

Are you a student under-represented in the sciences with a passion for biomedical research?

Are preparing for your top graduate or medical school choices?

Do you want additional research experience to improve your credentials?

HLB can help!

Heart, Lung, and Blood Summer Research Program (HLB)

The NIH-sponsored HLB summer program at Case Western Reserve University is designed to engage 12 underrepresented undergraduates and 8 medical students in state-of-the-art biomedical research in cardiovascular, pulmonary, hematological and sleep disorders research.

HLB Provides:

- Research in cutting-edge labs
- Weekly research seminars
- Professional development activities
- Social and networking activities
- Monthly stipend of \$1,750
- Travel and housing support

Approximate Program Dates:

June 5th - August 4th

Apply Now!

No application fees
