### Members Present

- Corinne Bazella
- Zachary Grimmett
- Nimitt Patel
- Tracey Bonfield
- Beata Jastrzebska
- P. Ramakrishnan
- Robert Bonomo
- Hung-Ying Kao
- Ben Roitberg
- David Buchner
- Stathis Karathanasis
- Satya Sahoo
- Cathleen Carlin
- Laura Kreiner
- Scott Simpson
- Sudha Chakrapani
- Varun Kshettry
- Jochen Son-Hing
- Shu Chen
- Cynthia Kubu
- Phoebe Stewart
- Gary Clark
- Suet Kam Lam
- Charles Sturgis
- Brian D'Anza
- Maria Cecilia Lansang
- James Howard Swain
- Piet de Boer
- Charles Malemud
- Daniel Sweeney
- Philipp Dines
- Danny Manor
- Melissa Times
- Jennifer Dorth
- Jenifer McBride
- Carlos Trombetta
- William Dupps
- Vincent Monnier
- Anna Valujskikh
- Judith French
- Vicki Noble
- Richard Zigmond
- Pamela Davis
Members Absent
Bryan Baskin  Mahmoud Ghannoum  Aparna Roy
Monica Gerrek  Rekhy Mody  Barbara Snyder
Sherine Ghafoori  Clifford Packer  Patricia Thomas
Hilary Petersen  Michael Wolfe

Others Present
Nicole Deming  Supriya Goyal
Gene Barnett  Peter Harte  Maureen McEnery
Nicole Ward

Welcome and Chair’s Comments
Dr. Sudha Chakrapani, Faculty Council Chair, called the meeting to order at 4:05pm. She reviewed the agenda for the meeting and welcomed new and returning members. Dr. Chakrapani presented an overview of faculty governance, including the role of Faculty Council and the standing committees. She also reviewed Robert’s Rules of Order.

Introduction of New Faculty Council Members
A microphone was circulated and members stated their name and department/affiliation.

Approval of Minutes from June 18, 2018 Meeting
There were two changes regarding the minutes referring to specific Bylaws sections. A motion was made to accept the minutes as amended and was seconded. There was no further discussion and the minutes were approved by a vote of 33 in favor, 0 opposed, 1 abstained.

Steering Committee Activities Report (Sudha Chakrapani)
Dr. Chakrapani presented on the Steering Committee activities which included review of chair appointments, emeritus appointments, and previewing the presentations for the September Faculty Council agenda.

New Minor Program Application, Nutrition (James Swain)
James Swain, presented the proposal to establish a new nutrition minor. Goals of new minor evolved from increasing student concerns to better prepare, initiate participate and lead efforts to resolve issues relating to environment. There are no other minor programs like this at CWRU. Likewise there are no parallel programs for undergraduate students in the regional Cleveland area. No additional faculty is needed. The Faculty Council asked questions after the presentation about government subsidies for specific foods, wellness, and other topics of interest that may be addressed in the program. Dr. Swain responded to questions and made reference to the courses that may cover these topics. A motion was made to recommend approval of the new minor, it was seconded and approved by a vote of 30 in favor, 2 opposed, and 2 abstained.

Amendments Discussion from the Bylaws Committee
Darin Croft, Chair of the SOM Bylaws Committee presented to Faculty Council with a review of the Committees work as part of the 5-year review. The Bylaws Committee is charged with reviewing amendments to the Bylaws to ensure internal consistency and compliance with the Faculty Handbook. The Bylaws Committee also reviews initial and amended charges to the SOM standing committees. discussion regarding the five-year review was brought up and information regarding the suggestions was discussed.
**New Department Application: Otolaryngology-Head and Neck Surgery, CCLCM**  
Dr. Gene Barnett presented on the creation of a new Department of Otolaryngology – Head and Neck Surgery at CCLCM. There were no questions or comments. A motion was made to recommend approval, it was seconded and passed with a vote of 30 in favor, 0 opposed and 3 abstained.

**New Department Application: Dermatology, CCLCM**  
Dr. Gene Barnett presented on establishing a new Department of Dermatology at CCLCM. There were no questions or comments. A motion was made to recommend approval, it was seconded and passed with a vote of 29 in favor, 2 opposed and 2 abstained.

**Discuss Chair-Election Election and the NEC Recommendation**  
Sudha Chakrapani reviewed the issue of the chair-elect position. Dr. Supriya Goyal is not a full-time faculty member as required by the Bylaws. Dr. Chakrapani reviewed responses and consultation with the SOM NEC, Faculty Senate Bylaws and Faculty Senate, and SOM Bylaws Committee regarding how to proceed with the situation. The three options put forth by the SOM NEC included: 1) waiting for Dr. Goyal’s faculty appointment to be approved by the BOT and then allowing her to serve as Chair-Elect, 2) appointing Tracy Bonfield as the other candidate that ran for the position of Chair-Elect in the May election or 3) hold a new election for the position of Chair-elect. All Faculty Council representatives in their second year of their term would be eligible to run. The Faculty Senate, and Steering Committee favored the first option. The SOM Bylaws Committee favored a new election questioning the legitimacy of the election for Chair-Elect since Dr. Goyal was not eligible to run. The issue was discussed and a motion was made to appoint Dr. Goyal as Chair-Elect once her appointment is conferred by the Board of Trustees in October. The motion was seconded, and passed with a vote of 21 in favor, 12 opposed, and 1 abstained.

**New business**  
There was no new business.

Meeting adjourned at 5:30.

Respectfully submitted,

Joyce Helton
Meeting of the School of Medicine Faculty Council

Sept. 17, 2018
BRB 105 4:00 p.m.

Sudha Chakrapani, PhD, (Physiology and Biophysics), Chair
Phoebe Stewart, PhD (Pharmacology), Past-Chair
Supriya Goyal, MD (Surgery-Metro), Chair-Elect
Nicole Deming, JD, MA, Assistant Dean For Faculty Affairs and Human Resources
Secretary of Faculty of Medicine
Faculty Council Meeting Agenda

- 4.00 PM Welcome and Chair Announcements
- 4.10 PM Introduction of new FC members
- 4.20 PM Approval of Minutes from June 18th, 2018 meeting.
- 4.25 PM Steering Committee Activities Report (Chakrapani)
- 4.30 PM New Minor Program Application, Nutrition – (James Swain)
- 4.40 PM Update on Amendments discussion from the Bylaws committee (Darin Croft)
- 4.50 PM New department application: Otolaryngology-Head and Neck Surgery, CCLCM (Gene Barnett)
- 5.00 PM New department application: Dermatology, CCLCM (Gene Barnett)
- 5.10 PM Discuss Chair-Elect election and the NEC recommendation.
- 5.20 PM New Business
- 5.30 PM Adjourn
The Faculty Council is the representative body of the faculty and carries out its rights and privileges of governance on behalf of the Faculty of Medicine of the SOM.

The Faculty of Medicine includes faculty members who hold full-time academic appointments at the SOM and are employed by the SOM or its affiliated hospitals: the University Hospitals Cleveland Medical Center, the Cleveland Veterans Administration Medical Center, the MetroHealth System, the Cleveland Clinic.

Faculty elect their department representatives for the Council; institutional representatives are selected by the faculty at each affiliated hospital; and at-large representatives are nominated by the nominating committee and elected by the full-time faculty.
The Role and Charge of Faculty Council

To act for the Faculty of Medicine regarding the planning and execution of educational programs and the formation of policies concerning curricula, student admissions, and the conduct of research.

To review the requirements for the M.D. degree and to approve student standings and student promotions.

Faculty Council will also:

- hear reports of the committees of the faculty and of the Faculty Council and recommend action on such reports
- To make recommendation on the establishment, discontinuance, and representative composition of the membership of all faculty standing committees
- elect a chair, a chair elect, members of the Steering Committee, and the Faculty Council members of the Nominating Committee.

The Faculty of Medicine, in many cases, reviews the recommendations from the Faculty Council and then casts the deciding and final vote.
Faculty Governance in the SOM

Standing Committees of the Faculty

Some Housekeeping points:

- Clickers will be used for voting. Please pick them when you are signing in and ensure that you return them before leaving the room.

- Chair-Elect will report on Faculty Council Steering Committee activities.

- Attendance – Quorum needed to conduct business. In accordance with the SOM Bylaws, FC meeting attendance will be recorded. A warning letter will be sent after two absences, and a request for resignation from the FC will be made after three absences, unless these absences are excused by the Chair of Faculty Council (Chakrapani).

- Communication between Departments, Faculty Council Representatives, and Faculty Council

- The SOM bylaws stipulate that all meetings must follow Robert’s Rule of Order:
  - Motion
  - Second
  - Discussion
  - Is there further debate?
  - Asking the question (putting it to a vote)
  - Chair records vote
  - A speaker may address the body twice, go back and forth; convention is to address your comments to the Chair rather than to other Council members.
Steering Committee Activities Report
Meeting Date: August 27th, 2018

**Members:** Sudha Chakrapani (Chair), Phoebe Stewart (Past-Chair). Supriya Goyal (Chair-Elect)
Shu Chen, Danny Manor, Cynthia Kubu, Vincent Monnier, Gary Clark

- Review of the proposal from the Department of Nutrition for the new Minor’s program
- Review of draft presentation by CCLCM for new academic departments: BME, Dermatology, and Otolaryngology-Head and Neck Surgery.
- Provided advice to the Dean on the interim Chair appointments.
- Advised the Dean on Interim Department Chair appointments.
New Minor Program Application, Nutrition
Update on Amendments discussion from the Bylaws committee
New Department applications-CCLCM
Chair-Elect election
In preparation for the 2018-2019 academic year, Faculty Affairs created secure folders for Steering Committee materials. While setting up access to these materials, it was discovered that Dr. Supriya Goyal's current appointment is as special faculty as a clinical assistant professor.

I reached out to the Faculty Affairs Office at MetroHealth Medical Center, the Department Chair and Dr. Goyal to clarify what appointment was intended.

We discovered that Dr. Goyal and her chair, Dr. Brandt were under the impression that she held a full-time faculty appointment as an assistant professor. However, the application that was submitted to my office, including the MHMC CAPT's recommendation, was for a part-time appointment.

Background of the issue- summarized by Nicole Deming:
Nominations and Elections Committee met on Aug 1st, it was collectively agreed that three options will be presented to the FC:

1) we leave things as such until approval by Board of Trustees meeting Sep 18th, after which Supriya will resume her role in FC, NEC, and as Chair-elect.
2) invite Tracey Bonfield (who was the runner up) to take over as Chair-elect
3) redo the election.

Communication from Cynthia Beall:
Juscelino Colares, David Miller and I (past-chair, current vice chair and current chair of Faculty Senate) along with Ken Ledford support your first option
1) we leave things as such until approval on Sep 18th after which Supriya will resume her role in FC, NEC, and as Chair-elect.

Communication from Darin Croft:
The SOM Bylaws Committee considers the election to be illegitimate, as it did not meet the requirements in the Bylaws. As a consequence, we recommend that: (1) a new election be held; (2) FC set forth a nominating process for the election that includes a deadline to identify candidates; (3) eligible candidates be those currently in their second year on FC.

