Executive Summary

Any university career center director working in the field from 2008 to 2011 may still be recovering from the challenges presented by the economic downturn of this period. Even on the heels of the robust job market of 2012 to the present, many of my peers can't help but turn their thinking toward recession-proofing their career centers, anticipating the eventual downturn in the economic cycle.

While we certainly experienced a certain volatility during 2008-11, our graduates have consistently fared well in their post-graduation plans over the last nine years, largely because of three factors: 1) the consistently high percentage of graduates going on to an advanced degree (nine-year average: 41%); 2) the steadfast support of a select core of organizations hiring multiple graduates each year, namely in the STEM fields, complemented by the extended breadth of organizations who hire one or two graduates each year; and 3) the increasing number of graduates converting internships, co-ops, and other forms of experiential learning into full-time job offers.

For the class of 2015, the news is good and we have every reason to be proud of these graduates.

Highlights

- ◆ Overall, post-graduation plan data was collected for 77% of 2015 graduates (n=672/875).
- ◆ Of those who responded to the questions about experiential learning, 98% reported participating in at least one activity.
- ◆ Seventy-six percent of graduates who went on to full-time employment indicated that their position required a college degree and was related to their field of study.
- ◆ Select organizations that hired multiple members of the Class of 2015 include: University Hospitals (18), Cleveland Clinic (16), Epic Systems (9), Case Western Reserve University (7), KeyBank (7), IBM (6), Deloitte Accounting (5), Google (5), Lockheed Martin (5), and MetroHealth Medical Center (4).
- ◆ Thirty-six percent of graduates planned to pursue an advanced degree; of those, 15% planned to attend medical school.
- ◆ Graduates were accepted into a number of impressive graduate and professional schools including: Brandeis University, Carnegie Mellon University (2), Case Western Reserve University (90), Columbia University (2), Cornell University (3), Duke University, Georgia Institute of Technology (3), Johns Hopkins University, Massachusetts Institute of Technology (2), New York University (4), Northwestern University (3), Rutgers, The State University of New Jersey, University of California, Berkeley (5), University of California, Santa Barbara, University of Michigan, University of North Carolina at Chapel Hill, University of Pennsylvania, University of Rochester (4), University of Southern California, Vanderbilt University, and Washington University in St. Louis.
- ◆ Thirty-eight percent of graduates continuing on to graduate/professional school will study at CWRU.
- ◆ The median salary range for the Class of 2015 was \$55,000-\$59,999, no change from last year. Median salary ranges by college/schools were as follows:
 - Arts and Sciences: \$30,000-34,999, a decrease of \$5,000 from last year
 - Engineering: \$60,000-64,999, no change from last year
 - Management: \$55,000 to \$59,999, an increase of \$5,000 from last year
 - Nursing: \$50,000-\$54,999, an increase of \$5,000 from last year

Executive Director, CWRU Career Center

Methodology

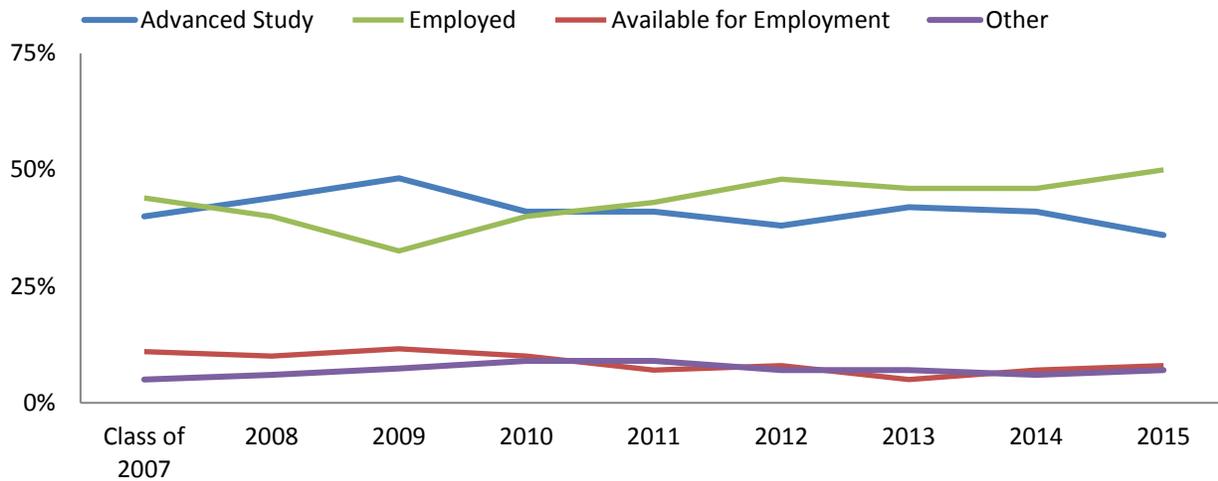

The 2015 First Destination Survey was distributed to 875 graduating seniors using a web-based technique. Job and graduate/professional school plan data was also collected from faculty, staff, and social media. Overall, post-graduation plan data was collected for 77% of graduates (n=672/875).

