

Abortion

Abortion means ending a pregnancy. There are two abortion options: in-clinic abortion and medical abortion (aka abortion pill). Both of these options are safe. However, your location within the United States may impact the availability of an abortion. Choosing the right abortion for you depends on how far along you are in your pregnancy, what is available at health centers near you, and what feels most comfortable to you.

ACCESS & SERVICES

If you are looking for abortion services, you can reach out to UH&CS to schedule an appointment to discuss your options and find the best healthcare resources.

You may also visit any of the following websites:

- *Abortion Fund of Ohio*