CWRU Action Form for Majors/Minors/Programs/Sequences/Degrees

College/School: School of Medicine
Department: Nutrition

PROPOSED: _____ major
X__ minor
_____ program
_____ sequence
_____ degree

TITLE: Environmental Nutrition, Food Systems Sustainability, and Health

EFFECTIVE: ____Spring____ (semester) __2019__ (year)

DESCRIPTION:

Faculty Coordinator:
James H. Swain, PhD, RDN, LD, FAND
Associate Professor and Director DPD
(Food Studies Minor Coordinator)
Office Tel: (216) 368-8554
Email: james.swain@case.edu

Description and rationale for this new minor:

1) Environmental change impacts humans worldwide, with an influence lasting many generations into the future. An in depth understanding of the interplay between food systems – global food production, distribution, and selection – and environment and sustainability issues, as related to human nutrition, health, and well-being has never been more important. This new minor draws upon the specific expertise of faculty in the Nutrition Department and Environmental Studies. By completing this minor program, students will be better prepared to initiate, participate, and lead efforts aimed at resolving issues related to the environment, human health, and food systems sustainability.

2) This Environmental Nutrition, Food Systems Sustainability, and Health Minor will allow students to develop, examine, and apply knowledge in the related areas of food quality, feasible long-term global food systems, food science and chemistry, human nutrient requirements, and ethnic/cultural aspects of food production, selection, and preparation. A key concept will involve how environmental and sustainability issues directly affect the nutritive qualities of foods, thereby directly effecting human nutrition, health, and well-being.

3) Student will take courses covering aspects of human nutrition, food science/food chemistry, and environmental issues effecting food systems, with hands-on related culinary experience putting their knowledge into action.
4) There are no other minor programs like this at CWRU.

5) There are no other parallel minor programs available for undergraduate students within the regional Cleveland area.

6) Faculty Expertise: This new minor program is uniquely and strongly suited to provide students with the opportunity to receive instruction by experts in the fields of food science and nutrition, food systems sustainability, environmental studies, and health.

   a. The coordinator for this new minor is Dr. James Swain – he is Associate Professor in Nutrition and has been Director of the Dietetics Program in the Department of Nutrition at Case Western Reserve University since 2003. Prior to joining the faculty at Case, Dr. Swain was a research scientist/post-doctoral fellow for the United States Department of Agriculture (USDA). He is a Registered Dietitian Nutritionist (RDN), licensed nationally and also by the State Medical Board of Ohio. Dr. Swain has also served a five-year term on the U.S. Food and Drug Administration’s (FDA) Food Advisory Committee.

   b. Dr. Swain recently relinquished teaching on of his other courses which he has taught for many years – NTRN 365 – and thus, this new course represents one of his new “core, anchor” courses.

7) This Environmental Nutrition, Food Systems Sustainability, and Health Minor will meet the needs of undergraduate students interested in preparing for careers related to nutrition, food policy, sustainability, agriculture, wellness, public health – on local, national, and international levels. Graduates will also be better prepared for and more competitive in pursuing careers in community and government agencies, academia, and current and evolving industries involved in food production and consumer products.

8) This minor program will enhance the activities of both the College of Arts and Sciences, as well as the Nutrition Department, School of Medicine, because many students who consider coming to Case are interested in multiple majors and minors.

Resources and admission:

1) The Department of Nutrition and the Environmental Studies Program have sufficient resources, faculty, and staff in place to fully coordinate and conduct this new minor program. Further, all of the courses within this minor will be taught by faculty who are experts in these respective areas of focus.

2) To be admitted to the minor, students are asked to submit a Declaration of Minor form to the Department of Nutrition.

The mission of this new minor is to:
Provide students with a foundation of knowledge in the study of the interplay between nutritional and food sciences, environmental issues, and food systems sustainability and health.
Curriculum Requirements:

This minor program requires completion of five courses, plus one 3 cr. hr. course elective (16 credit hours total).

Requirements: Course Number – Title (cr. hrs.)
- NTRN 340* – Global Food Systems: Environmental Issues, Sustainability, and Health (3)
- NTRN 342 – Food Science (3)
- NTRN 201 – Introduction to Nutrition (3)
- NTRN 200 – Case Cooks H – Healthy Lifestyles (includes session on Carbon-Neutral Nutrition) (1)
- ESTD 101 – Introduction to Environmental Thinking (3)

Plus, one elective from any of the following courses (3):

- NTRN 328 – Child Nutrition, Development, and Health
- NTRN 343 – Dietary Patterns
- NTRN 341 – Food as Medicine
- NTRN 337 – Nutrition Communication, Counseling, and Behavior Change
- NTRN 300 – Healthy Lifestyles as Medicine
- NTRN 351 – Food Service Systems Management

Required courses – offerings:
- Fall course options = NTRN 200, 201, and 342, and elective
- Spring course options = NTRN 340, ESTD 101 (and elective, if not prior)

Depending on the student’s overall schedule, this minor program may be completed in as little as two semesters or spread over two or more semesters.

*The new course application for this course has already been submitted. (There are no course prerequisites for this course, but students should be a sophomore, junior or senior standing.)

Is this major/minor/program/sequence/degree:  
- [x] new
- [ ] modification
- [ ] replacement

If modification or replacement please elaborate:
N/A

Does this change in major/minor/program/sequence/degree involve other departments?
- [x] Yes  
- [ ] No  

(not change, but new)
If yes, which departments?  _____Environmental Studies____________________________
______________________________________________________________________________
This new minor program includes a course taught by Environmental Studies (ESTD 101). A letter of support from the Environmental Studies Director – Dr. Peter McCall - is attached.

INSTRUCTIONS
(*** indicates attachments required)

1. Docket # will be filled in by the Dean’s Office.

2. For a NEW major/minor/program/sequence/degree, include an outline of the requirements and provide a justification for establishment. For a CHANGE, describe specific changes in requirements and provide justification for all changes.

3. The completed form (with accompanying documents) should be signed by the originating department’s curriculum committee chair and department chair, other departments as required, then forwarded to the dean’s office. Do not send forms directly to the Registrar’s Office. The Provost and various deans’ offices will coordinate transmittals.
August 2, 2018

Jeffrey Wolcowitz, PhD
Dean of Undergraduate Studies
Office of Undergraduate Studies
Sears Building, Room 357
10900 Euclid Avenue
Cleveland, OH 44106

Dear Jeff,

I write this letter in very strong support of the Nutrition Department’s new minor program entitled, Environmental Nutrition, Food Systems Sustainability, and Health.

Environmental change is accelerating. Increasingly, more and more resources will be spent to study and resolve the effect of these changes, especially the impact on our food systems, food quality, and thus, human health.

Students at CWRU will benefit greatly from this new minor program because:

- The minor will provide a strong foundation for students interested in preparing for careers related to nutrition, food and agriculture sustainability, agriculture, wellness, and public health – at the local, national, and international levels;

- Completion of this minor will enable students to be competitive to pursue careers in community and government agencies, academia, as well as current and evolving industries involved in advancing food production and consumer products;

- The faculty teaching courses in this minor program have years of expertise and backgrounds in areas of food science, nutrition, and food systems. Notably, it should also be noted that our departmental faculty are the recipients or nominees for numerous teaching and mentoring awards. We are strongly committed to excellence in teaching, advising and mentoring our undergraduate students.

- Specifically, the faculty coordinator for this new minor program is Dr. James Swain. He is Associate Professor in Nutrition and has been Director of the Dietetics Program in the Department of Nutrition at Case Western Reserve University since 2003. Prior to joining the faculty at Case, Dr. Swain was a research scientist/post-doctoral fellow for the United States Department of Agriculture (USDA). He is a Registered Dietitian Nutritionist (RDN), licensed nationally and also by the State Medical Board of Ohio. Dr. Swain has also served a five-year term on the U.S. Food and Drug Administration’s (FDA) Food Advisory Committee.

Additionally, Dr. Swain will transition from teaching one of his prior spring core courses, NTRN 365, to teaching the proposed new course, (currently in the approval system), NTRN 340 Global Food Systems: Environmental Issues, Sustainability and Health. Our department has the resources to support this new minor and is committed to doing so.
This new minor program includes an Environmental Studies course - ESTD 101 (Introduction to Environmental Thinking), taught by Dr. Peter McCall. He is also the Director of the Environmental Studies Program here at Case and has provided a letter of support for this new minor program. See attached.

The Department has also sought the support of Dean Taylor for this minor. We are awaiting his response to this request.

This new minor program is uniquely and strongly suited to provide students with the opportunity to receive instruction by experts in the fields of food science, nutrition, and food systems. Therefore, students will be best prepared to initiate, participate, and lead efforts aimed at resolving issues related to the environment, human health, and food systems sustainability.

Thank you for your support in facilitating this request.

Best regards,

Hope Barkoukis, PhD, RDN, LD, FAND
Who are we?

Elected members
- Darin Croft, Ph.D. (Dept. of Anatomy), Chair
- Piet de Boer, Ph.D. (Dept. of Molecular Biology & Microbiology)
- Peter Harte, Ph.D. (Dept. of Genetics & Genome Sciences)
- Irving Hirsch, M.D. (Dept. of Anesthesiology, University Hospitals)
- Maureen McEnery, Ph.D. (Dept. of Neurology, University Hospitals)
- Jonathan Miller, M.D. (Dept. of Neurological Surgery, University Hospitals)

Ex officio member
- Nicole Deming, J.D. (Assistant Dean, Faculty Affairs & Human Resources)
What do we do?

- Make recommendations to FC regarding amendments to Bylaws of Faculty of Medicine
- Make recommendations to FC regarding new and amended standing committee charges
- Review Bylaws at least once every 5 years
SOM Bylaws Basics

• Article 1: Purpose
• Article 2: Faculty of Medicine
• Article 3: Faculty Council
• Article 4: Departments & Division of General Medical Sciences
• Article 5: Appointments, Promotions, Tenure
• Article 6: Amendments
• Appendix 1: Qualifications & Standards for Appointments, Promotions, Tenure
5-Year Review

- Article 1: Purpose
- Article 2: Faculty of Medicine
- Article 3: Faculty Council
- Article 4: Departments & Division of General Medical Sciences
- Article 5: Appointments, Promotions, Tenure
- Article 6: Amendments
- Appendix 1: Qualifications & Standards for Appointments, Promotions, Tenure
5-Year Review Faculty Suggestions

• Solicited by Faculty Affairs by email last fall
• 10 suggestions received and considered
• Responses sent to FC reps prior to May 2018 mtng.

1. I would like to make a faculty suggestion that an individual cannot represent the SOM or be on more than two committees. I realize it’s difficult to get faculty to serve, but if faculty are able to continue to be on multiple committees, then a minority of individuals are representing us.

2. I recommend adding language to Article 2:7.b. under the section entitled “Committees of the Faculty”. Added language will state that Faculty shall serve on only two standing committees or governing bodies at the same time. This could be two committee memberships at SOM, or one at SOM and one at the level of the university.

Changes proposed to Article 3.6b
5-Year Review Faculty Suggestions

3. I recommend modifying the language in 2:7.b. under the section entitled “Committees of the Faculty”. Please change the language to state that each standing committee shall conduct a self-review of its charge every 5 years, and submit recommended changes to faculty council for discussion and approval.

No changes proposed
(Basic descriptions of standing committees in Article 2.7; some charges already in Article 3.6)

4. I also recommend adding language that standing committees shall nominate one of its members to chair the committee for ratification by faculty council (with the exception of CAPT).

