

MASTER OF SCIENCE IN NURSING AT CASE WESTERN RESERVE UNIVERSITY

# Women's Health Nurse Practitioner (WHNP)

Serving as health care providers to women throughout the lifespan

## About Women's Health Nurse Practitioner

As specialists, WHNPs deliver comprehensive health care to women, with emphasis on reproductive and gynecologic health needs. They provide sexual and reproductive healthcare for all genders, care before, during, and after pregnancy, gynecologic care of women through the lifespan, and primary care of women. WHNPs see a broad range of patients in practice settings that include OB-GYN offices, family planning clinics, primary care centers, adolescent health centers, and private practice.

## Clinical Partnerships

During your program, you'll gain experience, through 600 clinical hours in:

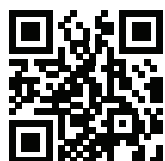

- Outpatient settings all across Northeast Ohio working with nurse practitioners or nurse midwives
- Clinical sites, such as health departments, hospital outpatient clinics, and federally qualified health centers

## Careers

WHNP graduates go on to work in reproductive health, federally qualified health centers, Planned Parenthood clinics, health departments, urogynecology clinics, and a number of other settings.

## About Frances Payne Bolton School of Nursing
