

Getting Involved: ENVIRONMENT

Alliance for the Great Lakes

The Alliance for the Great Lakes works to protect the Great Lakes for today and tomorrow. They involve tens of thousands of people each year in advocacy, volunteering, education, and research to ensure the lakes are healthy and safe for all.

Cleveland Botanical Garden

The Garden commits itself to serving the Greater Cleveland community through various outreach programs such as Green Corps, an urban-farming program for inner-city teens to develop work and life skills while transforming vacant city lots into productive gardens and green space.

Cleveland Metroparks

Cleveland Metroparks' mission is to conserve significant natural resources and enhance people's lives by integrating high-quality outdoor education, recreation and zoological opportunities into people's lives.

Cleveland Museum of Natural History

To inspire, through science and education, a passion for nature, the protection of natural diversity, the fostering of health and leadership to a sustainable future.

Cuyahoga Soil & Water Conservation District

Their mission is to advocate and implement best management practices for conservation of land and aquatic resources in a developed environment through education, stewardship and technical assistance.

Cuyahoga Valley National Park

The National Park Service preserves unimpaired the natural and cultural resources and values of the National Park System for the enjoyment, education, and inspiration of this and future generations. The Park Service cooperates with partners to extend the benefits of natural and cultural resource conservation and outdoor recreation throughout this country and the world.

Doan Brook Watershed Partnership

As the region works to preserve the bio-diverse, freshwater resources of Lake Erie as an underpinning of regional revitalization, the DBWP will focus on restoring ecosystem services within the Doan Brook watershed to further local sustainability goals.

Drink Local. Drink Tap

The mission at DLDT is to take care of the water resources we have and share with those who don't. They care about human connection and sustainability through all of their programming.

EarthShare

EarthShare's mission is to accelerate the pace of positive environmental change by unleashing the collaborative power of motivated businesses and passionate people in support of their vital network of member organizations.

Environmental Health Watch

Environmental Health Watch provides education, advocacy, and direct service to families while also working alongside policy makers to spotlight and confront critical environmental health issues.

Keep Euclid Beautiful

Keep Euclid Beautiful's mission is to empower neighborhoods and residents to take greater responsibility for improving our local environment through litter prevention, beautification, community greening, waste reduction and recycling

Nature Center at Shaker Lakes

Serving the community as a conserved green space, the Nature Center at Shaker Lakes connects visitors with nature and inspires environmental stewardship in thousands of adults and children each year through engaging and educational programs.

Tinkers Creek Watershed Partners

Tinker's Creek Watershed Partner's mission is to protect and restore water quality and habitats of the Tinker's Creek watershed through community partnerships. The Tinker's Creek watershed drains 96.4 square miles and is the largest tributary to the Cuyahoga River.

University Farm

The goal of the University Farm is to enhance and complement the university's mission of education, research and community service through its unique natural settings, history and cultural features. The farm also supports and enhances additional university community activities, including athletics and recreational events.

Western Reserve Land Conservancy

WRLC's mission is to provide the people of our region with essential natural assets through land conservation and restoration. They strive to promote thriving, prosperous communities nourished by vibrant natural lands, working farms and healthy cities.