No changes proposed
(Committee already has input via Article 2.6b)
5. I recommend modifying the language in Article 3.1.a. under the section entitled “The Faculty Council” to implicitly (sic.) state that the SOM faculty council acts as the executive committee of the Faculty of Medicine, so as to comply with the Faculty Senate handbook. As such, faculty council executes executive duties adapted from the Faculty Senate Handbook, which include: a) advising the president on the appointment of an interim or acting dean; b) consulting with the president and dean on matters that they bring before the faculty council; c) advising the dean in the selection of officers of academic administration whose positions carry responsibilities extending beyond a single department; and d) setting the agenda for meetings of the faculty council.

Changes proposed to Article 3.1a
6. I recommend modifying the language in Article 3:5 describing the “Officers of the Faculty Council” to state that the chair-elect of the Faculty Council shall be elected from preclinical sciences, clinical sciences from UH/VA, clinical sciences from MetroHealth, and clinical sciences from CCF, on an annual rotating basis.

Other changes proposed to Article 3.5

7. I recommend modifying the language in Article 3:6.a. describing the duties of the faculty council steering committee. I recommend modifying the statement that steering committee is empowered to act for faculty council between regular meetings by adding that “such action by the Steering Committee will be restricted to emergency situations”.

No changes proposed (too subjective)
8. I also recommend adding language to state that faculty shall have a two-term lifetime limit to serving on the faculty council steering committee, with the exception of faculty council chairs who shall have a 3-term lifetime limit.

9. I recommend modifying the language in Article 3:6.b. describing the nominating committee of faculty council to include equal representation from all CWRU SOM affiliates (SOM; UH/VA; MetroHealth; CCF/CCLCM/LRI).

No changes proposed (too prescriptive)
10. I recommend modifying the language in Article 3:6.d. describing ad hoc committees of faculty council to state that memberships and agendas of ad hoc committees shall be ratified and modified by majority vote of the executive committee of the faculty of medicine.

No changes proposed
(FC already specifies membership by Article 3.6; agenda oversight deemed too cumbersome)
Thanks!
Questions?
July 27, 2018

Pamela B. Davis, MD, PhD
Dean, CWRU School of Medicine and
Vice President for Medical Affairs
Case Western Reserve University
10900 Euclid Avenue
Cleveland, OH 44106

Dear Dean Davis:

It is my privilege to propose the creation of the Academic Department of Dermatology at the Cleveland Clinic Lerner College of Medicine of Case Western Reserve University. The Academic Chair of this new Dermatology department would be the same person as the Clinical Chair of Dermatology at Cleveland Clinic, who is Dr. Allison Vidimos.

Allison T. Vidimos, RPh, MD, received her B.S. in Pharmacy from Purdue University and her M.D. degree from Indiana University. She completed her dermatology residency and Mohs surgery fellowship at Cleveland Clinic Foundation, where she joined the staff in 1991. She was program director for the dermatology residency from 2001-2006. She was appointed Chairman of the Department of Dermatology at Cleveland Clinic in March 2005 and Vice Chairman of the Dermatology and Plastic Surgery Institute in 2009. She was appointed Professor of Medicine, Cleveland Clinic Lerner College of Medicine of Case Western Reserve University in 2011. She became the program director of the Micrographic Surgery and Dermatologic Oncology fellowship in 2013.

She was a member of the Scientific Assembly Committee and Membership Committee for the American Academy of Dermatology 2012-2017, and is a member of the Site and Slide Review, Fellowship Training Committee, Public Policy and Advocacy Committee and President of the American College of Mohs Surgery 2017-2018. She was appointed to the Board of Directors for the American Board of Dermatology in 2018 and is a member of the board question writing committee for dermatologic surgery. She was appointed as an Expert Panel Member for the Expert Committee on Compounding for the United States Pharmacopoeia (USP) in 2018. She has co-authored 2 textbooks and over 50 articles. Her practice encompasses skin cancer prevention, diagnosis and treatment. She has participated in medical mission trips to Honduras for the past 11 years.

1. The breadth and depth of the identified faculty’s teaching and research productivity.
The Department of Dermatology has an outstanding reputation for clinical and academic excellence. Members of the Department are engaged in a wide variety of clinical and research activities including Infectious diseases of the skin, skin cancers, blistering disorders, connective tissue diseases, psoriasis and related conditions, photosensitivity, cutaneous ulcerations, oral diseases, eczema, vitiligo, pruritus, acne, industrial dermatology, hair loss, and improving the appearance of the skin. Notable faculty include Drs. Wilma Bergfeld, Steven Bernard, Steven Billings, Anthony Fernandez, Mathew Janik, Pamela Ng, Kenneth Tomecki and Christine Warren. Appendix A and B list the Dermatology staff that are currently CCLCM faculty and those who will apply in the future.

All of the teaching faculty are dedicated to education and demonstrate that with their high teaching scores and willingness to teach medical students, residents, and fellows. All trainees are engaged in a wide variety of clinical and research activities. The Dermatology and Plastic Surgery Institute offers the resources and commitment to support education within our Institute. Trainees rotate through Dermatology from area universities with approximately 10 from CCLCM, 5 from CWRU, and 2 from NEOMED each year.

The Dermatology Residency Program continues to be a very competitive categorical residency program. We continue to attract top-notch medical students with USMLE scores in the 90th percentile and above, and members of the AOA honor society. This year’s 530 applicants were once again top tier medical students, making it extremely difficult to limit our invitations to 40 interviewees for 4 positions. Although we received approval to expand our resident complement to five a year for a total of 20, we have decided to max out at 16 residents to optimize the learning environment given the current staff complement. The program directors have been actively working with the Dermatology Program Education Committee to continuously improve the program while maintaining compliance with the ACGME requirements. We have two highly committed program directors, Dr. Christine Lopez and Dr. Melissa Piliang, and a residency program coordinator, Cheryl Williams, whose teamwork and dedication have shown to be excellent for our programs.

With such a diverse patient population, complimented by our faculty members’ diverse specialty training in all aspects of dermatology, our residents continue to receive a solid and well-rounded training, preparing them for postgraduate fellowships or successful academic or private practice careers in dermatology. Of our five graduating residents last year, one stayed to pursue our Micrographic Surgery and Dermatologic Oncology (MSDO) fellowship, and another to pursue our Dermatopathology fellowship, one other pursued a MSDO fellowship in Pittsburgh, and the remaining two other joined private practices in Michigan and Maryland.

There are on the average 2-3 rotators that come through the department per month, from various departments of Internal Medicine, Pediatrics, Family Medicine, Radiation Oncology and Plastic Surgery. We have trainees coming from international locations, as well as national (Florida, South Carolina, Drexel, Indiana, Arizona, New York, etc.), and local (Toledo and Lake Erie College). Schedules are done accordingly with input from the program directors, the chief residents and the residency coordinators based on their individual rotation goals and objectives. Although most of these learners rotate at the main campus, other members of our staff from the satellites who have helped tremendously in
educating these residents include: Dr. John Anthony, Dr. Alejandra Tellez, Dr. Pamela Ng, and Dr. Carol Slover, as well as advance practice providers, Melissa Payne, CNP and Danielle Spatholt, PAC.

We have 1-2 observers a month that come to through the main campus or travel to the satellites seeking further exposure to dermatology, or the subspecialties of procedural dermatology or dermatopathology. These requests come from different programs nationally as well as internationally.

We employ 5 Physician Assistants, 3 Nurse Practitioner and 1 Pediatric Dermatology Clinical Nurse Specialist in our department, with most of them having practices in our regional dermatology locations. Only two of them rotate at main campus. The more seasoned physician assistants mentor 1-2 PA students for month-long rotations each year. Evan Minior, FNP – BC, has been appointed as manager for all mid-level providers in the DPSI. In this role, Evan has streamlined the onboarding process for new hires, as well as the annual professional review process for all our mid-level providers. The mid-level providers in Dermatology serve a very specific role and are very productive. Ensuring they are a successful group within our practice, practicing at the top of their license, is of utmost importance.

The Department of Dermatology offers a four-year categorical training program that fulfills the requirements of the American Board of Dermatology. Candidates apply for a four-year program to include a year of transitional GL-1 training. Currently, 17 individuals are in training.

Educational opportunities include textbook club, journal clubs, grand rounds, dermatopathology lectures, staff lectures, guest lectures, and interdepartmental combined conferences. For staff, we have research and career mentorship and support for early-mid career physician researchers to initiate or participate in clinical research. Overall we have dedicated research infrastructure to support the research activities within our institute that includes a dedicated data manager, a dedicated statistician, and mentored support for protocol development and scientific writing (grant and manuscript preparation).

2. Any additional factors that are relevant to the proposed new department.

The proposal to create an Academic Department of Dermatology comes at the request of Dean Pamela Davis. Faculty members of the clinical department are actively involved in the teaching of medical students, residents and fellows, and it is fitting that they be recognized for the academic pursuits in this specialty. They are currently in the Academic Department of Medicine and would then transfer into the newly created Academic Department of Dermatology. At its inception, CCLCM purposefully started off with few departments, however as the College has matured, we believe that it is important to align our academic departments with those of the other institutions that are CWRU-SOM teaching institution and that in this case, Dermatology is sufficiently robust that it should stand apart from the Academic Department of Medicine.

3. An analysis of the effect of establishment of the second department on existing departments of the School of Medicine.

Creation of this department would parallel the existence of such academic departments at other CWRU School of Medicine teaching hospitals, but would have no adverse impact on them and may facilitate
academic interaction amongst them. The new academic department will clearly define the academic disciplines that already exist within our clinical department.

4. A statement that research publications authored by faculty with appointment in the new department will make note of the Case Western Reserve University faculty appointment.

Research publications authored by faculty with appointment in this new department will make note of their Case Western Reserve University faculty appointment.

5. A five-year business plan demonstrating how the second department will achieve and maintain financial viability or, in the alternative and if appropriate, the proposal should affirm that the new department will not require funding from the School of Medicine.

The creation of this department will have no financial impact on CWRU or the School of Medicine and will not require any funding from either. It is anticipated that this validation of the faculty’s academic accomplishments will further stimulate these pursuits in the future. Further, alignment of these faculty appointments with the other CWRU-SOM departments should facilitate engagement with students and like faculty at the new Health Education Campus.

Thank you for your consideration,

Gene H. Barnett, MD, MBA
Associate Dean for Faculty Affairs
Cleveland Clinic Lerner College of Medicine
of Case Western Reserve University

RE: Allison T. Vidimos, RPh, MD
Application for Appointment as Academic Chair, Department Dermatology within
Cleveland Clinic Lerner College of Medicine of Case Western Reserve University

Dear Dean Davis:
On behalf of Gene H. Barnett, MD, Cleveland Clinic Lerner College of Medicine Associate Dean of Faculty Affairs, our Faculty Appointment and Promotions Committee, and the Cleveland Clinic Lerner College of Medicine Executive Team, I would like to propose Allison T. Vidimos, RPh, MD as the new Chair for the Academic Department of Dermatology, within the Cleveland Clinic Lerner College of Medicine. Dr. Vidimos was chosen as she is the current Chair of the Department of Dermatology and the Vice Chair of the Dermatology and Plastic Surgery Institute and is well suited to this leadership position.
Allison T. Vidimos, RPh, MD, received her B.S. in Pharmacy from Purdue University and her M.D. degree from Indiana University. She completed her dermatology residency and Mohs surgery fellowship at Cleveland Clinic, where she joined the staff in 1991. She was program director for the dermatology residency program from 2001-2006. She was appointed Chair of the Department of Dermatology at Cleveland Clinic in March 2005 and Vice Chair of the Dermatology and Plastic Surgery Institute in 2009. She was appointed Professor of Medicine, Cleveland Clinic Lerner College of Medicine of Case Western Reserve University in 2011. Dr. Vidimos became the program director of the Micrographic Surgery and Dermatologic Oncology fellowship program in 2013.
Dr. Vidimos is a leader at Cleveland Clinic and throughout organizations in her clinical field. She was a member of the Scientific Assembly Committee and Membership Committee for the American Academy of Dermatology from 2012-2017 and is a member of the Site and Slide Review, Fellowship Training Committee, Public Policy and Advocacy Committee, and President of the American College of Mohs Surgery from 2017-2018. She was appointed to the Board of
Directors for the American Board of Dermatology in 2018 and is a member of the board question writing committee for dermatologic surgery. She was appointed as an Expert Panel Member for the Expert Committee on Compounding for the United States Pharmacopoeia (USP) in 2018.

