Attachment # 2 -

On Monday, 4/2/07, the Nursing School faculty approved a revision of pre- and co-requisites to courses in the BSN program. Many of the BSN courses have been revised over the past several years and some change in sequence has occurred, making the previous pre- and co-requisites outdated and wrong. Some change has also occurred with regard to required science courses and the currently listed prerequisites reflect the old course numbers. Since there were so many changes, they were presented to the faculty in a table rather than on CAF’s. Now that they are approved, CAF’s will be generated and submitted to the UUFCC at the May 2007 meeting.
