Departmental Admin Center: Student Center

Concept

The Student Center is a series of screens in the SIS that display a student’s academic, financial and personal information. It is accessed by selecting a student from the Departmental Admin Center department roster. This topic will demonstrate how to locate a student’s academic, financial and personal information in the Student Center.

Step 2. The Student Center appears. The student's name and ID number are listed at the top of the screen.

If a student has a Service Indicator, Hold, or FERPA indicator, symbols will appear at the top-right of the screen.

A red circle with a line through it indicates that the student has a service indicator, such as an advising hold, that will prevent him/her from registering for classes or obtaining important documents.

A star symbol indicates that the student has a service indicator that does not affect his/her ability to register for classes or obtain documents; it is for internal use only.

A FERPA indicator is a "window shade" symbol that indicates that the student has restricted his/her personal data beyond the restrictions that are already imposed by FERPA. No information can be released on this student without his/her written permission. Click on the symbol to see what data the student has elected to restrict.