Dr. Vidimos is board certified by the American Board of Dermatology and has an active clinical practice seeing patients and offering treatment for skin cancer prevention and diagnosis. She has also participated in medical mission trips to Honduras for the past 11 years. For research, she has written over 50 articles, co-authored 2 textbooks, and presented at annual meetings. In summary we are very enthused to have Allison T. Vidimos, MD be the chair of our new CCLCM Dermatology academic department. Her enthusiasm and dedication will serve the students and faculty well at the Cleveland Clinic Lerner College of Medicine of Case Western Reserve University.

Please let me know if you have any questions.

Sincerely,

J. Harry Isaacson, MD
Interim Executive Dean, Cleveland Clinic Lerner College of Medicine
Associate Professor of Medicine

CURRICULUM VITAE

Allison T. Vidimos, R.Ph., M.D.

PERSONAL INFORMATION
Name: Allison Therese Vidimos, R.Ph., M.D.

EDUCATION
School: Andrean High School (Merrillville, IN)
Degree: Diploma (valedictorian)
Dates: 1972-1976

School: Purdue University (West Lafayette, IN), B.S., Pharmacy
Degree: B.S., Pharmacy (with distinction)-1976-81

School: Indiana University (Indianapolis, IN)
Degree: MD (highest distinction)
Dates: 1981-1985

POST-GRADUATE TRAINING
Institution: Cleveland Clinic
Position: Residency, Dermatology
Dates: 1985-1989

Institution: Cleveland Clinic
Position: Fellowship, Mohs surgery

CONTACT INFORMATION
Office Address: Cleveland Clinic, 9500 Euclid Ave., A61, Cleveland, OH 44195
Office Phone: 216-444-3345

Cleveland Clinic Foundation Pediatric Grand Rounds, Internal Medicine Conference (Cleveland, OH) - February, 1988
Lecture: Lipodystrophy

American Academy of Dermatology Annual Meeting, Symposium on Gross and Microscopic Dermatology (Washington, DC) - December, 1988
Lecture: Trichothiodystrophy

Cleveland Dermatological Society Meeting (Cleveland, OH) - April, 1988
Lectures: a) Trichothiodystrophy b) Linear Scleroderma en Coup de Sabre Variant

Medical Update for the Cleveland Clinic Affiliate Physician, Cleveland Clinic Foundation Postgraduate Course (Cleveland, OH) - April, 1989
Lecture: Judging a Book by its Cover: Cutaneous signs of Internal Malignancy

Enterostomal Therapy Update, Cleveland Clinic Foundation Postgraduate Course (Cleveland, OH) - August, 1989
Lecture: Looking Skin Deep: The Cutaneous Exam

Soft Tissue Workshop, Cleveland Clinic Foundation Postgraduate Course (Cleveland, OH) - February, 1990
Lectures: a) Management of Hypertrophic Scars b) Benign and Malignant Skin Lesions

District Osteopathic Medicine Society Meeting (Sandusky, OH) - April, 1990
Lecture: Cutaneous signs of Internal Malignancy

Summer Seminars in Dermatology, Cleveland Clinic Foundation Postgraduate Course (Sandusky, OH) - August, 1990 Lecture: Mysteries and Management of Keloids

Ohio Dermatologic Nurses' Association Annual Meeting (Mentor, OH) - September, 1990 Lecture: Common Benign and Malignant Skin Lesions

American Society for Dermatologic Surgery Annual Meeting (Orlando, FL) - March, 1991 Lecture: Prevention of Hair Growth in Myocutaneous flaps by Means of De-Epithelialization (Abstract presentation at First International Meeting on Laryngotracheal Reconstruction, Cleveland, OH - August, 1991 by Dr. Dennis Kraus)

Cleveland MetroHealth Hospital Pediatric Grand Rounds (Cleveland, OH) - April, 1991
Lecture: Laser Treatment of Portwine Stains

District Osteopathic Medicine Society Meeting (Sandusky, OH) - August, 1991
Lecture: Diagnosis of Common Benign and Malignant Skin Lesions

Cleveland Clinic Health Talks--Women's Issues (Westlake, OH) - September, 1991
Lecture: Putting Your Best Face Forward

Cleveland Clinic Foundation Otolaryngology Grand Rounds (Cleveland, OH) - October, 1991
Lecture: Diagnosis of Benign and Malignant Skin Lesions of the Head and Neck

Dermatology for the Referring Physician, Cleveland Clinic Foundation Postgraduate Course (Cleveland, OH) - January, 1992
Lecture: Aims of Beams - Lasers in Dermatology

Cleveland Clinic Foundation Urology Grand Rounds (Cleveland, OH) - February, 1992
Lecture: Evaluation and Treatment of Condyloma Acuminata

Cleveland Clinic Foundation Otolaryngology Grand Rounds (Cleveland, OH) - February, 1992
Lecture: Management of Cutaneous Vascular Malformations

Summer Seminars in Dermatology, Cleveland Clinic Foundation Postgraduate Course (Cleveland, OH) - August, 1992
Lecture: Removing the Stains: Evaluation and Treatment of Congenital Vascular Malformations

Third International Conference on Head and Neck Cancer (San Francisco, CA) - September, 1992
Kraus, D, Vidimos, AT, Eliachar I. Abstract Presentation: Prevention of Hair Growth in Myocutaneous Flaps by CO2 Laser Irradiation

Management of Pediatric Soft Tissue Injury, Cleveland Clinic Foundation Postgraduate Course (Cleveland, OH) - August, 1993
Lecture: Prevention and Management of Hypertrophic Scars and Keloids

Seventh Annual Summer Seminars in Dermatology, Cleveland Clinic Foundation Postgraduate Course (Cleveland, OH) - August, 1993
Lecture: Surgical Surprises and Solutions

American Academy of Dermatology Annual Meeting (Washington, DC) - December, 1993 - Oral Medicine Symposium
Lecture: Mohs Surgery for Intraoral Neoplasms

Second Annual Medical Issues in Dental Hygiene, Cleveland Clinic Foundation Postgraduate Course (Cleveland, OH) - January, 1994
Lecture: By the Skin of Your Teeth: Cutaneous and Oral Lesions in Your Patient

Cleveland Clinic Foundation Otolaryngology Grand Rounds (Cleveland, OH) - January, 1994
Lecture: Non-Melanoma Skin Cancer: Clinical Presentations and Treatment Options
Skin Cancer Foundation Annual Meeting (Cancun, Mexico) - February, 1994
Lectures: a) Facial Flex For Treatment of Post-Surgical Microstomia
       b) Congenital Dermatofibrosarcoma Protuberans--Treatment With Mohs Micrographic
       Surgery

Cleveland Clinic Foundation Medical Grand Rounds (Cleveland, OH) - February, 1994
Lectures: a) Cutaneous Manifestations of Internal Disease
       b) Update on Dermatologic Surgery

St. Alexis Hospital Grand Rounds (Cleveland, OH) - April, 1994
Lecture: Clinical Manifestations and Treatment Options of Non-Melanoma Skin Cancer

First International Congress on Maxillofacial Prosthetics (Palm Springs, CA) -
April, 1994 Lecture: Overview of Mohs Micrographic Surgery and Use in the Treatment
of Oral Tumors

Eighth Annual Summer Seminars in Dermatology - CCF Postgraduate Course;
(Cleveland, OH) - August, 1994; Moderator: Surgical Session; Lecture: Surgical
Surprises and Solutions

Sclerotherapy for Varicose Veins and Telangiectasias - CCF Postgraduate Course;
(San Diego, CA) - February, 1995

Third Annual Cleveland Review of Medicine in Dental Hygiene-CCF postgraduate
course (Cleveland, OH) - November, 1995. Lecture: By the Skin of Your Teeth – Benign
and Malignant Skin Lesions of the Head and Neck.

Ninth Annual Seminars in Dermatology-CCF postgraduate course (Cleveland, OH)
November, 1995. Lecture: Surgical Clinicopathologic Conference

Clinical Evaluation of Dysplastic Nevi and Melanoma-CCF Melanoma Conference –
February 21, 1996.

Oral Biopsy: Indications and Techniques-Oral Medicine Symposium-CCF CME Course
(Cleveland, OH), May 3, 1996.

Dermatofibrosarcoma Protuberans--Wide Excision Versus Mohs Surgery-American
Society of Dermatologic Surgery (Palm Desert, CA), May 17, 1996.

Co-Director, Women in Dermatologic Surgery - American Society of Dermatologic
Surgery (Palm Desert, CA), May 17, 1996.

Silk Touch Carbon Dioxide Laser Resurfacing--Indications and Techniques-Ohio Valley
Society of Plastic and Reconstructive Surgery (Cleveland, OH), June 8, 1996.

Treatment and Prevention of Photoaged Skin-CCF Health Talks (Lakeside, OH), July 13,
1996.

Oral Biopsy Techniques and Indications--The American Academy of Dermatology
Summer Meeting (Orlando, FL), July 27, 1996.

Sclerotherapy - Indications and Techniques--Ohio Society of Dermatologic Surgery (Columbus, OH), October 1996.

Evaluation and Treatment of Photoaged Skin--Ohio Dermatologic Nurses Association (Columbus, OH), October 1996.

Carbon Dioxide Laser Resurfacing--Indications and Techniques. Tenth Annual Seminars In Dermatology, Cleveland Clinic Foundation Postgraduate Course (Cleveland, OH), November, 1996.

Lasers in Dermatology—Aims of Beams. Fourth Annual Review of Medicine and Dental Hygiene, Cleveland Clinic Foundation, Postgraduate Course (Cleveland, Ohio), November 5, 1995.

Treatment of Photoaged Skin—Cleveland Clinic Health Talk; August and November 1997.

Dermatologic Surgery Education in Residency. Association of Professors of Dermatology/Association of Academic Dermatologic Surgeons; Chicago, Il, October 1998

Lotions, Potions, and Cosmeceuticals for the Periocular Skin. The Skin and the Eye; A Dermatologic Correlation of Disease of the Periorbital Region. Cleveland Clinic Foundation, CME Course; October 1998.

Radiologic Evaluation of Aggressive Skin Tumors. Skin Cancer Foundation Annual Meeting; Costa Rica; January 1999

Facial Flex for Postsurgical Microstomia, Hawaii Dermatology Seminars; February 1999.

Laser Resurfacing, Hawaii Dermatology Seminars; February 1999.

Mohs Micrographic Surgery, Cleveland Clinic Foundation, Cleveland Histotechnology Society Meeting; February 1999.

Clinical Radiological Features of Aggressive Skin Cancers. Otolaryngology Department Lecture, Cleveland Clinic Foundation, June 1999.