The First Destination Survey was distributed in three stages throughout the academic year: August 2014, January 2015, and May 2015. An email was sent to graduates with a link to the survey beginning approximately one month before graduation, and continued to be sent every two weeks to all non-respondents and still-seeking graduates through October 2015. Social media was used to gather information on non-respondents and those students who indicated they were still seeking employment after graduation. Faculty and staff were also contacted for post-graduation plan information on non-respondents and those graduates still seeking employment.

Appendix A includes a copy of the First Destination Survey used to capture the information contained in this report. The survey was administered using CampusLabs, an assessment vendor contracted by the Division of Student Affairs.

Thirty-two percent (n=215) of graduates reported multiple plans for after graduation. Of those who reported multiple plans, 47% intended to work and pursue graduate/professional school simultaneously.¹

Plan to Work and Attend Graduate/Professional School

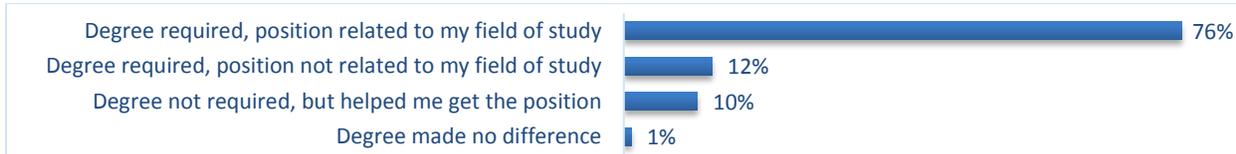

¹ Graduates who planned to start their own business or participate in the military were excluded. Graduates who planned to work part-time and full-time were included. Students who earned degrees from more than one school/college are included in the counts for each college/school in which they earned a degree.

Employment

Job Qualifications

Fifty percent (n=334) of graduates accepted full-time employment and 254 (76%) provided a response to whether or not a college degree was required for their jobs. Of those who answered the question, 88% said their position required a college degree and 76% said their position required a college degree and was related to their field of study.

Industries

Of the 334 graduates who accepted full-time employment, 78% (n=260) provided information about their chosen industry.

Industry	n	%	Industry	n	%

Business Ventures

Six graduates indicated that they were starting their own business, were self-employed, or working freelance. A description of their work is provided below.

- Biotech – going into research phase of a bioaugmentation company. Will be doing research at a university, not through any program but with the approval of appropriate research faculty.
- Electric motor manufacturing for the 5-20 Horsepower range. Designs are based off the Tesla Motor IP.
- Entertainment industry in film acting and screen writing.
- Experiential education, visual arts, continued research in Cognitive Linguistics with the intention of publication.
- Healthcare simulation technology.
- Working as a freelance journalist for the summer and a volunteer on a farm in Germany.

Employers

CWRU graduates accepted full-time employment with a wide variety of Fortune 500, government, non-profit, and private sector employers, a sample of which is provided below.

Fortune 500

Apple
General Motors
General Electric
JP Morgan Chase
IBM
Boeing

The Spaceship Company

Job Locations

Of the 334 graduates who accepted full-time employment, 96% (n=319) provided information about the location of their position. Sixty-six percent (n=210) accepted positions in the Midwest United States.² Fifty-three percent (n=169) accepted positions in Ohio. Of those who accepted positions in Ohio, 93% (n=157) accepted positions in the northeastern region. Outside of Ohio, many graduates accepted jobs in California, Illinois, New York, Pennsylvania, and Wisconsin. Four graduates accepted full-time employment outside the United States.

² Regions were determined based on the U.S. Census Bureau document *Census Regions and Divisions of the United States*. Retrieved January 4, 2013.

Starting Salaries

Seventy-six percent (n=255) of the 334 graduates who accepted full-time employment provided salary information. The median salary range for those who accepted full-time employment was \$55,000-\$59,999.

Graduate/Professional Schools

A total of 240 students marked graduate/professional school as their primary plan for after graduation. Of those, 225 provided the name of their graduate/professional school. The list below highlights some of the institutions they chose to attend.

