

Liliane Cambraia Windsor, Ph.D., MSW is Lillian F. Harris Professor of Social Work at Case Western University, Jack, Joseph and Morton Mandel School of Applied Social Sciences. Dr. Windsor's research focuses on the application of critical consciousness theory to the development of multi-level interventions designed to promote health equity in the fields of substance use disorders treatment, infectious disease, and the criminal legal system in disinvested and minoritized communities. Dr. Windsor follows community based participatory research (CBPR) principles and the multiphase optimization strategy (MOST) and she utilizes a variety of scientific methodologies including ethnography, randomized experimental controlled trials, measurement development, meta-analysis, and online survey. She is the founder and chair of the Critical Consciousness Collaborative (3C, www.the3c.org), a group of researchers, service providers, and consumers who partner with marginalized communities to develop evidence-based health interventions with real world impact. Over the past 15 years, the 3C developed Community Wise, the first evidence-based intervention to reduce substance use in disinvested Black communities. Dr. Windsor has served as principal investigator in multiple large randomized controlled trials funded by the National Institute on Minority Health and Health Disparities and the National Institute of Allergy and Infectious Disease to optimize multilevel interventions to promote health equity. Dr. Windsor is a 2019-2020 Robert Wood Johnson Health Policy Fellow with a placement in Senator Dick Durbin's office. Prior to joining the Mandel School, Dr. Windsor was a co-lead of the Behavioral Health Working Group at the Institute for Government and Public Affairs, Associate Dean for Research, and Professor of Social Work at the University of Illinois Urbana-Champaign. Dr. Windsor is a member of the Society for Social Work Research, the national Association of Social Workers, and the Council on Social Work Education. Born and raised in Brazil, Dr. Windsor received her Bachelor of Science degree in Education from FCH-FUMEC, Brazil in 1998. She moved to Texas in 2000 to pursue her Master of Science and doctoral degrees in Social Work from The University of Texas at Austin.