Dermatologic Surgery Update. Seminars in Dermatology, Cleveland Clinic Foundation CME Postgraduate Course; November 1999.

Dermatologic Applications of Botulinum Toxin. May Day Therapy, Cleveland Clinic Foundation CME Course; May 25, 2000.

Radiologic Assessment of Aggressive Skin Tumors. Update on Mohs Micrographic Surgery; Madison Wisconsin; July 2000.

Diagnosis and Management of Rare Cutaneous Skin Tumors. Annual Clinic Seminars in Dermatology. Cleveland Clinic CME Postgraduate Course; Cleveland, Ohio; November 2000.

Laser and Cosmetic Dermatologic Surgery Workshop, Singapore National Skin Center, October 2000; a) Chemical Peels and Skin Rejuvenation; b) Laser Resurfacing for Wrinkles and Scars; c) Hair Transplantation; d) Performed Various Surgical Procedures with Running Commentary and Videotaping including Hair Transplantation, Laser Skin Resurfacing, Botulinum Toxin Injections, Soft Tissue Augmentation with Collagen, and Sclerotherapy.

Update on Photoaging Treatments – Medical & Surgical, Ohio Valley Plastic Surgery Meeting; Sandusky, Ohio; June 2001

Acne Scar Revision presented at New Horizons in Pediatric and Adolescent Plastic Surgery, CCF CME Course; Cleveland, Ohio; September 2001.

Moderator: Panel on Updates in Cutaneous Surgery and Phlebology, American Society or Dermatologic Surgery Annual Meeting; October 2001; Dallas, Texas.

What’s New in Cutaneous Laser Surgery, Annual Meeting of the Ohio Dermatological Association and the Ohio Society for Dermatologic Surgery; November 2001; Columbus, Ohio.

Advances in Cutaneous Laser Surgery, 15th Annual Clinic Seminars in Dermatology, Cleveland Clinic CME Course; Cleveland, Ohio; December 2001.

Basic Science of Cutaneous Lasers. Eight Annual Cutaneous Basic Science Course, Indiana University, Indianapolis, IN, October 2002/

Moderator, Update on Dermatologic Surgery Research, American Society for Dermatologic Surgery/American College of Mohs Micrographic Surgery and Cutaneous Oncology annual meeting, November 2002.

Surgical CPC. Sixteenth Annual Clinic Seminars in Dermatology. Cleveland, Ohio, November 2002.

Diagnosis and Management of Nonmelanoma Skin Cancer, Primary Care Update, Cleveland Academy of Osteopathic Medicine, Independence, Ohio, January 17, 2003.

Skin Cancer Update. Skin Cancer Foundation Speakers Bureau. Cleveland Clinic, University Hospitals and Metro General Hospital Residents, Rocky River, Ohio, February, 2003.

Acne Scar Revision, Pediatric Plastic Surgery Conference, Cleveland, OH, September 2003.

Cutaneous Laser Surgery, Lotions, Potions, Lasers and Peels; Treatment Options for
Photoaged Skin, Skin Cancer: Prevention and Treatment, Crystal Cruise Line

Symposium Director and Presenter, Annual Meeting of the American Society for
Dermatologic Surgery and American College of Mohs Micrographic Surgery and
Cutaneous Oncology, Radiologic Assessment of Aggressive Nonmelanoma Skin
Cancers, co-presented with Todd W. Stultz, DDS, MD, New Orleans, LA, October
2003.

Basic Science and Clinical Applications of Cutaneous Lasers, Ninth Annual Cutaneous
Basic Science Course, Indiana University, Indianapolis, November 2003.

Acroangiodermatitis, Presentation at the Gross and Microscopic Symposium at the
Annual Meeting of the American Academy of Dermatology, February 2004, James
Libbecco (presenter), Allison Vidimos.

Skin Cancer Update Cleveland Clinic Foundation Alumni Reunion/Update, Weston

Skin Cancer Update, presentation to Greater Cleveland Area Dermatology Physician
Assistant Journal Club, Independence, Ohio, April 2004

Lotions, Potions, Lasers and Peels – Treatment Options for Photoaged Skin,
presentation at Speaking of Woman’s Health Annual Meeting, Cleveland Clinic
Foundation, Intercontinental Hotel, April 2004

Mohs Micrographic Surgery, Dental and Oral Surgery resident conference, Cleveland
Clinic Foundation, May 2004

Skin Cancer Prevention, Diagnosis and Treatment, and Lasers in Dermatology
presented as six 40 minute lectures to ninth grade advanced biology students at Padua
High School, Parma, Ohio, May 28, 2004

Surgery Meeting, Cleveland, Ohio, May 2004

Mohs Micrographic Surgery: Prosthetic Considerations Annual meeting of the
American Association of Anaplastology, Cleveland, Ohio, July 2004

Basic Science and Clinical Applications of Local and Topical Anesthetics. Tenth
Annual Indiana University Basic Science Course, November 2004.

Woman’s Health Summit, Advances in Cosmetic Surgery, Intercontinental Hotel,
Cleveland, April 2005

Ohio Dermatological Nurses Association State Meeting, Cutaneous Laser Surgery
Update, Fairlawn, Ohio, May 2005

American Academy of Dermatology Annual Summer Meeting, Unusual Cutaneous
Tumors Symposium, Microcystic Adnexal Carcinoma. Chicago, IL, July 2005
American Society for Dermatologic Surgery/American College of Mohs Micrographic Surgery and Cutaneous Oncology Annual Meeting, Atlanta, GA, October 2005

Tenth Annual Indiana University Cutaneous Basic Science Course, Basic Science and Clinical Applications of Botulinum Toxin – It’s Not Just for Wrinkles. November 2005

Nineteenth Annual Clinic Seminars in Dermatology. CCF Postgraduate Course. Skin Cancer in Organ Transplant Patients. Cleveland, Ohio, November 2005.

Mohs Micrographic Surgery, Plastic Surgery Fellows and Staff January 2006.

Radiologic Assessment of Aggressive Skin Cancers, Breakfast Sessions at Annual Meeting of ACMMSCO, April 2006

Lotions, Potions, Lasers and Peels – Prevention and Treatment of Photoaged Skin, Speaking of Woman’s Health Meeting, Cleveland Clinic, July 2006

Discussant and Panel Member, Practical Approaches to Patients Problems – Dermatologic Society Surgery. CME course for AAD, Chicago, August 2006.

Surgical CPC. Seminars in Dermatology, CCF CME course, Cleveland, Ohio, November 2006.

Montana Academy of Dermatology Annual State Meeting, January 2007. Diagnosis and Management of Vascular Anomalies in Children; Skin Cancer in Organ Transplant Patients; eErie Great Lakes Cases I – CPC.

Diagnosis and Management of Vascular Anomalies in Children. Seminars in Dermatology. CCF CME Course, November 2007, Cleveland.

Botulinum Toxin-Basic Science and Dermatologic Applications; Prevention and Management of Cutaneous Surgical Complications; Radiology for the Dermatologist – Imaging Aggressive Skin Cancers; eErie Great Lake Cases II-CPC. Montana Association of Dermatology State Meeting, Big Sky Montana, January 2008.

American College of Mohs Surgery Annual Meeting. Diagnosis and Management of Rare Cutaneous Tumors. May, 2008, Vancouver.

Pediatric Grand Rounds, Cleveland Clinic, Diagnosis and Management of Vascular Tumors and Malformations May 12, 2009.

American Academy of Dermatology Annual Meeting. MOC-D session, General
Dermatology; Dermatologic Surgery Review. Boston, August 2009.

Indiana University Basic Science Course. Botulinum Toxin: Basic Science and Clinical Applications, November 2009.

Dermatologic Surgery Board Review, 3 hours, March 2011.

American College of Mohs Surgery Annual Meeting. “Radiotherapy of Benign and Malignant Tumors,” “Tumor Board.” May 2011

Skin Cancer Diagnosis and Prevention. Rocky River Health Series Lecture. May 12, 2011.

Cutaneous Oncology Conference, Cleveland Clinic Taussig Cancer Center, Dermatofibrosarcoma Protuberans Management. June 23, 2011.

Cadaver Anatomy Lab. CCLCM. October 13, 2011

Indiana University Basic Science Course. Botulinum Toxin: Basic Science and Clinical Applications. November 14, 2011, Indianapolis, IN.

Pittsburgh Dermatological Society, Diagnosis and Management of Vascular Tumors and Malformations. November 17, 2011.

Indiana University Basic Science Course. Botulinum Toxin: Basic Science and Clinical Applications, November 2011.

American Academy of Dermatology Annual Meeting March 2013
Flaps 101, Basic Surgery symposium
Appropriate Use Criteria for Mohs Surgery. “How to keep your Mohs surgeon happy”

American College of Mohs Surgery Annual Meeting May 2013
Tumor Board
Unusual Cutaneous Malignancies

American College of Mohs Surgery Regional Meeting November 2013
Tumor Board
Multidisciplinary Management of Aggressive Skin Cancers

University of Louisville Winter Meeting January 2014
Prevention and Management of Surgical Complications
eErie Great Lake Cases

Cleveland Clinic Distant Learning Lecture, Tattoos and Body Piercing, February 11, 2014

American Academy of Dermatology Annual Meeting March 2014
Flaps 101, Basic Surgery symposium
Appropriate Use Criteria for Mohs Surgery. Optimizing Mohs Surgery Referrals

Cleveland Clinic Internal Medicine Grand Rounds, Skin Cancer Diagnosis and Management, March 2014

Cleveland Clinic Nurses May Day CME Program, Skin Cancer Diagnosis and Management, May 2014

Cleveland Clinic Neurofibromatosis Symposium, Diagnosis and Treatment of Cutaneous Manifestations of Neurofibromatosis, May 2014

Screening for Cancer in Women 2014. CWRU. "Skin Cancer." May 2014

American College of Mohs Surgery Annual Meeting May 2014

Moderator, Working with your Radiation Oncologist
Annual Meeting of American College Mohs Surgery
Chicago, IL May 2018

Visiting Professorships
Visiting Professor, Wright State University (Dayton, OH) – April, 1994. Basic and Advanced Surgery Lectures and Workshop (cutaneous anatomy, wound healing, surgical instrumentation, basic surgery-principles and techniques, cutaneous flaps and grafts, laser surgery, and Mohs micrographic surgery); demonstration of excisional surgery and flap design and execution on pig belly skin).

Visiting Professor, Wright State University, (Dayton, OH) – March 1995. Basic and Advanced Cutaneous Surgery, Pigs Skin Workshop (Cutaneous anatomy, anesthesia, wound healing, surgical instrumentation, basic surgical principles and techniques, cutaneous flaps, split and full-thickness skin grafts, laser surgery, and surgical case presentations).

Visiting Professor, Penn State, Hershey Medical Center. 1) Treatment Options for Photoaged Skin; 2) Diagnosis and Treatment of Aggressive Cutaneous Tumors; April 1999.

Visiting Professor, Ohio State University; Columbus, Oh; Topical and Surgical Treatments for Photoaged Skin; October 1999.

Visiting Professor, Singapore National Skin Center, October 2000. a) Treatment options for Photoaged Skin: Lotions, Potions, Lasers and Peels. b) Anesthesia in Dermatologic Surgery. c) Superficial Cutaneous Anatomy. d) What’s New in Cutaneous Surgery. e) Treatment of Varicose Veins and Teleangiectasia. f) Unusual Cutaneous Tumors – Diagnosis and Management. g) Surgical Conundrums

Visiting Professor, Wright State University, Department of Dermatology, Overview of Lasers in Dermatology; February 2001.