A.T. Still University	Singapore Management University
Banff Centre	Texas A&M University
Boston University (2)	Tulane University
Brandeis University	University at Buffalo
Carnegie Mellon University (2)	University of California, Berkeley (5)
Case Western Reserve University (90)	University of California, Irvine
Columbia University (2)	University of California, San Diego
Cornell University (3)	University of California, Santa Barbara
Duke University	University of Illinois at Urbana-Champaign
Georgia Institute of Technology (3)	University of Michigan
Iowa State University	University of North Carolina at Chapel Hill
Johns Hopkins University	University of Pennsylvania
Massachusetts Institute of Technology (2)	University of Pittsburgh (3)
Michigan State University (2)	University of Rochester (4)
New York University (4)	University of Southern California
Northeast Ohio Au.D. Consortium	University of Texas at Austin
Northwestern University (3)	University of Texas Southwestern Medical School
Ohio State University (5)	University of Washington (3)
Pennsylvania State University	University of Wisconsin - Madison
Richard Gilder Graduate School	Vanderbilt University
Rutgers, The State University of New Jersey	Washington University in St. Louis
Scripps Research Institute	

Law Schools

Of the 240 students who marked graduate school as their primary plan after college, 5% (n=11) said they were going to law school. Their chosen universities included:

Case Western Reserve University	Ohio State University
Cleveland State University	University of California, Berkeley
DePaul University	University of San Diego
Michigan State University	University of Texas at Austin
New York University	Vanderbilt University

Medical Schools

Fifteen percent (n=37) of graduates planned to attend medical school.³ More specifically, graduates chose to attend the following medical schools:

A.T. Still University	Rutgers, The State University of New Jersey
Albany Medical College	Saint Louis University
Boston University	Tulane University
Case Western Reserve University (7)	University at Buffalo
Creighton University	University of California, Irvine
Duke University	University of Central Florida
Liberty University	University of Cincinnati (2)
Loyola University Chicago	University of Illinois - Chicago (2)
Marian University	University of Massachusetts
Michigan State University	University of Texas Southwestern Medical School
Northeast Ohio Medical University (2)	University of Toledo (4)
Northwestern University	Wright State University
Oregon Health & Science University	

Scholarships and Fellowships

Several students also received competitively-awarded scholarships or fellowships through their graduate or professional school. In addition, one graduate was awarded the National Science Foundation Graduate Research Fellowship.

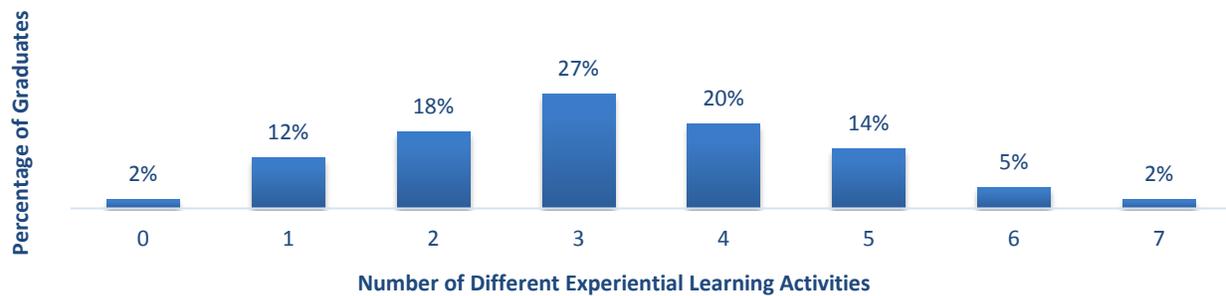

³ Planned to pursue M.D. or D.O. degrees.

Experiential Learning

Participation

Five hundred eight (508) graduates answered the experiential learning questions. Of those graduates, 98% (n=500) participated in at least one form of experiential learning.

Participation in Experiential Learning

Of those who participated in experiential learning, Nursing graduates had the highest average number of activities (3.87), followed by Arts and Sciences graduates (3.39), Engineering graduates (3.12), and Management graduates (2.84). Internships and community service were the most popular activities for Engineering and Management graduates while the most common activities for Arts and Sciences graduates were community service and research with CWRU faculty. All Nursing graduates participated in at least one nursing practicum/clinical and more than 70% also participated in community service. The table below describes participation by school/college.⁴

⁴ Students who earned degrees from more than one school/college are included in the counts for each college/school in which they earned a degree.

Results of Participation

Graduates were asked about the outcome of their experiential learning activities. A total of 199 students received at least one job offer, 47 of whom received two job offers, and four of whom received three job offers. Of the 199 students who received job offers, 122 students accepted. The table below provides additional information. ⁵

Appendix A: First Destination Survey 2015

Dear CWRU Graduate:

Please take a couple of minutes to complete our First Destination Survey regarding your post-graduation plans.

Your privacy is assured as information will be presented in a final report strictly as summary data only with no self-identification. The only information that would be shared, should you choose to provide it, would be your current email address and current home address, which will be requested in the last item on this survey. This information would only be shared with Alumni Relations; all other information will remain confidential.

Thank you for your time and the information you can share.

Cordially,

Thomas B. Matthews, Ph.D.
Executive Director, Career Center
