

Francisca García-Cobián Richter is a Research Assistant Professor at the Jack, Joseph and Morton Mandel School of Applied Social Sciences, Case Western Reserve University.

She earned an undergraduate degree in statistics from the Universidad Católica del Perú (1994). Her M.S. in statistics (1997) and Ph.D. in agricultural economics (2000) are both from Oklahoma State University. Prior to coming to CWRU, she was a Research Economist in Community Development at the Federal Reserve Bank of Cleveland.

Dr. Richter's research focuses on the analysis of social interventions and the environments in which they operate. Her recent work includes estimating the effects of housing and neighborhood quality on children's academic outcomes, evaluating a pay-for-success intervention targeted to families in the child welfare system facing housing instability, and assessing the economic cost of childhood exposure to domestic violence.

Dr. Richter is also associate director of the Math Corps Cleveland, a community-oriented academic enrichment and mentoring program for area middle and high-school students.