Visiting Professor, Indiana University, Lasers in Dermatology-Aims of Beams; August 2001.

Visiting Professor, Ohio State University, April 2008. Cutaneous Lasers: Physics and Clinical Applications in Dermatology Clinicopathologic Case Presentation.

Visiting Professor, University of Louisville. Evaluation and Management of Vascular Tumors and Malformations, eErie Great Lake Cases. February 2010.

Visiting Professor, Hershey Medical Center, Mark Hassel, MD Memorial Lecture. Evaluation and Management of Vascular Tumors and Malformations. CPC, eErie Great Lakes Cases. April 2010

Visiting Professor, Wright State Department of Dermatology. February 2014.
Evaluation and Management of Cutaneous Vascular Lesions
Erie Great Lake Cases
Cutaneous Laser Applications and Laser Safety
Surgical Complications: Prevention and Management
Mohs Surgery Appropriate Use Criteria

Visiting Professor, University of Cincinatti, May 2015
Patient Safety: Laser Surgery
Erie Great Lake Cases
Prevention and Management of Complications of Cutaneous Surgery

Lisa Grandinetti Memorial Lecture, March 2016
University of Pittsburgh
Skin and Bones: Radiologic Imaging of Aggressive Skin Tumors

Louis A. Brunsting Visiting Professor, Mayo Clinic, May 2016
Radiologic Imaging of Aggressive Skin Cancers
Erie Great Lake Cases
Rochester MN

Skin and Bones: Imaging Aggressive Cutaneous Tumors
Dartmouth Visiting Professor
March 2017

James E. & Victoria E. Turner Lectureship Univ of Louisville
Cutaneous Laser Safety
Radiologic Imaging in Dermatology
CPC cases
November 2017

NYU Visiting Professor
Aggressive Skin Cancers: Clinical, Pathological and Imaging Correlation
March 2018

Univ of Iowa Visiting Professor
Cutaneous Laser Safety
Erie Great Lake Cases
Imaging of Aggressive Skin Cancers
April 2018

Trainees/Mentees

Mohs Surgery Fellows:

Deborah Moritz, MD – 1990-1992
Private Practice, Mansfield Ohio

Private Practice, Grand Junction, CO
Academic Practice, UCLA

Marlene Willen, MD – 1993-1995
Academic Practice, Cleveland MetroHealth; Chairman

David Watts, MD – 1994-1996
Private Practice, Minneapolis MN

Robert Marsico, MD - 1995-1997
Private Practice, Akron OH

Briana Heniford, MD – 1996-1998
Private Practice, Charlotte, NC

Wilber Huang, MD – 1997-1999
Private Practice, Irvine CA

Jon Meine, MD – 1998-2000
Academic practice, Cleveland Clinic

Michael Warner, MD – 1999-2001
Private Practice, Frederick MD

Christine Poblete-Lopez, MD – 2000-2002
Academic practice, Cleveland Clinic

Rebecca Tung, MD – 2001-2003
Private Practice, Naperville IL

Howard Fein, MD – 2002-2004
Private Practice, Rolling Hills Estates, CA

Sharon Thornton-Longshore – 2003-2005
Private Practice, Dublin OH

Trephina Galloway, MD – 2004-2006
Private Practice, Atlanta GA

Justin Woodhouse, MD – 2005-2007
Private Practice, Mentor OH

Christopher Gasbarre, DO – 2007- 2008
Private Practice, Spearfish South Dakota

Allison Moosally, MD – 2007-2008
Private Practice, Akron OH

Parrish Sadeghi, MD – 2008-2009
Private Practice, Flint MI
Ally-Khan Somani, MD – 2008-2009
Academic Practice, Indiana University

W. Elliot Love, MD – 2009-2010
Academic practice, Cleveland MetroHealth

Jennifer Lucas, MD – 2009-2010
Academic practice, Cleveland Clinic

Kyle Horner, MD – 2010-2011
Private Practice, Oregon

Alexandra Zhang, MD – 2010-2011
Private Practice Akron OH

Sara Jurado, MD 2011-2012
Private Practice, Meadville PA

Larry Trost MD 2011-2012
Private Practice, Florida

Matthew Molenda, MD 2012-2013
Private Practice, Toledo OH

Paul Benedetto, MD 2012-2013
Private Practice, Philadelphia

Jennifer Bahner, MD 2013-2014
Academic Practice, University Hospitals, Cleveland Ohio

Joseph Doumit, MD 2013-2014
Academic Practice, Montreal

Charlene Lam, MD 2014-2015
Academic Practice, Penn State Hershey

Razieh Soltani, MD 2014-2015
Academic Practice, Cleveland Clinic

Alok Vij, MD
Academic practice, Cleveland Clinic

Christopher Messana, DO
Private Practice, Colorado

Melanie Clark MD
Academic practice, Univ of Milwaukee

Jessica Kado, MD
Private Practice, Detroit, Michigan
**Teaching Material Produced**

**Teaching Administration**

Cleveland Clinic Dermatology Residency Program Director; 2001-2006

Associate Director of Mohs Fellowship Program; 2007-2012

Director, Micrographic Surgery and Dermatologic Oncology Fellowship 2013-present

**Teaching Activities**

Daily bedside teaching to Mohs fellow, dermatology residents and medical students

CCLCM 4 hours teaching sessions, skin exams, 2008, 2009

---

**RESEARCH SUPPORT**

Co-investigator. REGE1616 Pase 2 study of REGN2810, a fully human monoclonal antibody to programmed death -1 (PD-1) in patients with advanced cutaneous squamous cell carcinoma. 2017

Principal Investigator: A prospective observational study of treatment patterns and effectiveness and safety outcomes in advanced basal cell carcinoma and basal cell nevus syndrome patients. Genentech ML28296 (SONIC), 2013-17. IRB 12-1188

Principal Investigator: Laser treatment of argyria. 2003-17, IRB

Co-investigator: Imaging Gene expression in brain, breast, skin and prostate tissues. IRB 14-3782

Co-investigator. Clinical Studies of Cytokine-Induced and/or Drug-Modified Gene Expression in Tumor Cells and Peripheral Blood Cells from Patients with Acute and Chronic Leukemia, Myeloma, Lymphoma, Metastatic Renal Cell Carcinoma, Melanoma, Breast Carcinoma and Other Maligna. IRB 3164, 2011

Co-investigator: Microcystic Adnexal Carcinoma- case review. IRB #7465, 2004-16.

Co-investigator: NIH Grant #1RO3DC0322501. Epilyt depilation of the rotary door flap for tracheal stenosis reconstruction. Principle investigator--Isaac Elichar MD, Department of Otolaryngology, Cleveland Clinic Foundation, 1998-99.
Co-investigator: Improving the cosmetic appearance of photoaged skin using glycolic acid, 1993-95, RPC# 4416.

Co-investigator: Fixed tissue excision of maxillary and mandibular bone in canines, 1990-91, RPC# 3404.

Co-investigator: double-blind safety and efficacy study of Lonapalene in psoriasis, Syntex Laboratories, 1986-87, RPC# 1889.

Pamela B. Davis, MD, PhD
Dean, CWRU School of Medicine and
Vice President for Medical Affairs
Case Western Reserve University
10900 Euclid Avenue
Cleveland, OH 44106

Dear Dean Davis:

It is my privilege to propose the creation of the Academic Department of Otolaryngology – Head and Neck Surgery at the Cleveland Clinic Lerner College of Medicine of Case Western Reserve University. The Academic Chair of this new department would be the same person as the Clinical Chair of the Head and Neck Institute at Cleveland Clinic, who is Dr. Michael Benninger.

Dr. Benninger received his medical degree from Case Western Reserve University and went on to an internship in General Surgery and Residency in Otolaryngology, both at Cleveland Clinic. The next nine years he spent at Henry Ford Hospital as a Senior Staff Otolaryngologist, five as the Chair, before coming to Cleveland Clinic where he has been Chair of the Head and Neck Institute since 2008. He was appointed Professor of Surgery at CCLCM of CWRU in 2009 and he is nominated to become the Academic Chair of the newly proposed Academic Depart of Otolaryngology at CCLCM.

He has received many honors including the Distinguished Service Award of the American Academy of Otolaryngology-Head and Neck Surgery twice and the Distinguished Alumni Award from Case Western Reserve University School of Medicine. He is routinely cited by Top Doctors, Best Doctors in America, and Who’s Who. He is a member of many editorial boards and medical societies and has actively participated on many of their committees and served as high ranking officers of many as well. He has mentored three medical students as their Research Director and teaches students, residents, fellows, as well as practicing physicians in continuing medical education activities. Dr. Benninger has been principal or co-investigator on many funded studies and has authored nearly 200 papers in peer-reviewed journals, 12 books (as author or editor) and over 80 book chapters. He is a sought-after speaker, having given invited lectures around the nation and world.

1. The breadth and depth of the identified faculty’s teaching and research productivity.

The Department of Otolaryngology – Head and Neck Surgery has an outstanding reputation for clinical and academic excellence, being #16 on the list of national ranked Ear, Nose & Throat programs in the Nation by U.S. News & World Report. Members of the Department are engaged in a wide variety of clinical and research activities including head and neck cancer, laryngology & tracheal reconstruction, nasal & sinus disorders, otology, vestibular & balance disorders, pediatric ENT and laryngeal cancer. Recent innovations include: Human parathyroid allograft transplantation, Development of squamous
cell carcinoma cell lines as a first step in developing an active immunotherapy protocol, NIH funded, multi-institutional study comparing thyroplasty and reinnervation for management of a unilateral vocal fold immobility, management of otolaryngologic manifestations of patients with Wegener’s granulomatosis, the effect of adjuvant Iressa therapy on patients with advanced head and neck cancer, and, in conjunction with the Section of Endocrinology and Metabolism, an effort to identify a blood marker for thyroid cancer using molecular detection of TSHr by peripheral blood RT-PCR analysis. Notable faculty include Drs. Tom Abelson, Brian Burkey, Michael Fritz, Thomas Haberkamp, Michael Horan, Paul Krakovitz, Robert Lorenz, Francis Papay, Joseph Scharpf, and Erika Woodson. A list of CCLCM Head and Neck Institute Faculty is in Appendix A. A list of potential new CCLCM Head and Neck Institute faculty comprises Appendix B.

In the last year, the Head and Neck Institute (HNI) has 117 publications in print or in-press with a large majority of them from otolaryngology; 43 of them have had resident participation as primary or secondary authors. We have contributed 35 book chapters and 3 new books. The HNI has had 21 new IRB approvals in the last year and a number of renewals, with most of them in otolaryngology. There have been 84 otolaryngology presentations at national or international meetings and 15 of those have been by residents or medical students. Currently we have notable contributions to national and international organizations. We have Presidents of three Societies, a secretary of one, and a treasurer of one. We have 12 members of Boards or governing boards and two Editor-in-Chiefs. We have numerous journals where our faculty sit on editorial boards or are reviewers.

