# **COVID-19 Rapid Antigen Test Instructions**

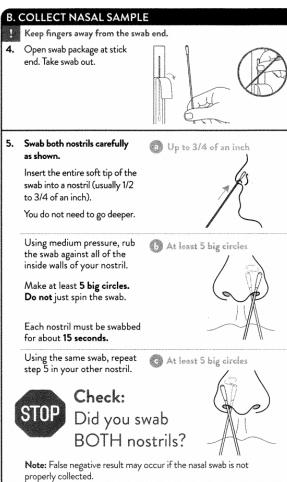

#### **INSTRUCTIONS - START HERE**

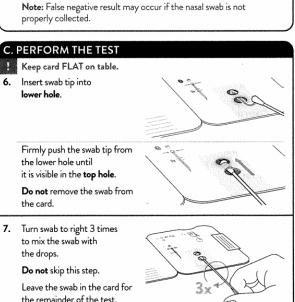

Carefully read instructions prior to starting test. It is recommended gloves (not provided) also be used during testing. See other side for important information.

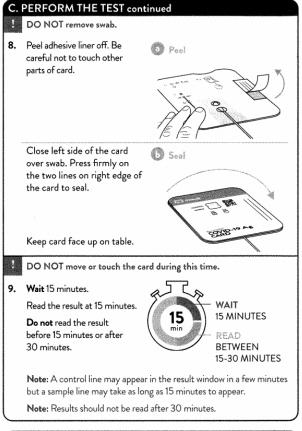

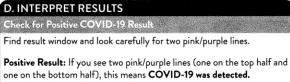

# **COVID-19 Rapid Antigen Test Instructions**

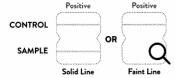

Note: False negative result can occur if swab is not turned.

Look very closely!

The bottom line
can be very faint.
Any pink/purple
line visible here is a
Positive Result.

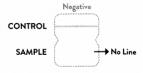

Below are photos of actual positive tests. On the right, note how faint the bottom line can get.

### Check for Negative COVID-19 Resul

Find result window and look for a single pink/purple line in window.

Negative Result: If you see only one pink/purple line on the top half, where it says "Control" this means COVID-19 was not detected.

### D. INTERPRET RESULTS continued

Check for Invalid Result

If you see any of these, the test is invalid. An invalid result means this test was unable to determine whether you have COVID-19 or not. A new test is needed to get a valid result.

Please contact Technical Support at + 1-833-637-1594.

Note: See other side to read about what your results mean.

### E. DISPOSE THE TEST KIT

Throw away all used test kit components in the trash.

### F. REPORT YOUR RESULTS

Report your test result through the NAVICA app and by contacting your healthcare provider.

**Note:** If you do not have symptoms, a second test should be taken at least 24 hours (and no more than 48 hours) between tests.
