veale Ballroom B

**1:00 – 2:45 pm Group B – Poster Session
with Judging**

2:45 – 3:00 pm Break

Tinkham Veale Ballroom C

3:00 – 4:30 pm Oral Presentation – Part 2

**4:30 – 4:50 pm Awards and Closing
(you must be present to
receive your awards)**

Keynote Speaker

Guest Lecturer

Margaret K. Hostetter, M.D.

Cincinnati Children's Hospital Medical Center

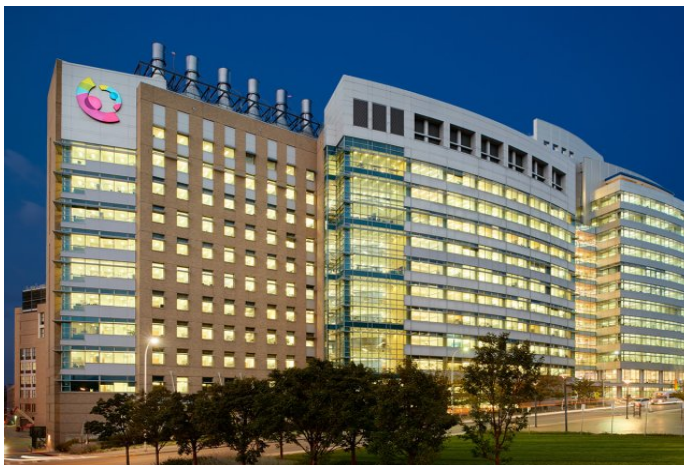

Key Note Lecture

**11:00 AM – 12:00 PM
Tinkham Veale University
Center Ballroom “C”**

“Infection in Fiction”

Dr. Margaret K. Hostetter is the B.K. Rachford Professor of Pediatrics, Chair of the Department of Pediatrics and Director of the Cincinnati Children's Research Foundation. She is a board-certified specialist in pediatric infectious diseases. A native of Toledo, Ohio, Dr. Hostetter earned her M.D. from Baylor College of Medicine in Houston, Texas, and completed her Pediatric residency and fellowship in Pediatric Infectious Diseases at Children's Hospital in Boston. She has served as the American Legion Heart Research Professor in Pediatrics at the University of Minnesota and as the Jean McLean Wallace Professor of Pediatrics and Chair of the Department of Pediatrics at Yale (2002-2010) before coming to Cincinnati Children's Hospital in 2010.

Dr. Hostetter has won several awards for her research including the E. Mead Johnson Award for Pediatric Research from the Society for Pediatric Research and the Maxwell Finland Lecture from the Infectious Diseases Society of America. She is a member of SPR (past President), APS (past President), the American Society of Clinical Investigation, the Association of American Physicians and the National Academy of Medicine.

Cincinnati Children's Hospitals Medical Center

MARTHA L. LEPOW, M.D., & IRWIN H. LEPOW, M.D., PhD.

2019 MEDICAL STUDENT RESEARCH DAY

September 26, 2019

Oral (10 min.) & Rapid Talk (3 min.) Presentations

Introductory Remarks - Dr. Nicholas P. Ziats, Chair, Lepow Day Committee

AM Session

- 10:00** **Abiff, Muta:** Regulation of the IFN γ Induced Transcriptional Program in Medulloblastoma
- 10:10** **Kim, Uriel:** The Effect of Medicaid Expansion Among Low-Income Adults on Stage at Diagnosis in Screening-Amenable Cancers
- 10:20** **Dark-Fleury, Luc:** Immunological Evaluation of Fecal Microbiome Transplanted Helicobacter Negative Mice with Spontaneous Ileitis
- 10:30** **Ren, Bryan:** Time to surgery affects return to work rates in Workers' Compensation patients with single level lumbar disc herniation
- 10:33** **Younis, Joseph:** Removal of Symptomatic Implants and Capsules Improves Pulmonary Function: An Objective Outcome Assessment in Breast Implant Related Illness (**Rapid Talk/3 min**)
- 10:36** **Liu, Angela:** Role of NF-kappaB c-Rel and O-GlcNAcylation in primary B cell function in autoimmune diabetes (**Rapid Talk/3 min**)

MARTHA L. LEPOW, M.D., & IRWIN H. LEPOW, M.D., PhD.

2019 MEDICAL STUDENT RESEARCH DAY

September 26, 2019

Oral (10 min.) & Rapid Talk (3 min.) Presentations

PM Session

- 3:00** **Trudeau, Stephen:** Demographic Differences in Outpatient Urologist Utilization using a Nationally Representative Database
- 3:10** **Snider, Christina:** RORA is a Potential Prognostic Biomarker and Therapeutic Target for Patients with Acute Myeloid Leukemia
- 3:20** **Rouabhi, Mohamed:** Orthostatic Hypertension in Chronic Kidney Disease
- 3:20** **Witkin, Matthew:** 15-PGDHi Attenuates Bleomycin Induced Pulmonary Fibrosis
- 3:30** **Unger, Robert:** Premotor transcranial direct current stimulation increases inter-hemispheric resting-state functional connectivity in patients with chronic stroke
- 3:40** **Truong, Tiffany:** Nutrition in the Ambulatory Setting for Chronic Wounds
- 3:50** **Jeong, Stacy:** Patellofemoral Arthroplasty Surgical Technique: Lateral or Medial Parapatellar Approach (**Rapid Talk/3 min.**)
- 4:00** **Bhide, Saeed (Sayuli):** Health Care Perspectives of Human Trafficking Survivors in Cleveland (**Rapid Talk/3 min.**)
- 4:03** **Mulvihill, Lianne:** PET Volumetric Prognostic Index May Be the Most Significant Factor Associated with Overall Survival in Non-Small Cell Lung Cancer Treated with Chemoradiation (**Rapid Talk/3 min.**)

Poster and Oral Presentations

#	Oral/Poster	Presenters Name	Abstract Title
1	P	Abbott, Matthew	Can Cervical Transforaminal Epidural Steroid Injections be Surgery Sparing?
2	O	Abiff, Muta	Regulation of the IFNγ Induced Transcriptional Program in Medulloblastoma
3	P	Acuna, Alexander	Opioid Use Disorder Increases the Risk of Infection after Primary Total Hip Arthroplasty
4	P	Alvarez, Benito	Hidradenitis Suppurativa: Successful Management using Staged Carbon Dioxide Laser Marsupialization Technique
5	P	Annunziata, Michael	Ex Vivo Normothermic Limb Perfusion with an HBOC-201 Based Perfusate
6	P	Atli, Karam	The Impact of Surgical Chronology on Outcomes of Patients Receiving Lumbar Spine and Lower Extremity Joint Surgeries
7	P	Avila, Amanda	Preoperative tTesting for Urethroplasty and Its Association with Outcomes- A National Surgical Quality Improvement Program Study with Associated Financial Implications
8	P	Bailey, Richard	Challenges and Insights of Daily Logbooks in Type 1 Diabetes Mellitus
9	P	Barksdale, Edward	Comparison of the Efficacy of Aspirin and Enoxaparin in Prevention of Venous Thromboembolic Events following Operative Fixation of Femur and Hip Fractures
10	P	Barrios Martinez, Paola	Correlating Healthcare Engagement with Health Literacy and Diabetes Numeracy in the Hispanic Population in Cleveland
11	O	Bhide, Saeed	Health Care Perspectives of Human Trafficking Survivors in Cleveland