The physicians in Otolaryngology of the Head and Neck institute participate in education of trainees at many levels of training. We have an active otolaryngology training program of 18 residents and three fellows. We have a weekly didactic schedule, anatomy and dissection laboratories and specialized courses, such as an all-day airway and emergency management course that we put on annually. We also have national CME courses that we sponsor and other otolaryngologists, residents, and allied professionals attend. In addition to our own training programs, we have numerous medical students from other institutions: 25–CWRU, 11–CCLCM, 8–NEOMED, 2–Michigan, 2–Toledo, 1–University of Wisconsin, and 1–Wayne State. There are also medical students from a number of medical schools within the United States and abroad who rotate with us. We are part of the rotation of training for the internal medicine residencies here and at South Pointe Hospital, as well as allergy fellows and plastic surgery residents. Otolaryngology Staff participate in the didactic programs for audiology students and fellows, speech-language pathology, dentistry, and oral surgery. Members of the department are active participants in lectures at numerous community organizations, including the Vasculitis Support Group, Spasmodic Dysphonia and Dystonia Societies, and the Cleveland Clinic Minority Men’s Health Fair. We participate and educate at community events on the effects of smoking and alcohol on the voice.

2. Any additional factors that are relevant to the proposed new department.

The proposal to create an Academic Department of Otolaryngology - Head and Neck Surgery comes at the request of Dean Pamela Davis. Faculty members of the clinical department are actively involved in the teaching of medical students, residents and fellows, and it is fitting that they be recognized for the academic pursuits in this specialty. Most are currently in the Academic Department of Surgery and would then transfer into the newly created Academic Department of Otolaryngology - Head and Neck Surgery. At its inception, CCLCM purposefully started off with few departments, however as the College
has matured, we believe that it is important to align our academic departments with those of the other institutions that are CWRU-SOM teaching institution and that, in this case, Otolaryngology - Head and Neck Surgery is sufficiently robust that it should stand apart from the Academic Department of Surgery.

3. **An analysis of the effect of establishment of the second department on existing departments of the School of Medicine.**

Creation of this department would parallel the existence of such academic departments at other CWRU School of Medicine teaching hospitals, but would have no adverse impact on them and may facilitate academic interaction amongst them. The new department will clearly define the academic disciplines that already exist within our clinical department.

4. **A statement that research publications authored by faculty with appointment in the new department will make note of the Case Western Reserve University faculty appointment.**

Research publications authored by faculty with appointment in this new department will make note of their Case Western Reserve University faculty appointment.

5. **A five-year business plan demonstring how the second department will achieve and maintain financial viability or, in the alternative and if appropriate, the proposal should affirm that the new department will not require funding from the School of Medicine.**

The creation of this department will have no financial impact on CWRU or the School of Medicine and will not require any funding from either. It is anticipated that this validation of the faculty’s academic accomplishments will further stimulate these pursuits in the future. Further, alignment of these faculty appointment with the other CWRU-SOM departments should facilitate engagement with students and like faculty at the new Health Education Campus.

Thank you for your consideration,

Gene H. Barnett, MD, MBA
Associate Dean for Faculty Affairs
Cleveland Clinic Lerner College of Medicine
of Case Western Reserve University

RE: Michael Benninger, MD
Application for Appointment as Academic Chair, Department Otolaryngology – Head
and Neck Surgery within Cleveland Clinic Lerner College of Medicine of Case Western
 Reserve University

Dear Dean Davis:
On behalf of Gene H. Barnett, MD, Cleveland Clinic Lerner College of Medicine Associate Dean
of Faculty Affairs, our Faculty Appointment and Promotions Committee, and the Cleveland
Clinic Lerner College of Medicine Executive Team, I would like to propose Michael Benninger,
MD as the new Chair for the Academic Department of Otolaryngology – Head and Neck Surgery,
within the Cleveland Clinic Lerner College of Medicine. Dr. Benninger was chosen as he is the
current Chair of the Head and Neck Institute and is well suited to this leadership position.
Michael Benninger, MD, Dr. Benninger received his medical degree from Case Western Reserve
University and went on to an internship in General Surgery and Residency in Otolaryngology,
both at Cleveland Clinic. The next nine years he spent at Henry Ford Hospital as a Senior Staff
Otolaryngologist, five as the Chair, before coming to Cleveland Clinic where he has been Chair
of the Head and Neck Institute since 2008. He was appointed Professor of Surgery at CCLCM of
CWRU in 2009 and he is nominated to become the Academic Chair of the newly proposed
Academic Depart of Otolaryngology at CCLCM.
The Head and Neck Institute at Cleveland Clinic is #16 on the list of national ranked Ear, Nose &
Throat programs in the Nation by U.S. News & World Report. Dr. Benninger and his staff are
highly productive in research and grants. Dr. Benninger has been principal or co-investigator on
many funded studies and has authored nearly 200 papers in peer-reviewed journals, 12 books
(as author or editor) and over 80 book chapters. He is a sought-after speaker, having given
invited lectures around the nation and world. He has also mentored three medical students as
their Research Director. Dr. Benninger is active as a teacher for students, residents, fellows, as well as practicing physicians in continuing medical education activities. Dr. Benninger’s experience within and outside Cleveland Clinic has established his reputation as a top-notch physician and educator. He has received many honors including the Distinguished Service Award of the American Academy of Otolaryngology-Head and Neck Surgery twice and the Distinguished Alumni Award from Case Western Reserve University School of Medicine. He is routinely cited by Top Doctors, Best Doctors in America, and Who’s Who. He is a member of many editorial boards and medical societies and has actively participated on many of their committees and served as high ranking officers of many as well.
In summary we are very enthused to have Michael Benninger, MD be the chair of our new CCLCM Otolaryngology – Head and Neck Surgery academic department. His enthusiasm and dedication will serve the students and faculty well at the Cleveland Clinic Lerner College of Medicine of Case Western Reserve University. Please let me know if you have any questions.
Sincerely,

J. Harry Isaacson, MD
Interim Executive Dean, Cleveland Clinic Lerner College of Medicine
Associate Professor of Medicine

Henry Ford Hospital Medical Executive Committee, 1993-1995
Task Force for Unfunded Research, 1994
Search Committee, Medical Director Northeast Region, 1994-1995
Salary Management Committee, 1995-2007
   Vice-Chair, 1995
   Chair, 1995-2001
Human Resource Committee, 1995-1996
Search Committee, Medical Director, Western Wayne Region, 1995-1996
Specialty Services Operating Responsibility Task Force, 1996
Specialty Care Forum, 1996
Committee to Review Status of Biostatistics and Research Epidemiology (Co-Chair) 1997
Dying Processes Task Force of Board of Governors (Chair) 1997
Center for Chronic Care (Chair), 1998-1999
School of Health Sciences Task Force, 1999
Surgery/Procedures Campus Development Team, 2000-2001
Search Committee for Chair, Department of Ophthalmology, 2001-2002
Neurosciences Council, 2000-Present
Salary Appeals Committee, 2000, 2001
Medical Group Coordinating Committee, 2001-2007
Mentor, Women and Minority Physician and Bioscientific Staff Mentorship Program, 2001-2002
Department of Surgery Review Committee, 2002
Search Committee for Chair, Department of Orthopedics (Chair), 2003-2004
Clinical Trials Office Task Force, 2005
Conflict of Interest Task Force, 2005-2006

HENRY FORD HEALTH SYSTEM

System Position Team, 1994-1997
Senior Physician Team, 1995
Henry Ford Health System Hospice - Trustee, 1995-1998
Community Care Service Board - Trustee, 1999
Leadership Council, 1997-2003
Trustee, Board of Trustees, Henry Ford Health System,
   2002-2005
   2007-2008
   Finance Committee, 2002 - 2003
   Joint Conference Committee, 2002 –2004
   Executive Committee, 2004, 2007
   Quality Committee, 2007
Trustee, The Fund for Henry Ford Hospital, 2004
Trustee, Henry Ford Hospital and Health Network, 2007-2008
Leadership Executive and Planning Group, 2003-2004
Board of Trustees, Alumni Council, 2005
Surgical Planning Expansion/capacity Team, 2006

CASE WESTERN RESERVE UNIVERSITY SCHOOL OF MEDICINE

Admissions Committee, 2000-2002
25th Reunion Committee, 2008

PAST AND PRESENT TEACHING ACTIVITIES:

THE CLEVELAND CLINIC

Associate Program Director, Otolaryngology, Head and Neck Institute, 2008
Education Committee, Head and Neck Institute, 2008-2012

Thesis Advisor, Debra Phyland (PhD) Melbourne University, 2011-2014

Medical Student research Director:
Rebecca Chota, 2012-2013
Adeeb Derakhshan, 2013-2014
Marian Wahba, 2014-2015

Individual lectures
2. “Pediatric Neck Masses”. Cleveland City-Wide Grand Rounds, Cleveland, Ohio, March 1, 1986.
5. “ENT Problems and the Primary Care Physician”. Primary Care Grand Rounds, Cleveland Clinic Foundation, November 11, 1986.
6. “Otolologic Diagnosis and Treatment”. Nursing Basic Science Rounds, Cleveland Clinic Foundation, Cleveland, Ohio, February 17, 1987.
7. “Frontal Sinus Disease”. Course on Diseases of the Nose, Paranasal Sinus, Orbit and Anterior Skull Base, Case Western Reserve University-Cleveland Clinic, Cleveland, Ohio, May 16, 1987.
10. “Common Otolaryngologic Infections”, Primary Care Grand Rounds, Cleveland Clinic Foundation, Cleveland, Ohio, November 9, 1987.
22. “Sinus Disease: Is it a Bacterial or Viral Infection, or Neither?” Medical Grand Rounds, Lakewood Hospital, April 8, 2009.
37. “Laryngeal Dissection Course, anatomy lab”, July 18, 2012
38. “Laryngeal Physiology”, CCF-HNI, October 1, 2012
40. “Acute Bacterial Rhinosinusitis” CCF- Infectious Disease Grand Rounds, November 14, 2012
41. “Laryngology In-service Prep”, CCF-HNI, February 6, 2013
42. “Allergic rhinitis”. ENT for Primary Care, Beachwood CCF, March 2, 2013
43. “Otitis media, mastoiditis and sinusitis”, CCF – Infectious Disease Grand Rounds, Jan 22, 2014
45. “Acute and Chronic Rhinosinusitis”, CCF-ENT, March 17, 2014
47. “Sinusitis Care Pathway”, Twinsburg Family Health Center, July 31, 2014

HENRY FORD HOSPITAL, HEALTH SYSTEM

Education Committee, Department of Otolaryngology-Head and Neck Surgery, 1991-197.

Individual Lectures
1. “Physiology of Phonation”. Henry Ford Hospital, Detroit, Michigan, October 14, 1988.
52. “Primary Care Referral Guidelines to s Hospital Primary Care Grand Rounds, Otolaryngology”. St Joseph Jan 7, 1997.
64. “Anatomy and Physiology of the larynx”, Otolaryngology, HFH, August 19, 1998.
83. “What’s new in Sinusitis?”, Otolaryngology, HFH, April 1, 2002.
120. “Sinus Disease or Headache?” St Claire Shores, HFMG, February 23, 2006
122. “Rhinosinusitis: Diagnosis and Treatment”, Internal Medicine Grand Rounds, HFH, February 27, 2006.
130. Twice monthly individual ½ hour lecture with rotating medical students when on service.

PAST AND PRESENT RESEARCH SUPPORT:

1. Flexible Direct Nasopharyngolaryngoscopy in Association with Vocal Pedagogy, Research Fund, Cleveland Clinic Foundation, Principal Investigator, 1987, $700.00.
2. A Canine Model for Global Control of the Reimplanted Larynx, Research Fund, Cleveland Clinic Foundation, Co-Investigator, 1987-1988, $37,000.00.
4. Mucociliary Function Following Sinus Surgery, Small Projects Fund, Henry Ford Hospital, Principal Investigator, 1989-1990, $4,002.00. (5% time)
5. Alterations in Nasal Patency and Aerobic Capacity, Research Fund for Henry Ford Hospital, Principal Investigator, 1989-1990, $4,906.00 (5% time)
7. Voice Changes with the Menstrual Cycle, Research Fund for Henry Ford Hospital, Co-Investigator, 1990-1991, $5,000.00.
8. Cost Effective Antibiotic Therapy for Acute Suppurative Otitis Media. New Clinical Investigator Grant-Henry Ford Hospital, Principal Investigator 1990-1992, $30,000.00. (Grant from Lederle Laboratories $10,000) Total Grant $40,000.00 (10% time)
12. Detection of Interferon Gene Less in Head and Neck Squamous Cell Carcinoma. Research Fund for Henry Ford Hospital
13. Comparison of Microspot Laser vs Microdissection for Benign Laryngeal Masses. **Principal Investigator**, U.S. Medical/Sharplan Laser Technologies, 1995-1998 $18,000.00, Sharplan Lasers Inc, $10,000.00. Total: $28,000.00. (5% time)

14. Head and Neck Genetics Laboratory. Chairman's Support Funding, Henry Ford Medical Group, **Principal Investigator** 1994, $50,000.00.

17. 18q Loss of Heterozygosity and Microsatellite instability are Predictors of Poor Survival in Patients with Stage III Head and Neck Cancer. Co-Investigator, Research Fund for Henry Ford Hospital, 1995, $5,000.00.

18. Genetic Biomarkers of Human Squamous Cell Carcinoma. Co-Investigator, National Institutes of Health (NCI) Proj # CA70093, 1995-2000, $980,526.00. (5% time)

19. Practice Guidelines. **Principal Investigator**, Blue Cross and Blue Shield of Michigan Foundation, 1996-1997, $10,000.00. (5% time)

23. A Comparison Between Maxillary Sinus and Middle Meatal Cultures. **Principal Investigator**, Sinus and Allergy Health Partnership. 1/1/03-6/1/04, $377,934.00 (5% time)

24. Environmental Tobacco Smoke; The impact on Nasal and Sinus Disease **Co-Principal Investigator**. A Survey of Smoking Policies at Airports in the United States. Co-Investigator Flight Attendant Medical Research Foundation. 7/1/02-6/30/04, $600,000.00 total award.

26. Molecular Modeling of Diagnosis and Prognosis in HNSCC. RO1DE15990, Co-Investigator. NIH/NIDCR, 8/1/04-8/31/09, $1,800,000. (5% time).

27. Prospective, Multicenter, Open, Uncontrolled Trial to Evaluate the time to Bacterial Eradication and Key Symptom Relief in the Treatment of Acute Bacterial Maxillary Sinusitis with Moxifloxacin 400 mg QD. **Site Principal Investigator**, Abbott Laboratories, Site PI. 9/15/04, $27,444.

29. A Randomized, Placebo-controlled Assessment of Lansoprazole 30 mg bid in the Treatment of Gastroesophageal Reflux Associated Laryngitis. **Site principal Investigator.** AIVER/TAP Pharmaceuticals, Inc. 10/01/05-9/30/06, $42,480.00.

30. A Canine Model for Coblation of the Vocal Folds. **Principal Investigator.** Arthrocare, Inc. 3/1/06-12/31/06, $27,560.00.

31. A randomized, double-blinded, placebo-controlled, 4-week cross over trial to study the effect of fluticasone furoate nasal spray 110mcg QD on nasal resistance, nasal congestion, and snoring in non-obstructive sleep apnea adult patients >18 years of age with perennial allergic rhinitis in addition to daytime sleepiness and quality of life in patients and their bedpartners. **Principal Investigator.** Glaxo Smith Klein. 6/1/07-6/30/09, $130,000.00.

32. An evidence-based review of prevalence of the serious side effects and toxicities of commonly used respiratory antibiotics. **Principal Investigator.** Strategic Pharmaceutical Advisors. 1/1/06 – 12/31/07, $244,000.

33. A Phase 2, Double-Blind, Placebo-Controlled, Multi-Center, Randomized Study Evaluating the Safety and Efficacy of SPRC-AB01, Tobramycin Solution for Nasal Inhalation in Post-Surgical Subjects with Chronic Rhinosinusitis. Naryx Pharmaceuticals. **Site Principle Investigator.** 01/01/2007-12/31/09. $125,250.00.

34. A Double-Masked, Multiple Dose, Three Arm, Parallel Design Safety and Pharmacokinetic Study of Olopatadine Following Administration of Olopatadine HCl Nasal Spray in Pediatric Patients 2 to 5 Years of Age. Alcon Laboratories. **Site Co-PI.** 1/1/07-3/31/07, $78,000.00.

35. An evidence-based review of the effect of antimicrobials in altering normal pharyngeal bacterial flora. **Strategic Pharmaceutical Advisors.** **Principal Investigator.** 3/1/07-12/31/07, $108,000.00.

37. Effect of Coblation of the Lamina Papyracea in Sheep. ArthroCare Corporation, Co-investigator. 2/1/08-8/1/08. $21,279.00.

38. Ciliary function after Coblation sinus surgery in rabbits, ArthroCare Corporation, **Principle Investigator.** 10/01/09-10/02/10, $39,185.00.

41. Establishing a Phenotype for poorly Controlled Allergic Asthma Patients, Thermo Fisher Scientific, **Principle Investigator.** 6/1/17-12/31/17, $46,000. (in preparation)

42. Evaluation of Concordance in Nasal, Buccal and Blood Allergy Testing by ImmunoCAP and ISAC, Thermo Fisher Scientific, **Principal Investigator,** 6/1/17-12/31/17, $135,000. (in preparation)

**CURRENT UNFUNDED RESEARCH:**

Outcomes assessment of the management of voice disorders
Changes in blood flow during laryngoscopy
3D printing model for medicalization laryngoplasty implant
In-vitro allergy testing for risk adjustment for asthma and chronic rhinosinusitis
Subglottic stenosis, national registry

PANELS:

17. “Vocal Fold Paralysis”

64. “Quality of Life in Voice Disorders”. (Panel Moderator) 7th Pan European Voice Conference (PEVOC), Graz Austria, August 26-28, 2003.

111. Injection Laryngoplasty or Laryngoplasty by External Approach”, 5th International Course on Laryngostroboscopy and Fiberendoscopic Phonosurgery, Cesena, Italy, April 3-4, 2012.

113. “Avoiding and Managing Complications is Sinus Surgery”, 9th Annual Middle East Update in Otolaryngology Head and Neck Surgery, Dubai, April 22-24, 2012

115. “Subglottic and High tracheal Stenosis” (Panel Moderator), 17th World Congress of Bronchology and Interventional Pulmonology. Cleveland Ohio, June 15-18, 2012

118. “Financing the Department”. Society of University Otolaryngologists, Chicago, IL, November 2-4, 2012.

120. “Vocal Fold Paralysis”. 17th Annual MacGill University Update in otolaryngology, Mont Treblant, Quebec, CA, March 14-17, 2013.

148. Surgical Management of Chronic Rhinosinusitis. (Panel Moderator). 26th Congress of the European Rhinologic Society, 35th Congress of International Society of Infection and Allergy in the Nose and 17th Congress of the

156. Interesting and Challenging Cases. 2nd Laryngology Society of Australasia Conference. Byron Bay, Australia, Nov 4-6, 2016.

159. Live Surgical Cases (Moderator). World Phonocon: Joint Meeting of the International Association of Phonosurgery and the Association of Phonosurgery of India. Delhi, India, February 17-19, 2017.

PROGRAM-COURSE DIRECTOR:

2. Performing Arts Medicine, Detroit Institute of Arts, November 15, 1991.
3. Annual Scientific Meeting of the Michigan Otolaryngologic Society.
   Bellaire, MI, July 16-18, 1992
   Bellaire, MI, July 8-10, 1993
19. Co-Director, 14th Annual International Conference on Voice Surgery and Voice Care, Paris, France, April 2-4, 2009

21. Co-Director, 16th Annual International Conference on Voice Surgery and Voice Care, Paris, France, April 7-10, 2011

23. Activity Director, 10th Annual Middle East Update in Otolaryngology Head and Neck Surgery, Dubai, April 21-24, 2013.

23. Program Chairman, 11th Meeting of the International Association of Phonosurgery, Prague, Czech Republic, August 21-24, 2013.

27. CE Activity Director, 10th Annual Middle East Update in Otolaryngology Head and Neck Surgery, Dubai, April 20-23, 2014.

30. CE Activity Director, 11th Annual Middle East Update in Otolaryngology Head and Neck Surgery, Dubai, April 8-12, 2015.

32. Program Chairman, Ohio Otolaryngology-Head and Neck Surgery Societies Combined Second Annual Update, Huron, Ohio, July 17-18, 2105.

34. Program Chairman, Ohio Otolaryngology-Head and Neck Surgery Societies Combined Third Annual Update, Columbus, Ohio, July 7-10.

35. Symposium Co-Chair, First Annual Otolaryngology Symposium, Abu Dhabi, UAE, October 21-22, 2016.

36. Program Director, World Phonocon, Joint Meeting of the International Association of Phonosurgery and Indian Association of Phonosurgeons, Delhi, India, February 17-19, 2017.

COMMUNITY SERVICE

Andrew Puopolo Memorial Scholarship Fund Committee, Harvard University 1988 – 1996
Ronald McDonald House Benefit Halloween Ball - Chairman, Cleveland, Ohio, October 31, 1987
Harvard University 20th Reunion Committee, 1996-1997
University of Detroit Jesuit High School Annual Auction, 2001
Dad’s Club, Marian High School, 2005-2006.
Monte Carlo Night Organizing Committee, Marian High School, 2005-2006
President’s Campaign Planning Cabinet, University of Detroit Jesuit High School, 2005-2007.
CWRU School of Medicine 25th Reunion Committee, 2008, 2018

Coaching:
Football: Harvard University, 1977
           St Hugo School: 1997-2001
           University of Detroit Jesuit High School: 2004
Softball: St Hugo School: 2002-2005

PERSONAL INTERESTS:

Sports: Varsity football letterman at Harvard, 3 years; Offensive line football coach, 1 year; College lacrosse;
        Triathlons (1987-2006), Road races; Coach Little League baseball, school football and basketball
        Currently a competitive Curler. Tough Mudder, Warrior Dash

Collector: Comic books and baseball cards

Member: Harvard and Ivy League Clubs Cleveland
        Case Western Reserve University Club
        Harvard Varsity Club
        Rock and Roll Hall of Fame
        Cleveland Botanical Gardens
        Cleveland Zoo

Revised 5/17
Corporate Sponsor Funded Research Projects

- Efficacy of Tinnitus Treatment Device (Oticon), $226,399
- Use of Arista in ALT Free Flap Donor Sites (Bard Davol, Inc)
- Safety and Efficacy of the Cochlear Nucleus CI422 Cochlear Implant in Adults (Cochlear Americas), $20,533
- Effectiveness of SteroZoom and ZoomControl in improving Speech Understanding in Noise in Bilateral Cochlear Implant Recipients (Advanced Bionics)
- Comparison of the performance of the Dysphagia Detection System (DDS) in detecting impaired swallowing safety (Nestle, Inc)

Grant Funded Research Projects

- Aural Rehabilitation Intervention for Cochlear Implant Users via Tele-rehab Technology (Federal Sub-award Gallaudet University)
